**The Metaphor of the Monster** Keith Moser, Karina Zelaya, 2020-10-15 The Metaphor of the Monster offers fresh perspectives and a variety of disciplinary approaches to the ever-broadening field of monster studies. The eclectic group of contributors to this volume represents areas of study not generally considered under the purview of monster studies, including world literature, classical studies, philosophy, ecocriticism, animal ethics, and gender studies. Combining historical overviews with contemporary and global outlooks, this volume recontextualizes the monstrous entities that have always haunted the human imagination in the age of the Anthropocene. It also invites reflection on new forms of monstrosity in an era epitomized by an unprecedented deluge of (mis)information. Uniting researchers from varied academic backgrounds in a common effort to challenge the monstrous labels that have historically been imposed upon the Other, this book endeavors above all to bring the monster out of the shadows and into the light of moral consideration.

**The Politics of Knowledge in Inclusive Development and Innovation** David Ludwig, Birgit Boogaard, Phil Macnaghten, Cees Leeuwis, 2021-10-14 This book develops an integrated perspective on the practices and politics of making

knowledge work in inclusive development and innovation. While debates about development and innovation commonly appeal to the authority of academic researchers, many current approaches emphasise the plurality of actors with relevant expertise for addressing livelihood challenges. Adopting an action-oriented and reflexive approach, this volume explores the variety of ways in which knowledge works, paying particular attention to dilemmas and controversies. The six parts of the book address the complex interplay of knowledge and politics, starting with the need for knowledge integration in the first part and decolonial perspectives on the politics of knowledge integration in the second part. The following three parts focus on the practices of inclusive development and innovation through three major themes of learning for transformative change, evidence, and digitisation. The final part of the book addresses the governance of knowledge and innovation in the light of political struggles about inclusivity. Exploring conceptual and practical themes through case studies from the Global North and South, this book will be of great interest to students, scholars, and practitioners researching and working in development studies, epistemology, innovation studies, science and technology studies, and sustainability studies more broadly.

**Beautiful Boys/Outlaw Bodies** K. Mezur, 2005-11-04 This book is a feminist reading of gender performance and construction of the female role players, onnogata, of the Kabuki theatre. *Men and Feminism* Shira Tarrant, 2009-05-12 There's no denying that men's involvement and interest in feminism is key to its continuing relevance and importance. Addressing the question of why men should care about feminism in the first place, *Men and Feminism* lays the foundation for a larger discussion about feminism as a human issue, not simply a women's issue. Men are crucial to the movement—as fathers, brothers, husbands, boyfriends, and friends. From why to how to what can men do, *Men and Feminism* answers all the questions men have about how and why they should get behind feminism.

**Women Leadership in Emerging Markets** Shireen Chengadu, Caren Scheepers, 2017-07-06 This book focuses on the increase in female leadership over the last fifty years, and the concrete benefits and challenges this leads to in organizations. It moves beyond the typical focus on developed, Western contexts and answers the call for research on how women in emerging markets rise above the proverbial “glass ceiling”. The authors integrate two underdeveloped topics that are highly relevant to modern business: women in leadership roles, and women in emerging markets. They examine how women leaders in a range of professional services—including accounting, consulting, law, engineering and medicine—have managed to navigate their careers while considering the role emerging markets play in their work. Based on cutting-edge research, the topics are brought to life through examples and profiles of leading women across Africa, the Middle East and the Far East. These narratives, told in the leaders’ own words, are key to understanding women’s achievements and the barriers they face. Students of leadership, diversity, gender studies, and human resource management will learn much from this insightful book.

**When Loss Gets Personal** Michelle M. Falter, Steven T. Bickmore, 2018-11-23 *When Loss Gets Personal* considers how secondary English language arts teachers and teacher educators can sensitively and thoughtfully teach pieces of literature in their classrooms in which death is a significant, if not central, aspect of the texts. Death is something that affects all people young and old, yet it is rarely discussed openly in classrooms despite its prevalence in texts read in ELA classrooms. Whether it is canonical or contemporary literature, middle grades or young adult literature, fiction, nonfiction, or graphic novels, literature provides a vehicle to have difficult but needed conversations about personal deaths such as cancer, accidents, suicide, etc. Each chapter in this book focuses on 1-2 texts and provides practical activities that ask students to engage with the loss through writing assignments, projects, activities, and discussion prompts in order to build empathy, understanding, and develop critically-minded and engaged students. *When Loss Gets Personal* will be of interest to English language arts teachers, teacher educators, librarians, and scholars who wish to explore with their students the complex emotions that revolve around discussing deaths that occur in literature.

**The State of Families** Jennifer Reich, 2020-12-29 *The State of Families: Law, Policy, and the Meanings of Relationships* collects essential readings on the family to examine the multiple forms of contemporary families, the many issues facing families, the policies that regulate families, and how families—and family life—have become politicized. This text explores various dimensions of the family and uses a critical approach to understand the historical, cultural, and political constructions of the family. Each section takes different aspects of the family to highlight the intersection of individual experience, structures of inequality—including race, class, gender, sexuality, disability, and immigration—and state power. Readings, both original and reprinted from a wide range of experts in the field, show the multiple forms and meanings of family by delving into topics including the traditional ground of motherhood, childhood, and marriage, while also exploring cutting edge research into fatherhood, reproduction, child-free families, and welfare. Taking an interdisciplinary approach to the family, *The State of Families* offers students in the social sciences and professionals working with families new ways to identify how social structure and institutional practice shape individual experience.

**Holding It Together** Jessica Calarco, 2024-06-04 Other countries have social safety nets. The U.S. has women. *Holding It Together* chronicles the causes and dire consequences. America runs on women—women who are tasked with holding society together at the seams and fixing it when things fall apart. In this tour de force, acclaimed Sociologist Jessica Calarco lays bare the devastating consequences of our status quo. *Holding It Together* draws on five years of research in which Calarco surveyed over 4000 parents and conducted more than 400 hours of interviews with women who bear the brunt of our broken system. A widowed single mother struggles to patch together meager public benefits while working three jobs; an aunt is pushed into caring for her niece and nephew at age fifteen once their family is shattered by the opioid epidemic; a daughter becomes the backstop caregiver for her mother, her husband, and her child because of the perceived flexibility of her job; a

well-to-do couple grapples with the moral dilemma of leaning on overworked, underpaid childcare providers to achieve their egalitarian ideals. Stories of grief and guilt abound. Yet, they are more than individual tragedies. Tracing present-day policies back to their roots, Calarco reveals a systematic agreement to dismantle our country's social safety net and persuade citizens to accept precarity while women bear the brunt. She leads us to see women's labor as the reason we've gone so long without the support systems that our peer nations take for granted, and how women's work maintains the illusion that we don't need a net. Weaving eye-opening original research with revelatory sociological narrative, *Holding It Together* is a bold call to demand the institutional change that each of us deserves, and a warning about the perils of living without it.

**Diary of a Philosophy Student** Simone de Beauvoir, 2006-10-09 Simone de Beauvoir, still a teen, began a diary while a philosophy student at the Sorbonne. Written in 1926-27—before Beauvoir met Jean-Paul Sartre—the diaries reveal previously unknown details about her life and times and offer critical insights into her early intellectual interests, philosophy, and literary works. Presented for the first time in translation, this fully annotated first volume of the Diary includes essays from Barbara Klaw and Margaret A. Simons that address its philosophical, historical, and literary significance. It remains an invaluable resource for tracing the development of Beauvoir's independent thinking and her influence on philosophy, feminism, and the world.

*Quotation and Modern American Poetry* Elizabeth Gregory, 1996-07 In this volume Elizabeth Gregory addresses a number of key issues surrounding the formation of the American poetic canon. Taking as her primary examples T. S. Eliot's *Waste Land*, William Carlos Williams' *Paterson*, and selected poems by Marianne Moore, she examines the ways in which modern American writers struggled with questions of literary authority and cultural identity in relation to pre-existing European models. Gregory focuses on these issues through analysis of the use of quotation in modern and postmodern literature, a practice that was strikingly divergent from the accepted use of literary allusion. Her introduction traces a history of quotation as it has been practiced in literature from classical to modern times. She then focuses on the texts of Eliot, Williams, and Moore--three central figures of American modernism whose work the author believes represents a spectrum of responses to the established European model of poetical discourse. Gregory's selection of Moore also allows her to deal with feminist concerns as they emerge in the more general modernist dialogue. How was a female writer to make use of a literary canon that traditionally excluded female participation? The implications of Gregory's argument . . . will surely be of especial interest to feminist scholars of American poetry.--Lois Parkinson Zamora, University of Houston.

**For the Sake of the World** Jonas Idestrom, 2010-01-01 The church exists for the sake of the world. The crucial ecclesiological question that this book raises is How? How does the church exist for sake of the world? One can describe the theological reflections in this book as a form of concrete ecclesiology--critical theological reflections on the way the church is manifested in social and historical contexts as a social body. By using concepts like body, queer, human rights, practices, social process, and space, the manifestations of the concrete church are critically and constructively analyzed from a theological perspective. The arguments in the articles were presented at a symposium in Sweden. The purpose of the symposium was not to reach consensus but to stimulate creative and critical discussions concerning theology, politics and the identity of the church with a focus on Church of Sweden. American theologian William T. Cavanaugh, who has made himself known as a distinct voice in the discussion of ecclesiology and politics, participated and contributes with critical and constructive reflections on the relationship between church and state. This book offers important arguments and reflections into the discussion on ecclesiology and politics that has relevance far beyond the Swedish context. Contributors: JONAS IDESTR...M, WILLIAM T. CAVANAUGH, ARNE RASMUSSEN, HENRIK WIDMARK, G...RAN GUNNER, NINNA EDGARDH, ANTJE JACKELfN, and OLA SIGURDSON.
