 web reinforcement learning rl is an area of machine learning concerned with how intelligent agents ought to take actions in an environment in order to maximize the notion of cumulative reward reinforcement learning is one of three basic machine learning paradigms alongside supervised learning and unsupervised learning
newtonian mechanics relative acceleration physics stack - Oct 05 2022
 web nov 24 2017 if the accelerations of two objects are such their one of their components are directed opposite to each other while the other components are directed in the same direction then why is relative acceleration measured only along the components that are directed in opposite directions
