Modern Nigeria Alex Egodotaye Asakitikpi, Aretha Oluwakemi Asakitikpi, 2024-01-25 Discover Nigeria, Africa's most populous country, in this thematic encyclopedia that covers everything from geography and economics to etiquette and pop culture. Part of Bloomsbury's Understanding Modern Nations series, this volume takes readers on a tour of contemporary Nigeria, helping them better understand the country and the many cultures, religions, and ethnicities that call it home. Chapters are organized thematically, examining a variety of topics, including geography, history, government, economics, religion, ethnic and social groups, gender, education, language, etiquette, food, literature and the arts, and pop culture. Each chapter begins with an overview essay, followed by a selection of encyclopedic entries that provide a more nuanced look at that facet of modern Nigeria. The main text is supplemented with sidebars that highlight additional high-interest topics. A collection of appendices rounds out the volume, offering short vignettes of daily life in the country, a glossary of key terms, statistical data, and a list of state holidays. Once a pawn of British colonialism, today Nigeria is a sovereign nation and key player on the world stage. Its vast oil resources have made it an international powerhouse and the wealthiest country on the African continent, yet political unrest and corruption, and ethnic and religious violence continue to threaten this prosperity. Nigeria is equally rich culturally, a nation where time-honored traditions mix with contemporary influences. Explore the diversity of modern Nigeria in this concise and accessible volume.

Essays on Contemporary Issues in African Philosophy Jonathan O. Chimakonam, Edwin Etieyibo, Ike Odimegwu, 2021-11-06 This volume is a collection of chapters about contemporary issues within African philosophy. They are issues African philosophy must grapple with to demonstrate its readiness to make a stand against some of the challenges society faces in the coming decade such as xenophobia, Afro-phobia, extreme poverty, democratic failure and migration. The text covers new methodical directions and there is focus on the conversationalist, complementarist and consolationist movements within the field as well as the place of the Indigenous Knowledge System. The collection speaks to African philosophy's place in intellectual history with coverage of African Ethics and African socio-political philosophy. Contributors come from a variety of different backgrounds, institutions and countries. Through their innovative ideas, they provide fresh insight and intellectual energy. The book appeals to philosophy students and researchers.

Explicit Biology - A Revision Course (3rd Edition) O. J. Olaoye, 2014-05-01 The monograph Explicit Biology: A

Revision Course for UTME, POST-UTME and other related examinations written by O.J. Olaoye is a complementary text to the various textbooks that have been written in the subject area. The book has five sections and twenty six chapters on all the biology topics. This book has become timely in view of the poor results that are being witnessed in the UTME examination especially in the sciences and mathematics, biology inclusive. These majorly are due to poor or inadequate access to good study materials. Each chapter has annotated topics followed by copious specimen questions on some past UTME and POST - UTME examination, for practice and emphasis. The topics in each chapter are adequately treated and with clarity. The illustrations are simple but effective. The author has done a lot of work and put in efforts to come out with a very readable and useful text. It is highly recommended to all the students aspiring to undertake the UTME and POST-UTME examination, in order to improve highly their chances of success. O.A. Sofola B.Sc, M.Sc, M.B.B.S (Lagos), Ph.D (Leeds), FAS (Nig.) Professor of physiology, College of Medicine, University of Lagos Former Vice Chancellor, OOU, Ago- Iwoye. Ogun State.

A-Level Chemistry E. N. Ramsden, 2000 This textbook has been updated to cover the new specifications for AS and A2 Chemistry, and improved with new features and rewritten material to enhance learning and increase accessibility. It covers all the main specifications for the English and Welsh Awarding Bodies, and should be particularly suitable for students approaching A-Level from GCSE Science: Double Award. This answer key is designed to support the core book and contains suggested answers, worked solutions to the checkpoints and examination questions in the core book, also synoptic questions for further practice, complete with suggested answers and worked solutions, to help develop confidence.

Introduction to the Teaching Profession in Nigeria Victor Finipaya Peretomode, 1992

Saul, Benjamin, and the Emergence of Monarchy in Israel Joachim J. Krause, Omer Sergi, Kristin Weingart, 2020-09-18 Ponder questions of the united monarchy under Saul and David in light of current historical and archaeological evidence Reconstructing the emergence of the Israelite monarchy involves interpreting historical research, approaching questions of ancient state formation, synthesizing archaeological research from sites in the southern Levant, and reexamining the biblical traditions of the early monarchy embedded in the books of Samuel and Kings. Integrating these approaches allows for a nuanced and differentiated picture of one of the most crucial periods in the history of ancient Israel. Rather than attempting to harmonize archaeological data and biblical texts or to supplement the respective approach by integrating only a portion of data stemming from the other, both perspectives come into their own in this volume presenting the results of an interdisciplinary Tübingen-Tel Aviv Research Colloquium. Features: Essays on Israel's monarchy by experts in biblical archaeology and biblical studies Methods for integrating archaeology and biblical traditions in reconstructing ancient Israel's history New research on the sociopolitical process of state formation in Israel and Judah

History of Education in Nigeria A. Babs Fafunwa, 2019-12-09 Originally published in 1974, a comprehensive history of Nigerian Education, from early times right through to the time of publication, had long been needed by all concerned with

Education in Nigeria, students, teachers and educational administrators. No one was better qualified than Professor Fafunwa to provide such a book, and in doing so he gave due emphasis to the beginnings of Education in its three main stages of indigenous, Muslim and Christian Education. Nigerian Education had been considered all too often as a comparatively recent phenomenon, but this book points out from the start that 'Education is as old as Man himself in Africa' and that both Islam and Christianity were comparative newcomers in the field. A historical treatment of these three strands which have combined to make up the modern Educational system was vital to a clear understanding of what was needed for the future, and most of the first half of the book is concerned with these Educational beginnings. The imposing of a foreign colonial system on this framework did not always lead to a happy fusion of the systems, and the successes and the failures are examined in detail. There was no shortage of documentary evidence in the form of reports and statistics during the decades prior to publication, but this evidence was frequently scattered and inaccessible to the student, so that the author's careful selection of key evidence and reports, often drawn from his own personal experience, will be invaluable for those wishing to trace the development of Education in Nigeria up to the early 1970s. A knowledge of the history and development of the Nigerian Education system, of the numerous and intensely varied personalities and beliefs which have combined and often conflicted to shape it, is indispensable to all students in colleges and universities studying to become teachers. It is this knowledge that Professor Fafunwa set out to provide, drawing on his wide experience as teacher writer and educationalist.

Conflict Management Baden Eunson, 2012-04-23 Conflict Management is an easy-to-read and high-powered tool for understanding and managing conflict situations. Conflict can spiral out of control, but if you understand how the spiral works you may be able to prevent it from even beginning. In this book you will find many options for managing conflict, including: planning goal setting compromise mediation Expert communicator Baden Eunson also takes an in-depth look at negotiation skills. He offers a visual and fresh approach to the work of strategies and tactics, negotiation styles, the importance of listening and questioning skills, the reasons why the location of negotiation can affect its outcome, and why the phrase 'win-win' is not a cliché but a technique for success.

The Mafia Manager, 1997-05-15 The world's oldest and best-organized conglomerate reveals management techniques everyone can use. Unlike other guides to business, this book shuns theoretical verbiage to present the philosophy of leadership that founded and captained The Silent Empire through centuries of expansion and success. The plans of action and gems of counsel contained herein are neither violent nor criminal; rather, they reflect a penetrating understanding of the dynamics of human nature.

UNSTUCK Dan Webster, Randy Gravitt, 2017-02-28 Untwist the question mark from your life to start living authentically UNSTUCK offers a path forward for those who are stuck—despite the comfort, security, and what should feel like success. Do you feel disengaged from a life that looks good on paper? Do you feel like there must be something more? This is your guide

to getting unstuck, breaking free of your comfortable cocoon, and discovering what you are meant to be. Through the story of George Johnson, a man in a position much like yourself, you'll learn how to shed the boredom, emptiness, and confusion so you can get on with your life. Whether you need a complete overhaul or just a jumpstart, you'll find the advice you need to start making it happen. More than just a story, this book shifts your perspective to help you realistically plan a transition from the ordinary present to the extraordinary future; emotional support coupled with practical guidance helps you find your path, identify your destination, and begin your journey. Re-think your purpose in life and discover your calling Rediscover the truth about yourself and who you really want to be Follow a clear formula for moving forward with authenticity Break out of your comfort zone and feel fully alive The fact that you've succeeded doesn't mean that you can never change; your dedication, commitment, and skills got you this far—imagine what they could do with a healthy dose of passion! You Unstuck re-acquaints you with your authentic self, helps you uncover your passion, and guides you toward your next big thing.

Bayes Theory J. A. Hartigan,2012-12-06 This book is based on lectures given at Yale in 1971-1981 to students prepared with a course in measure-theoretic probability. It contains one technical innovation-probability distributions in which the total probability is infinite. Such improper distributions arise embarrassingly frequently in Bayes theory, especially in establishing correspondences between Bayesian and Fisherian techniques. Infinite probabilities create interesting complications in defining conditional probability and limit concepts. The main results are theoretical, probabilistic conclusions derived from probabilistic assumptions. A useful theory requires rules for constructing and interpreting probabilities. Probabilities are computed from similarities, using a formalization of the idea that the future will probably be like the past. Probabilities are objectively derived from similarities, but similarities are subjective judgments of individuals. Of course the theorems remain true in any interpretation of probability that satisfies the formal axioms. My colleague David Potlard helped a lot, especially with Chapter 13. Computational Partial Differential Equations Using MATLAB® Jichun Li,Yi-Tung Chen,2019-09-26 In this popular text for an Numerical Analysis course, the authors introduce several major methods of solving various partial differential equations (PDEs) including elliptic, parabolic, and hyperbolic equations. It covers traditional techniques including the classic

finite difference method, finite element method, and state-of-the-art numerical methods. The text uniquely emphasizes both theoretical numerical analysis and practical implementation of the algorithms in MATLAB. This new edition includes a new chapter, Finite Value Method, the presentation has been tightened, new exercises and applications are included, and the text refers now to the latest release of MATLAB. Key Selling Points: A successful textbook for an undergraduate text on numerical analysis or methods taught in mathematics and computer engineering. This course is taught in every university throughout the world with an engineering department or school. Competitive advantage broader numerical methods (including finite difference, finite element, meshless method, and finite volume method), provides the MATLAB source code for most popular PDEs with detailed explanation about the implementation and theoretical analysis. No other existing textbook in the market offers a good combination of theoretical depth and practical source codes.

In Dependence Sarah Ladipo Manyika, 2019 In the early sixties, Tayo Ajayi sails to England from Nigeria to take up a scholarship at Oxford University. There he discovers a whole generation high on visions of a new and better world. He meets Vanessa Richardson, the beautiful daughter of a former colonial officer. Their story, which spans four decades, is a bittersweet tale of a brave but doomed affair and the universal desire to fall truly, madly and deeply in love. A lyrical and moving story of unfulfilled love fraught with the weight of history, race and geography and intertwined with questions of belonging, aging, faith and family secrets. In Dependence explores the complexities of contemporary Africa, its Diaspora and

its interdependence with the rest of the world.

The African Experience with Higher Education J. F. Ade Ajayi,L. K. H. Goma,Ampah G. Johnson,1996 There have been institutions of higher learning for centuries in Africa, but the phenomenal growth has taken place in the last fifty years, first in the later days of colonialism and then in the heady days of independence and commodity boom. Without them, there would have been no development. The three highly distinguished authors have written the first comprehensive assessment of universities and higher education in Africa south of the Sahara. As can be seen from their biographies, they draw on experience from both francophone and anglophone Africa and from teaching in both the sciences and the arts.
