Unpacking IKEA Pauline Garvey,2017-11-23 This book represents the first anthropological ethnography of Ikea consumption and goes to the heart of understanding the unique and at times frantic popularity of this one iconic transnational store. Based on a year of participant observation in Stockholm's Kungens Kurva store - the largest in the world - this book places the retailer squarely within the realm of the home-building efforts of individuals in Stockholm and to a lesser degree in Dublin. Ikea, the world's largest retailer and one of its most interesting, is the focus of intense popular fascination internationally, yet is rarely subject to in-depth anthropological inquiry. In Unpacking Ikea, Garvey explores why

Ikea is never 'just a store' for its customers, and questions why it is described in terms of a cultural package, as everyday and classless. Using in-depth interviews with householders over several years, this ethnographic study follows the furniture from the Ikea store outwards to probe what people actually take home with them.

Design by IKEA Sara Kristoffersson,2014-10-23 Sara Kristoffersson's compelling study provides the first sustained critical history of IKEA. Kristoffersson argues that the company's commercial success has been founded on a neat alignment of the brand with a particular image of Swedish national identity - one that is bound up with ideas of social democracy and egalitarianism - and its material expression in a pared-down, functional design aesthetic. Employing slogans such as "Design for everyone" and "Democratic design", IKEA signals a rejection of the stuffy, the 'chintzy', and the traditional in both design practices and social structures. Drawing on original research in the IKEA company archive and interviews with IKEA personnel, *Design by IKEA* traces IKEA's symbolic connection to Sweden, through its design output and its promotional materials, to examine how the company both promoted and profited from the concept of Scandinavian Design.
