Except I tend to use (IMHO ) average for simple average I.e expected value of  $X$  say, whilst expected value is usually a function. But your right, for example average waiting time, would in my head, be also the expected time to wait. As long as you know what you mean. Though some stats guys and mathematicians will properly disagree. *probability - Expectation - product of expectations is expectation ...* May 1, 2019 · I thought the expectation of a product is the product of expectations, but this is not what has happened.
