

Houses In Roman Times

Brian Williams

Ancient Roman Homes Brian Williams, 2003 Discusses the homes of the ancient Romans, including who lived in them, what they looked like, and how historians discovered this information.

The Houses of Roman Italy, 100 B.C.- A.D. 250 John R. Clarke, 1991 Extensively documented with well-chosen, good quality photographs, Clarke's book effectively surveys these representative examples from the Late Republic to the Late Empire, illustrating the shift in the agendas of decoration as well as in the patterns of the lives played out behind closed doors within these highly charged domestic interiors.—Richard Brilliant, author of *Visual Narratives: Storytelling in Etruscan & Roman Art* An enlightening and engaging walk through Roman cultural history. . . . This book will be essential to anyone interested in the classical past, in artistic ensembles, or in the experience of architecture.—Diane Favro, University of California, Los Angeles Real experts in Roman painting are few. This book should be very welcome to Roman art historians and social historians wanting to present this material to their students.—Eleanor Winsor Leach, author of *The Rhetoric of Space*

Houses, Villas, and Palaces in the Roman World Alexander G. McKay, 1998-05-29 In a fascinating study of ancient Roman architecture, classics scholar Alexander McKay examines simple houses, mansions, estates and palatial buildings, interior furnishings, and gardens--revealing that Roman civilization was astonishingly similar to our own. He also discusses the conditions of life in the Roman provinces. 153 illustrations.

The Cambridge Companion to Ancient Rome Paul Erdkamp, 2013-09-05 Rome was the largest city in the ancient world. As the capital of the Roman Empire, it was clearly an exceptional city in terms of size, diversity and complexity. While the Colosseum, imperial palaces and Pantheon are among its most famous features, this volume explores Rome primarily as a city in which many thousands of men and women were born, lived and died. The thirty-one chapters by leading historians, classicists and archaeologists discuss issues ranging from the monuments and the games to the food and water supply, from policing and riots to domestic housing, from death and disease to pagan cults and the impact of Christianity. Richly illustrated, the volume introduces groundbreaking new research against the background of current debates and is designed as a readable survey accessible in particular to undergraduates and non-specialists.

The Roman House in Britain Dominic Perring, 2002-06 Recent studies have tended to seek explanations for the

peculiarities of Romano-British architecture in local tradition, but this book shows how Britain embraced and elaborated Hellenistic ideas and spatial forms. Roman houses were built to sustain power, and Roman architecture gained currency in Britain because of its relevance to new political structures erected in the wake of conquest.

Back in Roman Times Edward Bulwer-Lytton, 2022-01-04 The Last Days of Pompeii - Pompeii, A.D. 79. Athenian nobleman Glaucus arrives in the bustling and gaudy Roman town and quickly falls in love with the beautiful Greek Ione. Ione's former guardian, the malevolent Egyptian sorcerer Arbaces, has designs on Ione and sets out to destroy their budding happiness. But will he succeed in his evil plot? Or, will the cataclysmic destruction of the city by the eruption of Mount Vesuvius be the end of all? And, what will happen to the love story of Glaucus and Ione? Read on! Rienzi, Last of the Roman Tribunes - Bulwer-Lytton has created a true masterpiece that inspired none other than the great Wagner to create his opera titled Rienzi. Roman Housing Simon P. Ellis, 2002-12-27 An examination of housing throughout the Roman world, from Britain to Egypt, dating from the sixth century AD. Domestic sculpture, decoration, gardens, architecture, lighting, furniture, the use of water, and ways of living, are all considered.

The World of Ancient Rome James W. Eder, 2015-08-11 This study of Ancient Rome offers a fascinating glimpse of what Roman society was like—from fashion, to food, to politics and recreation—gathered from literary works, art, and archaeological remains. While the political history and prominent figures of Ancient Rome are well known, accounts of daily life in that time and place often remain untold. This fascinating encyclopedia explores this period from a social and cultural perspective, digging into the day-to-day activities of how Romans dressed, what they ate, how they worked, and what they did for fun. Drawing from recent archaeological evidence, author James W. Eder explores the everyday lives of Roman citizens of all levels and classes. This book is organized into ten sections: art, economics, family, fashion, food, housing, politics, recreation, religion, and science. Each section contains more than two dozen entries that illuminate such topics as slavery as a social movement; the menus of peasants, slaves, and the elite; and the science and engineering solutions that became harbingers for today's technology. The work contains a selection of primary documents as well as a bibliography of print and Internet resources.

Ancient Greek Houses and Households Bradley A. Ault, Lisa C. Nevett, 2011-01-01 Seeking to expand both the geographical range and the diversity of sites considered in the study of ancient Greek housing, Ancient Greek Houses and

Households takes readers beyond well-established studies of the ideal classical house and now-famous structures of Athens and Olynthos. Bradley A. Ault and Lisa C. Nevett have brought together an international team of scholars who draw upon recent approaches to the study of households developed in the fields of classical archaeology, ancient history, and anthropology. The essays cover a broad range of chronological, geographical, and social contexts and address such topics as the structure and variety of households in ancient Greece, facets of domestic industry, regional diversity in domestic organization, and status distinctions as manifested within households. *Ancient Greek Houses and Households* views both Greek houses and the archeological debris found within them as a means of investigating the basic unit of Greek society: the household. Through this approach, the essays successfully point the way toward a real integration between material and textual data, between archeology and history. Contributors include William Aylward (University of Wisconsin, Madison), Nicholas Cahill (University of Wisconsin, Madison), Manuel Fiedler (Freie Universität, Berlin), Franziska Lang (Humboldt Universität, Berlin), Monike Trümper (Universität Heidelberg), and Barbara Tsakirgis (Vanderbilt University, Nashville).

Urban Transformation in Ancient Molise Elizabeth C. Robinson, 2021 This book uses the available evidence to create a site biography of Larinum from 400 BCE to 100 CE, concentrating on its urban transformation during the Roman conquest.

By focusing on local-level agency, it demonstrates strong local continuity in Larinum and its territory. This work highlights the importance of local isolated variability in studies of the Roman conquest, and provides a narrative that supplements larger works on this theme.

Urban Space and Aristocratic Power in Late Antique Rome Carlos Machado, 2019 Between 270 and 535 AD the city of Rome experienced dramatic changes. The once glorious imperial capital was transformed into the much humbler centre of western Christendom in a process that redefined its political importance, size, and identity. *Urban Space and Aristocratic Power in Late Antique Rome* examines these transformations by focusing on the city's powerful elite, the senatorial aristocracy, and exploring their involvement in a process of urban change that would mark the end of the ancient world and the birth of the Middle Ages in the eyes of contemporaries and modern scholars. It argues that the late antique history of Rome cannot be described as merely a product of decline; instead, it was a product of the dynamic social and cultural forces that made the city relevant at a time of unprecedented historical changes. Combining the city's unique literary, epigraphic, and archaeological record, the volume offers a detailed examination of aspects of city life as diverse as its administration, public building, rituals, housing, and religious life to show how the late Roman aristocracy gave a new shape and meaning to urban space, identifying itself with the largest city in the Mediterranean world to an extent unparalleled since the end of the Republican period.
