matlab based chapters of various  
engineering background instead of  
giving exhausting amount of technical  
details authors were rather advised to  
explain relations of their problems to  
actual matlab concepts so whenever  
possible download links to functioning  
matlab codes were added and a

 web this example demonstrates how  
 neural networks can be used as  
 classifiers for cancer detection to

improve classifier performance you can  
 also try using techniques like principal  
 component analysis for reducing the  
 dimensionality of the data used for  
 neural network training
