*Women, Race, & Class* Angela Y. Davis, 2011-06-29 From one of our most important scholars and civil rights activist icon, a powerful study of the women's liberation movement and the tangled knot of oppression facing Black women. "Angela Davis is herself a woman of undeniable courage. She should be heard."—The New York Times Angela Davis provides a powerful history of the social and political influence of whiteness and elitism in feminism, from abolitionist days to the present, and demonstrates how the racist and classist biases of its leaders inevitably hampered any collective ambitions. While Black women were aided by some activists like Sarah and Angelina Grimke and the suffrage cause found unwavering support in Frederick Douglass, many women played on the fears of white supremacists for political gain rather than take an intersectional approach to liberation. Here, Davis not only contextualizes the legacy and pitfalls of civil and women's rights activists, but also discusses Communist women, the murder of Emmitt Till, and Margaret Sanger's racism. Davis shows readers how the inequalities between Black and white women influence the contemporary issues of rape, reproductive freedom, housework and child care in this bold and indispensable work.

*The Black Jacobins* C.L.R. James, 2023-08-22 A powerful and impassioned historical account of the largest successful revolt by enslaved people in history: the Haitian Revolution of 1791–1803 "One of the seminal texts about the history of slavery and abolition.... Provocative and empowering." —The New York Times Book Review *The Black Jacobins*, by Trinidadian historian C. L. R. James, was the first major analysis of the uprising that began in the wake of the storming of the Bastille in France and became the model for liberation movements from Africa to Cuba. It is the story of the French colony of San Domingo, a place where the brutality of plantation owners toward enslaved people was horrifyingly severe. And it is the story of a charismatic and barely literate enslaved person named Toussaint L'Ouverture, who successfully led the Black people of San Domingo against successive invasions by overwhelming French, Spanish, and English forces—and in the process helped form the first independent post-colonial nation in the Caribbean. With a new introduction (2023) by Professor David Scott.

*Poor People's Movements* Frances Fox Piven, Richard Cloward, 2012-02-08 Have the poor fared best by participating in conventional electoral politics or by engaging in mass defiance and disruption? The authors of the classic *Regulating The*

Poor assess the successes and failures of these two strategies as they examine, in this provocative study, four protest movements of lower-class groups in 20th century America: -- The mobilization of the unemployed during the Great Depression that gave rise to the Workers' Alliance of America -- The industrial strikes that resulted in the formation of the CIO -- The Southern Civil Rights Movement -- The movement of welfare recipients led by the National Welfare Rights Organization.

Slavery by Another Name Douglas A. Blackmon, 2012-10-04 A Pulitzer Prize-winning history of the mistreatment of black Americans. In this 'precise and eloquent work' - as described in its Pulitzer Prize citation - Douglas A. Blackmon brings to light one of the most shameful chapters in American history - an 'Age of Neoslavery' that thrived in the aftermath of the Civil War through the dawn of World War II. Using a vast record of original documents and personal narratives, Blackmon unearths the lost stories of slaves and their descendants who journeyed into freedom after the Emancipation Proclamation and then back into the shadow of involuntary servitude thereafter. By turns moving, sobering and shocking, this unprecedented account reveals these stories, the companies that profited the most from neoslavery, and the insidious legacy of racism that reverberates today.

**The Purpose of Power** Alicia Garza, 2020-10-20 An essential guide to building transformative movements to address the challenges of our time, from one of the country's leading organizers and a co-creator of Black Lives Matter "Excellent and provocative . . . a gateway [to] urgent debates."—Keeanga-Yamahtta Taylor, *The New Yorker* NAMED ONE OF THE BEST BOOK OF THE YEAR BY Time • Marie Claire • Kirkus Reviews In 2013, Alicia Garza wrote what she called "a love letter to Black people" on Facebook, in the aftermath of the acquittal of the man who murdered seventeen-year-old Trayvon Martin. Garza wrote: Black people. I love you. I love us. Our lives matter. With the speed and networking capacities of social media, #BlackLivesMatter became the hashtag heard 'round the world. But Garza knew even then that hashtags don't start movements—people do. Long before #BlackLivesMatter became a rallying cry for this generation, Garza had spent the better part of two decades learning and unlearning some hard lessons about organizing. The lessons she offers are different from the "rules for radicals" that animated earlier generations of activists, and diverge from the charismatic, patriarchal model of the American civil rights movement. She reflects instead on how making room amongst the woke for those who are still awakening can inspire and activate more people to fight for the world we all deserve. This is the story of one woman's lessons through years of bringing people together to create change. Most of all, it is a new paradigm for change for a new generation of changemakers, from the mind and heart behind one of the most important movements of our time.

**Decolonizing Methodologies** Linda Tuhiwai Smith, 2016-03-15 'A landmark in the process of decolonizing imperial Western knowledge.' Walter Mignolo, Duke University To the colonized, the term 'research' is conflated with European colonialism; the ways in which academic research has been implicated in the throes of imperialism remains a painful

memory. This essential volume explores intersections of imperialism and research - specifically, the ways in which imperialism is embedded in disciplines of knowledge and tradition as 'regimes of truth.' Concepts such as 'discovery' and 'claiming' are discussed and an argument presented that the decolonization of research methods will help to reclaim control over indigenous ways of knowing and being. Now in its eagerly awaited second edition, this bestselling book has been substantially revised, with new case-studies and examples and important additions on new indigenous literature, the role of research in indigenous struggles for social justice, which brings this essential volume urgently up-to-date.

Cotton is King, and Pro-slavery Arguments E. N. Elliott, 1860

**The First Emancipator** Andrew Levy, 2007-01-09 “[Andrew Levy] brings a literary sensibility to the study of history, and has written a richly complex book, one that transcends Carter’s story to consider larger questions of individual morality and national memory.” -The New York Times Book Review In 1791, Robert Carter III, a pillar of Virginia’s Colonial aristocracy, broke with his peers by arranging the freedom of his nearly five hundred slaves. It would be the largest single act of liberation in the history of American slavery before the Emancipation Proclamation. Despite this courageous move—or perhaps because of it—Carter’s name has all but vanished from the annals of American history. In this haunting, brilliantly original work, Andrew Levy explores the confluence of circumstance, conviction, war, and emotion that led to Carter’s extraordinary act. As Levy points out, Carter was not the only humane master, nor the sole partisan of emancipation, in that freedom-loving age. So why did he dare to do what other visionary slave owners only dreamed of? In answering this question, Levy reveals the unspoken passions that divided Carter from others of his class, and the religious conversion that enabled him to see his black slaves in a new light. Drawing on years of painstaking research and written with grace and fire, *The First Emancipator* is an astonishing, challenging, and ultimately inspiring book. “A vivid narrative of the future emancipator’s evolution.” -The Washington Post Book World “Highly recommended . . . a truly remarkable story about an eccentric American hero and visionary . . . should be standard reading for anyone with an interest in American history.” -Library Journal (starred review) “Absorbing. . . Well researched and thoroughly fascinating, this forgotten history will appeal to readers interested in the complexities of American slavery.” -Booklist (starred review)

**Cotton is King** David Christy, 1856

**Christian Slavery** Katharine Gerbner, 2018-02-07 Could slaves become Christian? If so, did their conversion lead to freedom? If not, then how could perpetual enslavement be justified? In *Christian Slavery*, Katharine Gerbner contends that religion was fundamental to the development of both slavery and race in the Protestant Atlantic world. Slave owners in the Caribbean and elsewhere established governments and legal codes based on an ideology of Protestant Supremacy, which excluded the majority of enslaved men and women from Christian communities. For slaveholders, Christianity was a sign of freedom, and most believed that slaves should not be eligible for conversion. When Protestant missionaries arrived in the

plantation colonies intending to convert enslaved Africans to Christianity in the 1670s, they were appalled that most slave owners rejected the prospect of slave conversion. Slaveholders regularly attacked missionaries, both verbally and physically, and blamed the evangelizing newcomers for slave rebellions. In response, Quaker, Anglican, and Moravian missionaries articulated a vision of Christian Slavery, arguing that Christianity would make slaves hardworking and loyal. Over time, missionaries increasingly used the language of race to support their arguments for slave conversion. Enslaved Christians, meanwhile, developed an alternate vision of Protestantism that linked religious conversion to literacy and freedom. Christian Slavery shows how the contentions between slave owners, enslaved people, and missionaries transformed the practice of Protestantism and the language of race in the early modern Atlantic world.

Rules for Radicals Saul Alinsky, 2010-06-30 "This country's leading hell-raiser (The Nation) shares his impassioned counsel to young radicals on how to effect constructive social change and know "the difference between being a realistic radical and being a rhetorical one." First published in 1971 and written in the midst of radical political developments whose direction Alinsky was one of the first to question, this volume exhibits his style at its best. Like Thomas Paine before him, Alinsky was able to combine, both in his person and his writing, the intensity of political engagement with an absolute

insistence on rational political discourse and adherence to the American democratic tradition.

**Social Movements, 1768 - 2012** Charles Tilly, Lesley J. Wood, 2015-12-22 The updated and expanded third edition of Tilly's widely acclaimed book brings this analytical history of social movements fully up to date. Tilly and Wood cover such recent topics as the economic crisis and related protest actions around the globe while maintaining their attention to perennially important issues such as immigrants' rights, new media technologies, and the role of bloggers and Facebook in social movement activities. With new coverage of colonialism and its impact on movement formation as well as coverage and analysis of the 2011 Arab Spring, this new edition of *Social Movements* adds more historical depth while capturing a new cycle of contention today. New to the Third Edition Expanded discussion of the Facebook revolution and the significance of new technologies for social movements Analysis of current struggles including the Arab Spring and pro-democracy movements in Egypt and Tunisia, Arizona's pro- and anti-immigration movements, the Tea Party, and the movement inspired by Occupy Wall Street Expanded discussion of the way the emergence of capitalism affected the emergence of the social movement.

**Fearless Cities** Ada Colau, 2019 A guide to winning back our towns and cities from below by municipalist platform Barcelona en Comu. In a world in which fear and insecurity are being twisted into hate, and inequalities, xenophobia and authoritarianism are on the rise, a renewed municipalist movement is standing up to defend human rights, radical democracy and the common good.
