*Guía del cine* Carlos Aguilar Gutiérrez,2018-09-27 El presente volumen encierra el diccionario de películas más extenso y variado en lengua española, e incluye películas de toda índole y nacionalidad, desde el cine mudo hasta el presente año. Cada entrada incluye los datos fundamentales (título español y original, año y país de producción, director, guión, fotografía, música, duración e intérpretes), más una sinopsis orientativa. Asimismo, incluye dos índices, el de directores con las películas recogidas en la obra, relacionadas por orden cronológico, y el de títulos originales, con sus correspondientes españoles.

El cine como estrategia didáctica para combatir actitudes racistas y xenófobas entre el alumnado de ESO Elena Martín Picard,2016-10-10 En la sociedad actual, el sistema educativo se enfrenta a una problemática fundamental: El hecho de que un cierto número de adolescentes y jóvenes se desarrollan en una ausencia parcial o casi total de valores humanos y sociales. De esta forma, nos planteamos una línea de trabajo enfocada a la educación para la tolerancia, pero de tal manera que el canal de transmisión elegido sea atractivo y cercano para la juventud, con gran fuerza comunicativa y eficaz para el profesorado: El cine. A través de este trabajo de investigación se trata de comprobar la influencia del cine en adolescentes, en cuanto a su sistema de valores, pensamientos, emociones y actitudes; para valorar su utilización como estrategia didáctica en la erradicación de actitudes y sentimientos racistas y xenófobos, en las aulas de Educación Secundaria Obligatoria. Los resultados han sido alentadores, tanto en la activa implicación de los estudiantes en el proyecto, como en las actitudes finales observadas en el alumnado, lo que nos lleva a plantear el uso del cine como una estrategia didáctica posible de aplicar en el ámbito de la educación en valores, proporcionándonos una respuesta al desafío al que se enfrenta el sistema educativo en la sociedad actual.

**Reshaping the Political Arena in Latin America** Eduardo Silva,Federico Rossi,2018-05-22 Neoliberalism changed the face of Latin America and left average citizens struggling to cope in many ways. Popular sectors were especially hard hit as wages declined and unemployment increased. The backlash to neoliberalism in the form of popular protest and electoral mobilization opened space for leftist governments to emerge. The turn to left governments raised popular expectations for a second wave of incorporation. Although a growing literature has analyzed many aspects of left governments, there is no study of how the redefinition of the organized popular sectors, their allies, and their struggles have reshaped the political arena to include their interests—until now. This volume examines the role played in the second wave of incorporation by political parties, trade unions, and social movements in five cases: Argentina, Bolivia, Brazil, Ecuador, and Venezuela. The cases shed new light on a subject critical to understanding the change in the distribution of political power related to popular sectors and their interests—a key issue in the study of postneoliberalism.

**The American Evangelical Story** Douglas A. Sweeney,2005-08-01 The American Evangelical Story surveys the role American evangelicalism has had in the shaping of global evangelical history. Author Douglas Sweeney begins with a brief outline of the key features that define evangelicals and then explores the roots of the movement in English Pietism and the Great Awakening of the eighteenth century. He goes on to consider the importance of missions in the development of evangelicalism and the continuing emphasis placed on evangelism. Sweeney next examines the different subgroups of American evangelicals and the current challenges faced by the movement, concluding with reflections on the future of evangelicalism. Combining a narrative style with historical detail and insight, this accessible, illustrated book will appeal to readers interested in the history of the movement, as well as students of church history.
