**Death in the Long Grass** Peter Hathaway Capstick, 1978-01-15 As thrilling as any novel, as taut and exciting as any adventure story, Peter Hathaway Capstick's *Death in the Long Grass* takes us deep into the heart of darkness to view Africa through the eyes of one of the most renowned professional hunters. Few men can say they have known Africa as Capstick has known it—leading safaris through lion country; tracking man-eating leopards along tangled jungle paths; running for cover as fear-maddened elephants stampede in all directions. And of the few who have known this dangerous way of life, fewer still can recount their adventures with the flair of this former professional hunter-turned-writer. Based on Capstick's own experiences and the personal accounts of his colleagues, *Death in the Long Grass* portrays the great killers of the African bush—not only the lion, leopard, and elephant, but the primitive rhino and the crocodile waiting for its unsuspecting prey, the titanic hippo and the Cape buffalo charging like an express train out of control. Capstick was a born raconteur whose colorful descriptions and eye for exciting, authentic detail bring us face to face with some of the most ferocious killers in the world—underrated killers like the surprisingly brave and cunning hyena, silent killers such as the lightning-fast black mamba snake, collective killers like the wild dog. Readers can lean back in a chair, sip a tall, iced drink, and revel in the kinds of hunting stories Hemingway and Ruark used to hear in hotel bars from Nairobi to Johannesburg, as veteran hunters would tell of what they heard beyond the campfire and saw through the sights of an express rifle.

**Warrior** Peter Hathaway Capstick, 2025-08-22 Peter Hathaway Capstick died in 1996. At the time of his death, the world-renowned adventure writer was putting the finishing touches on this, a stirring and vivid biography of Colonel Richard Meinertzhagen, a man with whom he felt he had much in common. Edited and prepared for publication by his widow, Fiona Capstick, *Warrior* is Capstick's riveting farewell to his fans and the final addition to the bestselling Peter Capstick Library. Colonel Richard Meinertzhagen was one of those rare men whom fate always seems to cast in the dramas that shape history. As a young officer, he served in India and Africa during the glory days of the British Empire, defending the crown's dominions and exploring its darkest reaches. His exploits in the bloody colonial wars of turn-of-the-century East Africa

earned him a reputation as one of the most fierce and ruthless soldiers in the Empire, yet it was during those years spent roaming the silent places of the Serengeti, hunting its game and learning its secrets, that Meinertzhagen developed a fascination with Africa that would last a lifetime. But there were other adventures to come, and Capstick narrates them all with his trademark skill and wit: daring commando raids against German forces in Africa and the Mideast during World War I, covert missions to the USSR and Nazi Germany between the wars, work as an OSS agent during World War II, and Meinertzhagen's ceaseless support of Israeli nationhood are all woven together into an epic adventure. *Warrior: The Legend of Colonel Richard Meinertzhagen* is a powerful chronicle that follows the tracks of a twentieth-century icon.

**Summary of Peter Hathaway Capstick's *Death in the Long Grass*** Everest Media, 2022-10-10T22:59:00Z Please note: This is a companion version & not the original book. Book Preview: #1 One of the most experienced white hunters in central Africa, Peter Hankin, is attacked by a lioness while sleeping in his tent. He kills the lioness and herself with a single shot to the head. #2 A white hunter in central Africa is attacked by a lioness, but kills her with a single shot to the head. The lioness inscribes a large circle through the heavy riverine cover and returns to feed on the body of her victim. The hunter kills her with a shot from his. 458 Brno. #3 In America, lions are often depicted as being far less dangerous than they actually are. In reality, this is rarely the case. #4 In central Africa, man-eating lions are not as dangerous as they seem. They eat almost everything except the bones, which the African Sanitary Department takes care of.

The African Adventurers Peter Hathaway Capstick, 1992-06-15 Hailed as the adventure-writing successor to Hemingway and Ruark, only Peter Hathaway Capstick "can write action as cleanly and suspensefully as the best of his predecessors" (Sports Illustrated). This long-awaited sequel to *Death in the Silent Places* brings to life four turn-of-the-century adventurers and the savage frontiers they braved. \* Frederick Selous, a British hunter, naturalist, and soldier, rewrote the history books with his fearless treks deep into Africa. \* English game ranger Constantine "Iodine" Ionides saved Tanganyikan villages from man-eating lions and leopards. He also gained lasting fame for his uncanny ability to capture black mambas, cobras, Gaboon vipers, and other deadly snakes. \* The dashing Brit Johnny Boyes who gained the chieftainship of the Kikuyu tribe with sheer bravado and survived the ferocious battles and ambushes of intertribal warfare. \* And Scottish ex-boxer, Jim Sutherland, one of the best ivory hunters who ever lived. His tracking skills and stamina afoot became the stuff of African hunting legend. In *The African Adventurers: A Return to the Silent Places*, Capstick delivers "the kind of chilling stories that Hemingway only heard second-hand...with a flair and style that Papa himself would admire" (Guns and Ammo). The author's pungent wit and his authenticity gained from years in the bush make this quartet of vintage heroics an unforgettable return to the silent places.

**Last Horizons** Peter Hathaway Capstick, 1988-12-15 Peter Hathaway Capstick first earned a name as an outdoor writer in the pages of such magazines as *Guns & Ammo*, *Petersen's Hunting*, *The American Hunter*, and *Outdoor Life*. In *Last*

Horizons, the first of a two-volume collection of his hunting, fishing, and shooting tales, Capstick shares twenty-four stories of his keen eye and steady hand with rifle, shotgun, bow, and typewriter. The critically acclaimed successor to Hemingway and Robert Ruark repeatedly put himself in harm's way to write about close scrapes with his trademark wit and dash. He tells what it's like to be in the path of an express train with Horns—the Cape buffalo; describes the heart-stopping sensation of sharing the immediate bush with several sickle-clawed lions that most certainly were prone to argue; and recounts his adventures bow-fishing for exotic species in the piranha-filled rivers of Brazil. Featuring finely rendered drawings by famous wildlife artist Dino Paravano, Capstick's experiences on five continents, painfully gained—and almost lost—with the most dangerous of game, are the yardsticks against which most modern exotic and hunting adventures are gauged. "No one since Hemingway (with the possible exception of Ruark) has written on these subjects with such literary gusto."—Kirkus Reviews

The Fair Chase Philip Dray, 2018-05-01 An award-winning historian tells the story of hunting in America, showing how this sport has shaped our national identity. From Daniel Boone to Teddy Roosevelt, hunting is one of America's most sacred—but also most fraught—traditions. It was promoted in the 19th century as a way to reconnect soft urban Americans with nature and to the legacy of the country's pathfinding heroes. Fair chase, a hunting code of ethics emphasizing fairness, rugged independence, and restraint towards wildlife, emerged as a worldview and gave birth to the conservation movement. But the sport's popularity also caused class, ethnic, and racial divisions, and stirred debate about the treatment of Native Americans and the role of hunting in preparing young men for war. This sweeping and balanced book offers a definitive account of hunting in America. It is essential reading for anyone interested in the evolution of our nation's foundational myths.

*Sands Of Silence* Peter Hathaway Capstick, 1991-10-15 From renowned hunting writer Peter Hathaway Capstick comes the most lavishly illustrated, historically important safari ever captured in print. Capstick journeyed on safari through Namibia in the African spring of 1989. This was a nation on the eve of independence, a land scorched by sun, by years of bitter war. In these perilous circumstances, he commences what is surely the most thrilling safari of his storied career. He takes the reader to the stark landscape that makes up the Bushmen's tribal territories. There, facing all kinds of risks, members of the chase pursue their quarry in a land of legend and myth. In this first person adventure, Capstick spins riveting tales from his travels and reports on the Bushmen's culture, their political persecution, and the Stone Age life of Africa's original hunter-gatherers. In addition, the author explains the economic benefits of the sportsman's presence, and how ethical hunting is a tool for game protection and management on the continent. Featuring one hundred striking color images from leading African wildlife photographer Dr. M. Philip Kahl, *Sands of Silence: On Safari in Namibia* superbly illustrates Capstick's return to the veld and perfectly captures life and death in the "land of thirst."

The Collector of Treasures Bessie Head, 1992 Botswana village tales about subjects such as the breakdown of family life and the position of women in this society.

**Police-Related Deaths in the United States** David Baker,2021-05-25 To understand police related deaths in the US, we need to understand the structures and systems that enable police to operate in the way they do. Giving voice to a previously unheard group in society, this book articulates the experiences of the families of those who died after police contact. David Baker considers the disproportionate number of deaths in marginalized communities, for example: people of color, people who are mentally unwell, and LGBTQ people. Each chapter begins with a short case study drawn from this qualitative research to humanize the story of the person who died and put the key issues into context. By examining these deaths and the investigatory processes that follow, Baker argues that an increasingly aggressive police mindset allied with relatively toothless regulatory frameworks effectively lead to police being enabled by the criminal justice system to use lethal force with relative impunity. Baker combines his qualitative research with the wide base of existing literature on police use of force in the US and maintains that the effects of these deaths go beyond merely policing and criminal justice but are corroding the core fabric of American society.
