Modern Nigeria Alex Egodotaye Asakitikpi,Aretha Oluwakemi Asakitikpi,2024-01-25 Discover Nigeria, Africa's most populous country, in this thematic encyclopedia that covers everything from geography and economics to etiquette and pop culture. Part of Bloomsbury's Understanding Modern Nations series, this volume takes readers on a tour of contemporary Nigeria, helping them better understand the country and the many cultures, religions, and ethnicities that call it home. Chapters are organized thematically, examining a variety of topics, including geography, history, government, economics, religion, ethnic and social groups, gender, education, language, etiquette, food, literature and the arts, and pop culture. Each chapter begins with an overview essay, followed by a selection of encyclopedic entries that provide a more nuanced look at that facet of modern Nigeria. The main text is supplemented with sidebars that highlight additional high-interest topics. A collection of appendices rounds out the volume, offering short vignettes of daily life in the country, a glossary of key terms, statistical data, and a list of state holidays. Once a pawn of British colonialism, today Nigeria is a sovereign nation and key player on the world stage. Its vast oil resources have made it an international powerhouse and the wealthiest country on the African continent, yet political unrest and corruption, and ethnic and religious violence continue to threaten this prosperity. Nigeria is equally rich culturally, a nation where time-honored traditions mix with contemporary influences. Explore the diversity of modern Nigeria in this concise and accessible volume.

History of Education in Nigeria A. Babs Fafunwa,2019-12-09 Originally published in 1974, a comprehensive history of Nigerian Education, from early times right through to the time of publication, had long been needed by all concerned with Education in Nigeria, students, teachers and educational administrators. No one was better qualified than Professor Fafunwa

to provide such a book, and in doing so he gave due emphasis to the beginnings of Education in its three main stages of indigenous, Muslim and Christian Education. Nigerian Education had been considered all too often as a comparatively recent phenomenon, but this book points out from the start that 'Education is as old as Man himself in Africa' and that both Islam and Christianity were comparative newcomers in the field. A historical treatment of these three strands which have combined to make up the modern Educational system was vital to a clear understanding of what was needed for the future, and most of the first half of the book is concerned with these Educational beginnings. The imposing of a foreign colonial system on this framework did not always lead to a happy fusion of the systems, and the successes and the failures are examined in detail. There was no shortage of documentary evidence in the form of reports and statistics during the decades prior to publication, but this evidence was frequently scattered and inaccessible to the student, so that the author's careful selection of key evidence and reports, often drawn from his own personal experience, will be invaluable for those wishing to trace the development of Education in Nigeria up to the early 1970s. A knowledge of the history and development of the Nigerian Education system, of the numerous and intensely varied personalities and beliefs which have combined and often conflicted to shape it, is indispensable to all students in colleges and universities studying to become teachers. It is this knowledge that Professor Fafunwa set out to provide, drawing on his wide experience as teacher writer and educationalist.

Explicit Biology - A Revision Course (3rd Edition) O. J. Olaoye, 2014-05-01 The monograph Explicit Biology: A Revision Course for UTME, POST-UTME and other related examinations written by O.J. The African Experience with Higher Education J. F. Ade Ajayi,L. K. H. Goma,Ampah G. Johnson,1996 There have been institutions of higher learning for centuries in Africa, but the phenomenal growth has taken place in the last fifty years, first in the later days of colonialism and then in the heady days of independence and commodity boom. Without them, there would have been no development. The three highly distinguished authors have written the first comprehensive assessment of universities and higher education in Africa south of the Sahara. As can be seen from their biographies, they draw on experience from both francophone and anglophone Africa and from teaching in both the sciences and the arts.
