Old Norse Images of Women Jenny Jochens, 2016-11-11 Working from the Poetic Edda, the Prose Edda, and Old Norse prose narratives and laws, Jenny Jochens argues for an underlying cultural continuum of a pagan pantheon and a set of heroic figures shared by the Germanic tribes in Europe, Britain, Scandinavia, and Iceland from A.D. 500 to 1500. *Old Norse Images of Women* explores the female half of this legacy, which involves images both divine and human. In a society marked by sharp gender divisions, women were frequently portrayed as one of four conventional types. The warrior woman was exemplified by the valkyrie, shieldmaiden, or maiden king. The wise woman was a prophetess or sorceress. The avenger is best seen in Gudrun, whose focus of revenge shifted from husband to brothers. Last, there were the whetters or inciters, who appear both in the Continental setting as Brynhildr and as ubiquitous figures in medieval Icelandic literature, ranging from Norwegian queens to humble milkmaids.

**Girl Warriors** Svenja Hohenstein, 2019-07-03 Quest narratives are as old as Western culture. In stories like *The Odyssey*, *The Lord of the Rings*, *Star Wars* and *Harry Potter*, men set out on journeys, fight battles and become heroes. Women traditionally feature in such stories as damsels in need of rescue or as the prizes at the end of heroic quests. These narratives perpetuate predominant gender roles by casting men as active and women as passive. Focusing on stories in which popular teenage heroines--Buffy Summers, Katniss Everdeen and Disney's Princess Merida--embark on daring journeys, this book explores what happens when traditional gender roles and narrative patterns are subverted. The author examines representations of these characters across various media--film, television, novels, posters, merchandise, fan fiction and fan art, and online memes--that model concepts of heroism and girlhood inspired by feminist ideas.

*A Medieval Woman's Companion* Susan Signe Morrison, 2015-11-30 What have a deaf nun, the mother of the first baby born to Europeans in North America, and a condemned heretic to do with one another? They are among the virtuous virgins, marvelous maidens, and fierce feminists of the Middle Ages who trail-blazed paths for women today. Without those first courageous souls who worked in fields dominated by men, women might not have the presence they currently do in professions such as education, the law, and literature. Focusing on women from Western Europe between c. 300 and 1500 CE in the medieval period and richly carpeted with detail, *A Medieval Woman's Companion* offers a wealth of information about real medieval women who are now considered vital for understanding the Middle Ages in a full and nuanced way. Short

biographies of 20 medieval women illustrate how they have anticipated and shaped current concerns, including access to education; creative emotional outlets such as art, theater, romantic fiction, and music; marriage and marital rights; fertility, pregnancy, childbirth, contraception and gynecology; sex trafficking and sexual violence; the balance of work and family; faith; and disability. Their legacy abides until today in attitudes to contemporary women that have their roots in the medieval period. The final chapter suggests how 20th and 21st century feminist and gender theories can be applied to and complicated by medieval women's lives and writings. Doubly marginalized due to gender and the remoteness of the time period, medieval women's accomplishments are acknowledged and presented in a way that readers can appreciate and find inspiring. Ideal for high school and college classroom use in courses ranging from history and literature to women's and gender studies, an accompanying website with educational links, images, downloadable curriculum guide, and interactive blog will be made available at the time of publication.

**Writing the Woman Artist** Suzanne W. Jones, 2016-11-11 I mean, what is a woman? I assure you, I do not know. I do not believe that you know. I do not believe that anybody can know until she has expressed herself in all the arts and professions open to human skill.—Virginia Woolf, *Professions for Women* *Writing The Woman Artist* is a collection of essays that explores the ways in which women writers portray women painters, sculptors, writers, and performers. Surveying the works of a variety of women writers—from the nineteenth and twentieth centuries, from different ethnic, national, racial, and economic backgrounds—this book treats their revisions of the *Künstlerroman* and their perceptions of the relationships between muse, artist, and audience in other genres. Suzanne W. Jones and her collaborators seek to understand how representations of women artists and their poetics and politics are mediated by social and historical factors, including literary movements and theories of language. In doing so, they make an important contribution to the field of feminist scholarship, and generate new ways of understanding how the dynamics of creativity intersect with the dynamics of gender. Contributors to the volume are Ann Ardis, Alison Booth, Kathleen Brogan, Lynda Bundtzen, Pamela Caughie, Mary DeShazer, Linda Dittmar, Josephine Donovan, Susan Stanford Friedman, Gayle Greene, Linda Hunt, Katherine Kearns, Holly Laird, Estella Lauter, Z. Nelly Martinez, Jane Atteridge Rose, Margaret Diane Stetz, Renate Voris, and Mara Witzling. *Writing The Woman Artist* is a valuable new resource for scholars and students working in the fields of European and American literature and women's studies.

**What Remains** Gerald Fetz, Patricia Herminghouse, 2025-11-01 Arguably the most important—and influential—German woman writer of the last century, Christa Wolf was long heralded as *die gesamtdeutsche Autorin*, an author for all of Germany; but, after 1989 in unified Germany, Wolf found herself suddenly embroiled in controversies that challenged her

integrity and consigned her to an ideologically suspect identity as DDR Schriftstellerin” (GDR writer) or “Staatsdichterin” (state poet). What Remains: Responses to the Legacy of Christa Wolf asks the question of what truly remains of her legacy in the annals of contemporary German culture and history. Unlike most of what appeared in the wake of Wolf’s death, however, the contributions to this international volume seek neither to monumentalize her nor to dismantle her stature, but to employ a range of methodologies—comparative, intertextual, psychoanalytic, historical, transcultural—to offer sensitive assessments of Wolf’s major literary texts, as well as of her lesser known work in genres such as film and essay.

**The Cambridge Companion to Modern American Poetry** Walter Kalaidjian, 2015-01-19 The Cambridge Companion to Modern American Poetry offers a critical overview of major and emerging American poets of the twentieth century.

*Beauty Bites Beast* Ellen Snortland, 1998 Looks at how family, religion, history, news and entertainment keep women thinking they are defenseless. Snortland contends that women are capable of defending themselves and their loved ones—if they learn how. She argues that is not the female's size, it is her culturally induced ignorance that makes her think she is helpless. Snortland offers a clarion call to all women to wake up and take charge of their own self-defense—both verbal and physical—and celebrates women (and kids) who fought back. --Adapted from publisher description.

**Intersections of Gender, Religion and Ethnicity in the Middle Ages** C. Beattie, K. Fenton, 2010-11-24 This collection of essays focuses attention on how medieval gender intersects with other categories of difference, particularly religion and ethnicity. It treats the period c.800-1500, with a particular focus on the era of the Gregorian reform movement, the First Crusade, and its linked attacks on Jews at home.

**Terrorist Recruitment, Propaganda and Branding** Anna Kruglova, 2022-08-05 This book analyses the marketing techniques that terrorist organisations employ to encourage people to adopt their ideology and become devoted supporters. The book’s central thesis is that due to the development of digital technologies and social media, terrorist groups are employing innovative marketing techniques and advertising strategies to foster an emotional connection with their audiences, particularly those in younger demographics. By conducting thematic and narrative analyses of Islamic State of Iraq and Syria (ISIS) propagandist magazines, as well as looking at the group’s online communities, the book demonstrates that terrorist groups behave as commercial brands by establishing an emotional connection with their potential recruits. Specifically, groups and their potential supporters follow the logic of emotional choice. The book emphasizes that while ISIS became the first group that discovered and benefited from the power of marketing, it did not have a supernatural power and thus it is possible to find a response to it, which is particularly important now. The book eventually poses a question about whether terrorism has become the product of marketing in the same way as any mainstream consumer product is, and asks what can we do to battle the appeal of marketing-savvy terrorist groups. This book will be of interest to students of terrorism studies, radicalisation, and propaganda, communication, and security studies.

Passport Photos Amitava Kumar, 2023-11-15 *Passport Photos*, a self-conscious act of artistic and intellectual forgery, is a report on the immigrant condition. A multigenre book combining theory, poetry, cultural criticism, and photography, it explores the complexities of the immigration experience, intervening in the impersonal language of the state. *Passport Photos* joins books by writers like Edward Said and Trinh T. Minh-ha in the search for a new poetics and politics of diaspora. Organized as a passport, *Passport Photos* is a unique work, taking as its object of analysis and engagement the lived experience of post-coloniality--especially in the United States and India. The book is a collage, moving back and forth between places, historical moments, voices, and levels of analysis. Seeking to link cultural, political, and aesthetic critiques, it weaves together issues as diverse as Indian fiction written in English, signs put up by the border patrol at the U.S.-Tijuana border, ethnic restaurants in New York City, the history of Indian indenture in Trinidad, Native Americans at the Superbowl, and much more. The borders this book crosses again and again are those where critical theory meets popular journalism, and where political poetry encounters the work of documentary photography. The argument for such border crossings lies in the reality of people's lives. This thought-provoking book explores that reality, as it brings postcolonial theory to a personal level and investigates global influences on local lives of immigrants. *Passport Photos*, a self-conscious act of artistic and intellectual forgery, is a report on the immigrant condition. A multigenre book combining theory, poetry, cultural criticism, and photography, it explores the complexities of the immigration exp

A Dream in the World Robin van Lōben Sels, 2004-03-01 How can science and religion co-exist in the modern discipline of psychotherapy? *A Dream in the World* explores the interfaces between religious experience and dream analysis. At the heart of this book is a selection of dreams presented by the author's patient during analysis, which are compared with the dreams of Hadewijch, a thirteenth century woman mystic. The patient's dreams led the modern woman to an unanticipated breakthrough encounter with the divine, her experience of soul. The experience reoriented and energized her life, and became her dream-in-the-world. Following Jung's idea that the psyche has a religious instinct, Robin van Loben Sels demonstrates that the healing process possible through psychotherapy can come from beyond the psyche and can not be explained by our usual theories of scientific psychology. Written in flowing, easily-read language *A Dream in the World* details a classical Jungian analysis of a woman's dreams, and searches the relationship between religious encounter, psyche and soul.

**A Poetics of Resistance** Mary K. DeShazer, 1994 A survey of the empowering poetry of politically active women in El Salvador, South Africa, and the United States.

**Wild Woman** Philippa Forrester, 2024-02-29 An engaging blend of conservation stories and humorous, personal anecdotes from Philippa Forrester about women who, like her, choose to live and work in the wild. Surviving in the wilderness has long been associated with men, and conservation and environmental biology have traditionally been male-

dominated subjects. Yet many remarkable women also choose to live and work in wild and challenging landscapes. In *Wild Woman*, Philippa Forrester considers the grit and determination required for women to maintain connections to wildlife and shares stories of female conservation heroes and other extraordinary wild women working in nature. Talking to women from around the world, Philippa studies and celebrates what it means to be a wild woman. From the sixteenth-century botanist who was the first woman to circumnavigate the globe to modern-day women responding to bear attacks in Yellowstone, working to rewild reserves in South Africa, photographing Caribou in the Arctic and more, Philippa examines how these women benefit from a life spent in the wilderness and also considers what the natural world gains from them. Relating some of her own experiences from three decades spent travelling around the world and working in some of the wildest places on Earth, Philippa asks: what does it take for a woman to live or work in the wild?

*The Routledge Companion to Cinema and Politics* Yannis Tzioumakis, Claire Molloy, 2016-07-01 The Routledge Companion to Cinema and Politics brings together forty essays by leading film scholars and filmmakers in order to discuss the complex relationship between cinema and politics. Organised into eight sections - Approaches to Film and Politics; Film, Activism and Opposition; Film, Propaganda, Ideology and the State; The Politics of Mobility; Political Hollywood; Alternative and Independent Film and Politics; The Politics of Cine-geographies and The Politics of Documentary - this collection covers a broad range of topics, including: third cinema, cinema after 9/11, eco-activism, human rights, independent Chinese documentary, film festivals, manifestoes, film policies, film as a response to the post-2008 financial crisis, Soviet propaganda, the impact of neoliberalism on cinema, and many others. It foregrounds the key debates, concepts, approaches and case studies that critique and explain the complex relationship between politics and cinema, discussing films from around the world and including examples from film history as well as contemporary cinema. It also explores the wider relationship between politics and entertainment, examines cinema's response to political and social transformations and questions the extent to which filmmaking, itself, is a political act.

**The Sikh Next Door** Manpreet J Singh, 2020-08-31 The Sikhs have been a people in transition. Unwanted displacements, willing movements and a changing world have led them through demographic, occupational and experiential shifts. While this has led to the evolution of new facets within the community, it has also evoked mixed responses from outside. As new generations of Sikhs engage with the world through sensibilities defined by their contemporary contexts, they find themselves constructed in images dissonant with their lived realities. *The Sikh Next Door: An Identity in Transition* traces these changes while also making an incisive analysis of old stereotypes-some heroic, some menacing and some farcical. It simultaneously brings into focus the real people behind these images, their varying social stances and their collective commitment to a common religious identity. The work attempts to reframe the Sikhs, bending a few existing narratives and

offering an impetus for a more nuanced understanding of the community.

**Pacific Automobilm** Gijs Mom,2022-09-13 The beginning of the 21st century has seen important shifts in mobility cultures around the world, as the West's media-driven car culture has contrasted with existing local mobilities, from rickshaws in India and minibuses in Africa to cycling in China. In this expansive volume, historian Gijs Mom explores how contemporary mobility has been impacted by social, political, and economic forces on a global scale, as in light of local mobility cultures, the car as an 'adventure machine' seems to lose cultural influence in favor of the car's status character.

**The Performance of Viking Identity in Museums** Guðrún D. Whitehead,2024-08-12 The Performance of Viking Identity in Museums explores the representations and uses of Vikings in museums across Iceland, British Isles and Norway. Drawing on theories from history, philosophy, museology, and sociology, the book analyses how the Viking myth is used by visitors to make sense of present-day society, culture, and politics and the role of museums in this meaning-making process. Demonstrating that the Viking myth is present in collective memory and plays an important role in the construction and modification of collective, national, and personal identities, the book analyses this process through the framework of museums and their visitors. Identifying museums as places where heritage, identity and social norms are affirmed and reflected upon, Whitehead demonstrates that all countries use their Viking heritage to define their identity on a local and international level - through tourist attractions such as museums and other Viking-related monuments and merchandise. Providing readers with an insight into Vikings and their social relevance today, The Performance of Viking Identity in Museums will be of great interest to academics and researchers across the social and human sciences. It should also be essential reading for museum professionals working in museums around the world.

*Writing Women's Communities* Cynthia G. Franklin,1997-11-01 Beginning in the 1980s, a number of popular and influential anthologies organized around themes of shared identity—Nice Jewish Girls, This Bridge Called My Back, Home Girls, and others—have brought together women's fiction and poetry with journal entries, personal narratives, and transcribed conversations. These groundbreaking multi-genre anthologies, Cynthia G. Franklin demonstrates, have played a crucial role in shaping current literary studies, in defining cultural and political movements, and in building connections between academic and other communities. Exploring intersections and alliances across the often competing categories of race, class, gender, and sexuality, *Writing Women's Communities* contributes to current public debates about multiculturalism, feminism, identity politics, the academy as a site of political activism, and the relationship between literature and politics.
