Chinese Maritime Cases Martin Davies,Jiang Lin,2022-01-28 This book selects leading, innovative and influential Chinese maritime judgments and presents full translation of them, with brief summary, to the readers so that they can have insights of how the Chinese maritime judges interpret, apply and develop Chinese maritime law in practice. China trades with other states in trillions of USD every year, and about 95% of the cargoes are carried by ocean-going ships calling at hundreds of Chinese ports each single day. Due to the enormous and steadily growing trade volume and shipping activities,

foreign ships, companies and persons are often caught by the Chinese maritime law and court. The parties involved and their lawyers are more than ever enthusiastic to study Chinese maritime cases in order to deal with their own cases properly or, if possible, predict the potential problems and avoid the disputes outright. The book is appealing to and benefits worldwide law students, academics, practitioners and industrial people in the shipping, trade, insurance and financial fields. The book remedies to certain extent the situation that there is lack of authoritative sources available to foreign personnel to look into how Chinese justice system functions.
