Reading, Learning, Teaching Barbara Kingsolver Paul Lee Thomas,2005 Our English classrooms are often only as vibrant as the literature that we teach. This book explores the writing of contemporary American author, Barbara Kingsolver, who offers readers and students engaging fiction, nonfiction, and poetry that confront the reader and the world. Here, teachers

will find an introduction to the works of Kingsolver and an opportunity to explore how to bring those works into the classroom as a part of the reading and writing curriculum. This volume attempts to confront what we teach and how we teach as English teachers through the vivid texts Kingsolver offers her readers.

Living to Tell about it James Phelan, 2005 Phelan's compelling readings cover important theoretical ground by introducing a valuable distinction between disclosure functions and narrator functions.

Freireian Pedagogy, Praxis, and Possibilities Stanley S. Steiner, H. Mark Krank, Robert E. Bahruth, Peter McLaren, 2004-11-23 Scholar, activist, and educator Paulo Freire was one of the first thinkers to fully appreciate the relationships between education, politics, imperialism, and liberation. This volume is a testament to the works of Paulo Freire in the field of Education as well as the life of the man: a story of courage, hardship, perseverance, and unyielding belief in the power of love. In this comprehensive collection, prominent intellectuals including Noam Chomsky and Donald Macedo reflect on Freire's politics of liberation and add important new dimensions to the revolutionary, innovative ideas that Freire bequeathed to a generation much in need.

Social Justice Art Marit Dewhurst, 2014-11-01 In this lively and groundbreaking book, arts educator Marit Dewhurst examines why art is an effective way to engage students in thinking about the role they might play in addressing social injustice. Based on interviews and observations of sixteen high schoolers participating in an activist arts class at a New York City museum, Dewhurst identifies three learning processes common to the act of creating art that have an impact on social justice: connecting, questioning, and translating. Noting that "one of the challenges of social justice art education has been the difficulty of naming effective strategies that can be used across multiple contexts," Dewhurst outlines core strategies for an "activist arts pedagogy" and offers concrete suggestions for educators seeking to incorporate activist art projects inside or outside formal school settings. Social Justice Art seeks to give common language to educators and others who are looking to expand and refine their practices in an emerging field, whether they work in art education, social justice programming, or youth development.

The Informed Citizen Wanda Schindley,1997 *The Informed Citizen* is about interacting in communities that reach from the classroom to cyberspace to explore today's issues and develop informed opinions, effective arguments, and polished writing. The text is founded on classical rhetoric, the schema that seems most accessible to students. Fundamental, also, are the ideas that English class does not have to be dull; that everyone has something to say; that argument permeates discourse; that building skills is not only important but also exciting; and that thinking is the most important tool for writing, relating, living, and contributing.

The Archival Turn in Feminism Kate Eichhorn,2013-07-26 In the 1990s, a generation of women born during the rise of the second wave feminist movement plotted a revolution. These young activists funneled their outrage and energy into creating music, and zines using salvaged audio equipment and stolen time on copy machines. By 2000, the cultural artifacts of this movement had started to migrate from basements and storage units to community and university archives, establishing new sites of storytelling and political activism. *The Archival Turn in Feminism* chronicles these important cultural artifacts and their collection, cataloging, preservation, and distribution. Cultural studies scholar Kate Eichhorn examines institutions such as the Sallie Bingham Center for Women's History and Culture at Duke University, The Riot Grrrl Collection at New York University, and the Barnard Zine Library. She also profiles the archivists who have assembled these significant feminist collections. Eichhorn shows why young feminist activists, cultural producers, and scholars embraced the archive, and how they used it to stage political alliances across eras and generations. A volume in the American Literatures Initiative

The Death Proclamation of Generation X Maxim W. Furek,2008 Taking a hard, penetrating look at the despondent heart of darkness of the 1990s, *The Death Proclamation of Generation X* is a probing chronicle of America's thirteenth generation caught between the idealistic Baby Boomers and the well-financed Generation Y. Generation X was scapegoated and dismissed without the chance to prove themselves. Blending tenets of psychology, sociology, and cultural anthropology, author Maxim Furek offers a unique perspective to the post-modernist discourse by exploring the impact that personalities such as Andrew Wood, Kurt Cobain, Layne Staley, River Phoenix, Marilyn Manson, and Anna Nicole Smith left on that generation. Evaluating the psychological and sociological variables of goth, grunge, and heroin, Furek weaves a dark tapestry of this unique demographic group born between 1965 and 1978. *The Death Proclamation of Generation X* pieces together the complexities of Generation X to acknowledge their individuality, honor their existence, and to celebrate their future. They are a group with their own identity of music, attitude, and culture. The resilience of Generation X is but another example of the power of this special collection of people-a group of highly skilled and adaptive individuals.

Bridging English Joseph O'Beirne Milner, Lucy Floyd Morcock Milner, 2008 Bridging English, fourth edition, is a comprehensive English methods text that is structured on James Moffett's conception of the universe of discourse in the teaching of English: talking and listening, writing and reading. The textbook combines theory and practice, that is, overarching structures with particular instructional strategies. It provides prospective teachers with a huge array of approaches and activities that are active, constructivist, and student-centered. It mirrors that emphasis with boxed Invitations to Reflection that continually survey its readers about their experiences of English classrooms, their new learnings as they read the text, and their projection into classroom teaching of their own. It takes into account the range of student learners a teacher will teach from the gifted to the reluctant and struggling. It addresses the special needs of English language learners. It also anticipates the need of its readers prospective teachers to put theory and method into practice by designing and delivering effective units and lessons. In several chapters on pedagogy, it helps them answer questions such as: How do I actually teach writing? design a unit? evaluate student learning? This edition also addresses many of the most persistent issues that arise within the field, issues that bubble up in individual classrooms, English departments, and school communities and in the general culture.
