Integrity.... When No One's Looking Marvin Soskil,2022-05-04 We all have freedom of choice. Nobody is telling you what you must do. It is your conscience that you have to live with! As we look around us these days, do you notice how the world has changed? We went from better to worse, worse to horrific and we're heading from horrific to dread? We can have the power to control situations, only if we raise the levels of our own consciousness and get back to basics. Remember when we wore white shirts and black ties for assembly? When your parents told you to do something you didn't ask why, you just did it? When No One is Looking is about bringing Integrity back into our lives and being more conscious of decisions we make and actions we take which can make this a better world. The most influential tool we have in your entire arsenal is your integrity. - Zig Zigler Only a person with integrity has the ability to command a long time respect and admiration, young or old, rich or poor. It doesn't matter what you have now, you can live with integrity and elegance and you can take utmost pride in that. That is because integrity is something you decide to have. It is a principle you chose to live by. Each of us will someday, be judged by our standard of life, not by the standard of living; by our measure of giving, not by our measure of wealth; by our simple goodness, not by seeming greatness - William Arthur Ward

Mathematics in Postmodern American Fiction Stuart J. Taylor, 2024-04-23 This book delivers an innovative critical approach to better understand U.S. fiction of the information age, and argues that in the last eighty years, fiction has become increasingly concerned with its representations of mathematical ideas, images, and practices. In so doing, this book provides a fuller, transnational account of the place of mathematics in understanding mathematically informed novels. Literature and science studies have acknowledged and situated historical points of cultural crossover; by emphasising mathematics within this larger intellectual context – and not as an unlikely and alien adjunct to post-war culture – this monograph clarifies how mathematically informed postmodern fictions work in a cognate fashion to other fields undergoing structuralist revolutions. This is especially evident in fiction by the key, mathematically-literate Postmodern authors upon whom this study focuses, namely, Thomas Pynchon, Don DeLillo, and David Foster Wallace, through which recent the technological revolutions, facilitated by mathematics, manifest in cultural discourse.

Novel Medicine Andrew Schonebaum, 2016-04-01 By examining the dynamic interplay between discourses of fiction and medicine, *Novel Medicine* demonstrates how fiction incorporated, created, and disseminated medical knowledge in China, beginning in the sixteenth century. Critical readings of fictional and medical texts provide a counterpoint to prevailing narratives that focus only on the “literati” aspects of the novel, showing that these texts were not merely read, but were used by a wide variety of readers for a range of purposes. The intersection of knowledge—fictional and real, elite and vernacular—illuminates the history of reading and daily life and challenges us to rethink the nature of Chinese literature.

Sightings Joyce O. Lowrie, 2008 Mirrors are mesmerizing. The rhetorical figure that represents a mirror is called a chiasmus, a pattern derived from the Greek letter X (Chi). This pattern applies to sentences such as one does not live to eat; one eats to live. It is found in myths, plays, poems, biblical songs, short stories, novels, epics. Numerous studies have dealt with repetition, difference, and Narcissism in the fields of literature, music, and art. But mirror structures, per se, have not

received systematic notice. This book analyses mirror imagery, scenes, and characters in French prose texts, in chronological order, from the 17th to the 20th centuries. It does so in light of literal, metaphoric, and rhetorical structures. Works analysed in the traditional French canon, written by such writers as Laclos, Lafayette, and Balzac, are extended by studies of texts composed by Barbey d'Aurevilly, Georges Rodenbach, Jean Lorrain, and Pieyre de Mandiargues. This work appeals to readers interested in linguistics, French history, psychology, art, and material culture. It invites analyses of historical and ideological contexts, rhetorical strategies, symmetry and asymmetry. Ovid's Narcissus and Alice in Wonderland are paradigms for the study of micro and macro-structures. Analyses of mirrors as cultural artefacts are significant to Lowrie's sight seeing.

A Strategy for a Metaphorical Reading of the Epistle of James S. H. Ong, 1996 This study examines how metaphorical concepts hold together the epistle of James and how these concepts communicate meaning and present argument to the reader. The author looks at five strategies involved with the use of metaphors: (1) how the metaphors form the thematic or argumentative core of the text; (2) how they reflect the writer's argument; (3) how they take advantage of the audience's background; (4) how they are created by the use of intentional statements; and finally, (5) how metaphors create unity within various sections and how the pattern of metaphors provides a unity between various sections. *A Strategy for a Metaphorical Reading of the Epistle of James* provides a new view of the epistle by emphasizing the need to see the 'big picture.' This thorough and thought-provoking analysis is an excellent tool to be used alongside linguistic, historical and exegetical scrutiny

of the epistle. It is highly appropriate for classes in biblical criticism or the Epistle of James, as well as classes on metaphoric criticism and textual criticism.

The theology of the early Christian Church, exhibited in quotations from the writers of the first three centuries James Bennett, 1841

Melodrama Jonathan Goldberg, 2016-07-21 Offering a new queer theorization of melodrama, Jonathan Goldberg explores the ways melodramatic film and literature provide an aesthetics of impossibility. Focused on the notion of what Douglas Sirk termed the impossible situation in melodrama, such as impasses in sexual relations that are not simply reflections of social taboo and prohibitions, Goldberg pursues films by Rainer Werner Fassbinder and Todd Haynes that respond to Sirk's prompt. His analysis hones in on melodrama's original definition--a form combining music and drama--as he explores the use of melodrama in Beethoven's opera *Fidelio*, films by Alfred Hitchcock, and fiction by Willa Cather and Patricia Highsmith, including her Ripley novels. Goldberg illuminates how music and sound provide queer ways to promote identifications that exceed the bounds of the identity categories meant to regulate social life. The interaction of musical, dramatic, and visual elements gives melodrama its indeterminacy, making it resistant to normative forms of value and a powerful tool for creating new potentials.

Medusa's Mirrors Julia M. Walker, 1998 The question of selfhood in Renaissance texts constitutes a scholarly and critical debate of almost unmanageable proportions. The author of this work begins by questioning the strategies with which male writers depict powerful women. Although Spenser's Britomart, Shakespeare's Cleopatra, and Milton's Eve figure selfhood very differently and to very different ends, they do have two significant elements in common: mirrors and transformations that diminish the power of the female self.

Enough Already Barb Roose, 2015-03-06 Most women know that God loves them, but might he love them more if they finally lost that last ten pounds, or got their hair to lay right, or finally found a pair of jeans that looked good and let them breathe? Well, maybe God doesn't care about jeans, but women do, and all the talk about inner beauty hasn't kept all of us from staring into a mirror and taking an inventory that never quite measures up. *Enough Already* will: Elevate the soul-freeing, spiritual truth that God is the Creator of beauty and that women are called to appreciate and care for themselves as his own. Enable women to accept God-given beauty so that when they look in the mirror they see his handiwork, not their flaws. Equip women to win the ugly struggle with beauty once and for all.
