Bible and Cinema Adele Reinhartz, 2013-10-08 This is a comprehensive introduction to the ways in which the Bible has been used and represented in mainstream cinema. Adele Reinhartz considers the pervasive use of the Bible in feature films, and the medium of film as part of the Bible's reception history. The book examines how films draw on the Old and New Testament and the figure of Jesus Christ in various direct and indirect ways to develop their plots, characters, and themes. As well as movies that set out explicitly to retell biblical stories in their ancient context, it explores the ways in which contemporary, fictional feature films make use of biblical narrative. Topics covered include: how filmmakers make use of scripture to address and reflect their own time and place. the Bible as a vehicle through which films can address social and political issues, reflect human experiences and emotions, explore existential issues such as evil and death, and express themes such as destruction and redemption. the role of the Bible as a source of ethics and morality, and how this connection is both perpetuated and undermined in a range of contemporary Hollywood films. films that create an experience of transcendence, and the ways in which the Bible figures in that experience. Reinhartz offers insightful analysis of numerous films including *The Ten Commandments* and *The Shawshank Redemption*, paying attention to visual and aural elements as well as plot, character, and dialogue. Students will find this an invaluable guide to a growing field.

A Million Little Miracles Mark Batterson, 2024-11-19 The New York Times bestselling author of *Win the Day* reminds us of the millions of miracles God performs every day and inspires us to live with a clearer sense of identity and purpose. Think you've never experienced a miracle? With all due respect, you have never not. In fact, you are one! There never has been—and there never will be—anyone else like you. That isn't a testament to you. It's a testament to the God who created you. Your fingerprint, eyeprint, and voiceprint are unlike anyone else's. Simply put, you matter to God. Most of us take everyday miracles for granted, including the one that stares back at us in the mirror. It's time to take them for gratitude. Why is that so important? Because whatever you don't turn into praise turns into pride. The miracle of life becomes mundane. We get so wrapped up in our own little world, we end up worshipping a god who looks like us, acts like us, and thinks like us. It's no wonder we've lost our wonder. But there is a way to recapture holy curiosity! In *A Million Little Miracles*, New York Times bestselling author Mark Batterson reveals three miraculous truths that awaken us to carpe wonder for the Creator and His creation: 1. God Is Bigger Than We Think—we can rest in His wisdom and strength 2. God Is Closer Than We Realize—we never have to do life alone 3. God Is Better Than We Imagine—we can reclaim our childlike wonder A million little miracles are waiting to be discovered, including the miracle called you.

Fear, Society, and the Police Dale L. June, 2019-11-27 Fear, Society, and the Police examines elements of fear and how they can be controlled and turned into an effective and proper response in an emergency situation. Readers of this book will be exposed to ways fear can become an uncontrolled emotion, often leading to unnecessary acts of violence, and will examine ways and means of using reasoning to overcome unfounded fear. The author encourages readers to critically assess circumstances in today's society that have caused fear, unrest, and division between the enforcers of law and the people they are sworn to protect. Providing examples of how violence in society has had an impact on police-community relations, this book examines the many facets of fear from several perspectives, including historical, personal, and institutional. Security management courses concentrate on the how and why of security, yet to become an effective professional security specialist it is recommended the practitioner become educated in the nuances of fear. This book presents a look into the how and why of fear, and will relate to security personnel as it does to police officers. The book brings perspectives based on reality and experience. It will be of interest not only to those who work in law enforcement, but also to students in criminal justice, management and leadership, psychology, and sociology courses. As violence in society escalates, professionalism will require more understanding of fear-based emotions.

Cavell's Must We Mean What We Say? at 50 Greg Chase, Juliet Floyd, Sandra Laugier, 2022-03-10 In 1969 Stanley Cavell's *Must We Mean What We Say?* revolutionized philosophy of ordinary language, aesthetics, ethics, tragedy, literature, music, art criticism, and modernism. This volume of new essays offers a multi-faceted exploration of Cavell's first and most important book, fifty years after its publication. The key subjects which animate Cavell's book are explored in detail: ordinary language, aesthetics, modernism, skepticism, forms of life, philosophy and literature, tragedy and the self, the questions of voice and audience, jazz and sound, Wittgenstein, Austin, Beckett, Kierkegaard, Shakespeare. The essays make Cavell's complex style and sometimes difficult thought accessible to a new generation of students and scholars. They offer a way into Cavell's unique philosophical voice, conveying its seminal importance as an intellectual intervention in American thought and culture, and showing how its philosophical radicality remains of lasting significance for contemporary philosophy, American philosophy, literary studies, and cultural studies.

Animals in Literary Education John Drew, 2025-09-24 This book examines the complicated place of animals in literary analysis and education and shows how an ethically engaged approach to animals' representation could be pursued to challenge anthropocentrism and cultivate multispecies empathy. Other species are represented in the literary education

canon, including farmed animals. Yet the animals are typically anthropomorphized to guide students toward humanist readings and away from consideration of animals' experiences or subjectivities. This reproduces the idea that animals are mere objects meant to be exploited for human purposes, even metaphorical and educational ones. John Drew develops the term "anthropo-allegory" to capture and critique the process through which students are taught to read animal literary representations exclusively as symbolic analogues for humans and human themes. The concept serves as an analytical lens for critically interrogating significant texts taught across educational levels and exposing the deeply engrained educational anthropocentrism that silences animal issues, even when animals are represented. Crucially, Drew identifies texts and pedagogical strategies that can help cultivate a literary educational animal ethic that simultaneously encourages analytical rigour and multispecies concern.

The Quote Verifier Ralph Keyes, 2007-04-01 Our language is full of hundreds of quotations that are often cited but seldom confirmed. Ralph Keyes's The Quote Verifier considers not only classic misquotes such as Nice guys finish last, and Play it again, Sam, but more surprising ones such as Ain't I a woman? and Golf is a good walk spoiled, as well as the origins of popular sayings such as The opera ain't over till the fat lady sings, No one washes a rented car, and Make my day. Keyes's in-depth research routinely confounds widespread assumptions about who said what, where, and when. Organized in easy-to-access dictionary form, The Quote Verifier also contains special sections highlighting commonly misquoted people and genres, such as Yogi Berra and Oscar Wilde, famous last words, and misremembered movie lines. An invaluable resource for not just those with a professional need to quote accurately, but anyone at all who is interested in the roots of words and phrases, The Quote Verifier is not only a fascinating piece of literary sleuthing, but also a great read.

Historical sources demonstrate how the phenomenon of life force encompasses coffee cash-cropping, Catholic Christianity, and colonial and post-colonial rule, and features in cognate languages from throughout the area. As this vivid ethnography explores how life projects through beings of different kinds, it brings to life concepts and practices that extend through time and space, transcending established analytics.

The Origin of the Life of a Human Being Rahul Peter Das, 2003-01-01 This study attempts to determine how the ancient Indian medicinal and sexological texts would answer a non medical question but also social and religious relevance

namely: what happens in a woman's body at the time of conception? To this end, numerous relevant texts were exhaustively analysed, along with several secondary sources and other traditional medicinal systems.

Stanley Cavell on Aesthetic Understanding Garry L. Hagberg, 2018-10-31 This book investigates the scope and significance of Stanley Cavell's lifelong and lasting contribution to aesthetic understanding. Focusing on various strands of the rich body of Cavell's philosophical work, the authors explore connections between his wide-ranging writings on literature, music, film, opera, autobiography, Wittgenstein, and Austin to contemporary currents in aesthetic thinking. Most centrally, the writings brought together here from an international team of senior, mid-career, and emerging scholars, explore the illuminating power of Cavell's work for our deeper and richer comprehension of the intricate relations between aesthetic and ethical understanding. The chapters show what aesthetic understanding consists of, how such understanding might be articulated in the tradition of Cavell following Wittgenstein and J. L. Austin, and why this mode of human understanding is particularly important. At a time of quickening interest in Cavell and the tradition of which he is a central part and present-day leading exponent, this book offers insight into the deepest contributions of a major American philosopher and the profound role that aesthetic experience can play in the humane understanding of persons, society, and culture.

Keeping Women in Science Kate White, 2015-01-05 *Keeping Women in Science* examines the careers of women and men at a large Australian research institute and the challenges that women with or without children experience, often resulting from direct and indirect discrimination and being positioned as outsiders. The research found a huge generational change between the Baby Boomers—the current science leaders—and Gen X and Gen Ys. Younger women and men reject the traditional model of a successful scientist—a single male for whom science is like a religious vocation. Instead, they seek new models for doing science that support dual careers, work flexibility and work-life balance.
