The 2021 edition includes a focus on equity, investigating how progress through education and the associated learning and labour market outcomes are impacted by dimensions such as gender, socio-economic status, country of birth and regional location.

Psycho-pedagogical research in a Double-degree programme Guido Benvenuto,Maria Serena Veggetti,2020-03-31 In this volume we have collected the contributions of many colleagues from the teaching board of Double Degree Joint Master's Programme in Pedagogy and Educational Sciences and Training of Sapienza University of Rome and two prestigious universities of the Russian Federation: Moscow Federal University for Psychology and Pedagogy (MSUPE) and North-Caucasus Federal University (NCFU) at Stavropol. The present anthology is meant to review the positions and studies that individual teachers from the different universities involved presented in recent years, during online courses, in the lecturing, in the meetings and to discuss their possible opportunities. The volume puts forward this programme, to spread its structure, the theoretical assumptions and the various positions. The contributions are meant to testify a keen interest in internationalization that Sapienza is carrying out. The contributions collected give the reader a chance to share a common interest in the promising approach implied by the Historical-cultural trend in Psychology and Pedagogy of the Vygotsky's thought, which seems a must in psycho-pedagogical reflections, and in organizing and evaluating school activities.

The Praeger International Handbook of Special Education Michael L. Wehmeyer,James R. Patton,2017-06-15 This handbook provides a concise overview of special education services in countries across the world, using the Article on Education in the United Nations Convention on the Rights of Persons with Disabilities as the analytical frame. The Praeger International Handbook of Special Education presents a concise and clear overview of special education services in more than 70 countries across the world using the Article on Education in the United Nations Convention on the Rights of Persons with disabilities as the analytical frame. Each chapter offers information about the country in general, followed by sections on the public education system, the private education system, the special education system, teacher training requirements, and barriers to and promising trends in inclusive and special education. The volumes and chapters are organized by the United Nations Geoscheme, with Volume 1 including an overview of the volumes and chapters on countries in the Americas, Volume 2 addressing countries from Europe and Africa, and Volume 3 focusing on countries in Asia and Oceania. This is the most complete exploration of the delivery of supports and services to children and youth with disabilities across the globe available. The volumes do not compare among or between countries, but rather provide a baseline for understanding current special education practices and their relationship with general education and inclusive practices across the globe. Readers will come away with an in-depth understanding of what is happening with regard to the implementation of special education services and Article 24 of the Convention for the Rights of People with Disabilities. This valuable reference set serves

researchers, graduate students, and policymakers in special and general education as well as professionals focused on issues of education worldwide and scholars focused on international special education. As such, this handbook will be an important reference source for university libraries, professional associations, and policy entities.
