Community Data Rahul Bhargava, 2024-11-04 Community Data offers a new toolkit for data storytelling in community settings, one purpose-built for goals like inclusion, empowerment, and impact. Data science and visualization has spread into new domains it was designed for - community organizing, education, journalism, civic governance, and more. The dominant computational methods and processes, which have not changed in response, are causing significant discriminatory and harmful impacts, documented by leading scholars across a variety of populations. Informed by 15 years of collaborations in academic and professional settings with nonprofits and marginalized populations, the book articulates a new approach for aligning the processes and media of data work with social good outcomes, learning from the practices of newspapers, museums, community groups, artists, and libraries. This book introduces a community-driven framework as a response to the urgent need to realign data theories and methods around justice and empowerment to avoid further replicating harmful power dynamics and ensure everyone has a seat at the table in data-centered community processes. It offers a broader toolbox for working with data and presenting it, pushing beyond the limited vocabulary of surveys, spreadsheets, charts and graphs.

Beyond the Blockbusters Rebekah Fitzsimmons, Casey Alane Wilson, 2020-03-18 Contributions by Megan Brown, Jill Coste, Sara K. Day, Rachel Dean-Ruzicka, Rebekah Fitzsimmons, Amber Gray, Roxanne Harde, Tom Jesse, Heidi Jones, Kaylee Jangula Mootz, Leah Phillips, Rachel L. Rickard Rebellino, S. R. Toliver, Jason Vanfosson, Sarah E. Whitney, and Casey Alane Wilson While critical and popular attention afforded to twenty-first-century young adult literature has exponentially increased in recent years, classroom materials and scholarship have remained static in focus and slight in scope. *Twilight*, *The Hunger Games*, *The Fault in Our Stars*, and *The Hate U Give* overwhelm conversations among scholars and critics—but these are far from the only texts in need of analysis. *Beyond the Blockbusters: Themes and Trends in Contemporary Young Adult Fiction* offers a necessary remedy to this limiting perspective, bringing together essays about the many subgenres, themes, and character types that have until now been overlooked. The collection tackles a diverse range of

topics—modern updates to the marriage plot; fairy tale retellings in dystopian settings; stories of extrajudicial police killings and racial justice. The approaches are united, though, by a commitment to exploring the large-scale generic and theoretical structures at work in each set of texts. As a collection, *Beyond the Blockbusters* is an exciting entryway into a field that continues to grow and change even as its works captivate massive audiences. It will prove a crucial addition to the library of any scholar or instructor of young adult literature.

Good Cities, Better Lives Peter Hall, 2013-09-11 This book has one central theme: how, in the United Kingdom, can we

create better cities and towns in which to live and work and play? What can we learn from other countries, especially our near neighbours in Europe? And, in turn, can we provide lessons for other countries facing similar dilemmas? Urban Britain is not functioning as it should. Social inequalities and regional disparities show little sign of going away. Efforts to generate growth, and spread it to the poorer areas of cities, have failed dismally. Much new urban development and redevelopment is not up to standard. Yet there are cities in mainland Europe, which have set new standards of high-quality sustainable urban development. This book looks at these best-practice examples – in Germany, the Netherlands, France and Scandinavia, – and suggests ways in which the UK and other countries could do the same. The book is in three parts. Part 1 analyses the main issues for urban planning and development – in economic development and job generation, sustainable development, housing policy, transport and development mechanisms – and probes how practice in the UK has fallen short. Part Two embarks on a tour of best-practice cities in Europe, starting in Germany with the country's boosting of its cities' economies, moving to the spectacularly successful new housing developments in the Netherlands, from there to France's integrated city transport, then to Scandinavia's pursuit of sustainability for its cities, and finally back to Germany, to Freiburg – the city that 'did it all'. Part Three sums up the lessons of Part Two and sets out the key steps needed to launch a new wave of urban development and regeneration on a radically different basis.

Urban Ecology for Citizens and Planners Gail Hansen, Joseli Macedo, 2021-11-09 Ideal for city residents, developers, designers, and officials looking for ways to bring urban environments into harmony with the natural world and make cities more sustainable, *Urban Ecology for Citizens and Planners* offers a wealth of information and examples that will answer fundamental scientific questions, guide green initiatives, and inform environmental policies and decision-making processes. This book provides an overview of the synergistic relationships between humans and nature that shape the ecology of urban green spaces. It also emphasizes the social and cultural value of nature in cities for human health and well-being. Chapters describe the basic science of natural components and ecosystems in urban areas and explore the idea of biophilic urbanism, the philosophy of building nature into the framework of cities. To illustrate these topics, chapters include projects, case studies, expert insights, and successful citizen science programs from urban areas around the world. Authors Gail Hansen and Joseli Macedo argue that citizens have increasingly important roles to play in the environmental future of the cities they live in. A valuable resource for real-world solutions, this volume encourages citizens and planners to actively engage and collaborate in improving their communities and quality of life.

The World Under Capitalism Branko Milanovic, 2025-04-07 Branko Milanovic is best known as one of the world's leading experts on global inequality. But he is also an unusually wide-ranging and penetrating commentator on subjects across economics and beyond, in politics, history, and culture. This book brings together his most searching, provocative, and entertaining articles of recent years, providing an abundance of vital insights into the evolution and dynamics of the world under capitalism. The volume features important ideas about the struggle to achieve a more equal and prosperous world against not only the predictable forces of deregulation and distraction but new ideas about shrinking the economy to protect the environment. Further from Milanovic's speciality, readers will find an extraordinary array of reflections on subjects including migration, globalization, the politics and economics of Russia and China, the crisis of liberal democracy, economic and literary history, and the intellectual giants of economics. The pieces are united by Milanovic's distinctive voice – humane, wry, and realistic – and by remarkable erudition worn lightly whether the topic is the fall of Constantinople, Jane Austen, or the mores of contemporary soccer. No one can fail to learn from the book, while the sparkling prose, unexpected observations, and sheer importance of the subjects at hand make it a compelling read from start to finish.

Culture Writing Tim Watson, 2018-01-19 Focusing on the 1950s and early 1960s, *Culture Writing* argues that this period in Britain, the United States, France, and the Caribbean was characterized by dynamic exchanges between literary writers and anthropologists on both sides of the Atlantic. As the British and French empires collapsed and the United States rose to global power in the early Cold War, and as intellectuals from the decolonizing world challenged the cultural hegemony of the West, some anthropologists began to assess their discipline's complicity with empire and experimented with literary forms and technique. *Culture Writing* shows that the literary turn in anthropology took place earlier than has conventionally been assumed, in the 1950s rather than the 1970s and 80s. Simultaneously, some literary writers reacted to the end of the period of modernist experimentation by turning to ethnographic methods for representing the people and cultural practices of Britain, France, and the United States, bringing anthropology back home. There is analysis of literary writers who had a significant professional engagement with anthropology and brought some of its techniques and research questions into literary composition: Barbara Pym (Britain), Ursula Le Guin and Saul Bellow (United States), Édouard Glissant (Martinique), and Michel Leiris (France). On the side of ethnography, the book analyzes works by anthropologists who either explicitly or surreptitiously adopted literary forms for their writing about culture: Laura Bohannon (United States), Michel Leiris and Claude Lévi-Strauss (France), and Mary Douglas (Britain). *Culture Writing* concludes with an epilogue that shows how the

literature-anthropology conversation continues into the postcolonial period in the work of Indian author-anthropologist Amitav Ghosh and Jamaican author-sociologist Erna Brodber.

Hockey on the Moon Jamie Dopp ,2024-11-22 Fantasy and reality come together in sports and Jamie Dopp argues that nowhere is this blurring of the borders of reality more evident than in Canadian hockey. Using imagination as a unifying theme, Dopp offers in-depth analyses of key texts of hockey literature, with a focus on how these texts reveal the imaginative possibilities of the game. Popular texts like Stompin' Tom Connors' "The Hockey Song," Scott Young's Scrubs on Skates trilogy, and Roch Carrier's The Hockey Sweater, as well as important literary texts like Bill Gaston's The Good Body, Cara Hedley's Twenty Miles, and Richard Wagamese's Indian Horse are examined. Dopp's analysis draws on literary history and methods and explores broader topics such as the role of imagination in human culture, the significance of play, the evolution of sport in Canada and elsewhere, the history of Canada, and the history and social significance of hockey.

The Routledge Companion to Cultural Text and the Nation Sheera Talpaz,Anuradha Dingwaney Needham,2025-03-31 The Routledge Companion to Cultural Text and the Nation brings together over 30 articles by leading and emerging scholars from around the world who engage fresh critical lenses, from affect studies to the medical humanities, and re-energize established frameworks to examine the interplay between cultural production and conceptualizations of the nation and nationalism. The scholarship in this volume takes as its objects of analysis various forms of aesthetic and cultural production, from film and literature to museums and costume books, enriching the conversation that has often siloed these forms. Geared toward scholars, graduate students, and upper-level undergraduates across the humanities and social sciences, this timely, interdisciplinary collection is issued at a critical juncture in the transformation of the nation and the global resurgence of regressive and populist nationalist movements. Both offering new insights reorienting our understanding of canonical materials and bringing noncanonical works to light, this volume challenges long-held assumptions about the nation while establishing its continued significance and future possibilities.

Blood at the Root Jennie Lightweis-Goff,2011-08-31 In *Blood at the Root*, winner of the SUNY Press 2009 Dissertation/First Book Prize in African American Studies, Jennie Lightweis-Goff examines the centrality of lynching to American culture, focusing particularly on the ways in which literature, popular culture, and art have constructed the illusion of secrecy and obsolescence to conceal the memory of violence. Including critical study of writers and artists like Ida B. Wells-Barnett, Richard Wright, William Faulkner, George Schuyler, and Kara Walker, Lightweis-Goff also incorporates her personal experience in the form of a year-long travelogue of visits to lynching sites. Her research and travel move outside the American South and rural locales to demonstrate the fiction of confining racism to certain areas of the country and the denial of collective responsibility for racial violence. Lightweis-Goff seeks to implicate societal attitude in the actions of the few and to reveal the legacy of violence that has been obscured by more valiant memories in the public sphere. In exploring the ways

that spatial and literary texts replace lynching with proclamations of innocence and regret, Lightweis-Goff argues that racial violence is an incompletely erupted trauma of American life whose very hiddenness links the past to still-present practices of segregation and exclusion.

Empowering Municipal Sustainability Alexandra Reed Lajoux, 2021-11-08 Amidst growing awareness over the past half century that human activity threatens our natural environment, many of the world's largest cities have played a role in the sustainability movement, as seen by such initiatives as Day of Cities sponsored by the United Nations. And now local governments in towns and smaller cities are beginning to play a more prominent role in the green movement. This book, inspired by the author's own experience as a citizen activist and local candidate, is a guide for local governments and citizens wishing to launch sustainability campaigns and programs that make a lasting difference in our world. Alexandra Reed Lajoux addresses the popular green city topic but focuses on smaller municipalities, which are more numerous than big cities, and in greater need of guidance. With a visionary foreword by Ben G. Price, National Organizer, Community Environmental Legal Defense Fund and author of *How Wealth Rules the World*, the book discusses the most critical environmental, economic, and engineering realities of municipal life and leadership in our times, ranging from rights of nature, to rollback tax rates, to green infrastructure, to gentrification. It will appeal to a broad range of town or city government employees and elected officials, as well as local activists, contemplating the issues of managing and funding sustainability that all localities worldwide face at some level.

The Bonanza King Gregory Crouch, 2018-06-19 "A monumentally researched biography of one of the nineteenth century's wealthiest self-made Americans...Well-written and worthwhile" (The Wall Street Journal) it's the rags-to-riches frontier tale of an Irish immigrant who outwits, outworks, and outmaneuvers thousands of rivals to take control of Nevada's Comstock Lode. Born in 1831, John W. Mackay was a penniless Irish immigrant who came of age in New York City, went to California during the Gold Rush, and mined without much luck for eight years. When he heard of riches found on the other side of the Sierra Nevada Mountains in 1859, Mackay abandoned his claim and walked a hundred miles to the Comstock Lode in Nevada. Over the course of the next dozen years, Mackay worked his way up from nothing, thwarting the pernicious "Bank Ring" monopoly to seize control of the most concentrated cache of precious metals ever found on earth, the legendary "Big Bonanza," a stupendously rich body of gold and silver ore discovered 1,500 feet beneath the streets of Virginia City, the ultimate Old West boomtown. But for the ore to be worth anything it had to be found, claimed, and successfully extracted, each step requiring enormous risk and the creation of an entirely new industry. Now Gregory Crouch tells Mackay's amazing story—how he extracted the ore from deep underground and used his vast mining fortune to crush the transatlantic telegraph monopoly of the notorious Jay Gould. "No one does a better job than Crouch when he explores the subject of mining, and no one does a better job than he when he describes the hardscrabble lives of miners" (San Francisco Chronicle). Featuring great period

photographs and maps, The Bonanza King is a dazzling tour de force, a riveting history of Virginia City, Nevada, the Comstock Lode, and America itself.
