**Manual of Standardization in the Romance Languages** Franz Lebsanft, Felix Tacke, 2020-01-20 Language standardization is an ongoing process based on the notions of linguistic correctness and models. This manual contains thirty-six chapters that deal with the theories of linguistic norms and give a comprehensive up-to-date description and analysis of the standardization processes in the Romance languages. The first section presents the essential approaches to the concept of linguistic norm ranging from antiquity to the present, and includes individual chapters on the notion of linguistic norms and correctness in classical grammar and rhetoric, in the Prague School, in the linguistic theory of Eugenio Coseriu, in sociolinguistics as well as in pragmatics, cognitive and discourse linguistics. The second section focuses on the application of these notions with respect to the Romance languages. It examines in detail the normative grammar and the normative dictionary as the reference tools for language codification and modernization of those languages that have a long and well-established written tradition, i.e. Romanian, Italian, French, Catalan, Spanish, and Portuguese. Furthermore, the volume offers a discussion of the key issues regarding the standardization of the 'minor' Romance languages as well as Creoles.

*Understanding and Teaching the Indirect Object in Spanish* Luis H. González, 2023-06-30 Understanding and Teaching the Indirect Object in Spanish presents an easy-to-understand approach to all aspects of direct and indirect objects in Spanish. Distinguishing between direct and indirect objects can pose challenges for learners and is almost impossible to do using the tools that linguists have traditionally used. This book offers two simple, all-encompassing inferences that allow learners to tackle this area of language by intuitively inferring the distinction, as native speakers do, between verber and verbed. This book will be of interest to teachers and learners of Spanish and other second languages, as well as linguists interested in argument structure, second language acquisition, second language teaching or pedagogy, and multilingualism.
