Lectura - Miguel Delibes: 'Cinco horas con Mario' Ann-Katrin Kutzner, 2008 Seminar paper del año 2003 en el tema Romanística - Español, literatura, cultura general, Nota: 1-, Philipps-Universität Marburg, 0 Citas bibliográficas, Idioma: Español, Resumen: El autor, cuyo obra *Cinco horas con Mario* voy a comentar, se llama Miguel Delibes. Delibes nació el 17 de octubre en 1920 en Valladolid. Es un escritor contemporáneo que escribe novelas de sociedades críticas (gesellschaftskritische Romane). Primero, en 1936, estudió modelado y escultura en la Escuela de Artes y Oficios. Luego, en 1940, siguió estudiando, esta vez derecho y comercio. Al mismo tiempo empezó a dibujar como caricaturista en el diario *El Norte de Castilla*. Después trabajó ahí también como redactor y en 1958 llegó a ser el director del diario citado, en el que trabajó hasta 1963. Hasta ahora tres de las novelas de Delibes fueron adaptados al teatro y unas cuantas también al cine. La mayor parte de sus obras fueron traducidos a más de veinte idiomas. Miguel Delibes recibió los más importantes premios de literatura en lengua castellana, entre los que destaca el Premio Cervantes (1993). Entre su obra cabe señalar *El camino* (1950), *Diario de un cazador* (1955), *La hoja roja* (1959), *Las ratas* (1962), *Madera de héroe* (1987), *Señora de rojo sobre fondo gris* (1991) y *El hereje* (1999).

Comentario literario de textos Rosa Navarro Durán, 1994 La historia de la literatura está formada por textos que immortalizan a sus creadores. Sólo a través de la lectura profunda de los textos se puede llegar a su comprensión y, de este

modo, disfrutar plenamente de la literatura. Comentarlos analizándolos supone, efectivamente, una profunda reflexión a partir de la literatura. No existe un único camino para hacerlo. Este libro lo demuestra.

Women's Narrative and Film in 20th Century Spain Kathleen Glenn, 2017-09-25 Women's Narrative and Film in 20th Century Spain examines the development of the feminine cultural tradition in Spain and how this tradition reshaped and defined a Spanish national identity. Each chapter focuses on representation of autobiography, alienation and exile, marginality, race, eroticism, political activism, and feminism within the ever-changing nationalisms in different regions of Spain. The book describes how concepts of gender and difference shaped the individual, collective, and national identities of Spanish women and significantly modified the meaning and representation of female sexuality.

The Contemporary Spanish Novel Samuel Amell, 1996-01-19 Although there are several annotated bibliographies of contemporary Spanish novelists, this book covers critical works published on the post civil war Spanish novel as a literary form. The volume cites books and articles, and each citation is accompanied by a descriptive and evaluative annotation. The work contains a section of entries on books and another on articles. Entries within each section are arranged alphabetically. Included are entries primarily for studies published in English or Spanish, though some in Catalan, French, Galician, and Italian are also cited. In the last decades, there has been an explosion of critical works on the post civil war Spanish novel. This proliferation of material causes serious problems for scholars conducting research on the subject. While there are bibliographies of particular novelists, this book deals with general studies of trends, topics, and comparative approaches. The volume primarily cites works published in English or Spanish, but it also includes some in Catalan, French, Galician, and Italian. The volume is divided into two sections—books and articles. Within each section, entries are arranged alphabetically. Each citation is accompanied by a descriptive and evaluative annotation. The annotations provide information about the topic, content, and methodology of the works cited and express an opinion of the works' value. The length of the annotations varies according to the importance of the topic. Author and title indexes add to the utility of the work.

Phraseology Sylviane Granger, Fanny Meunier, 2008-06-01 Long regarded as a peripheral issue, phraseology is now taking centre stage in a wide range of fields. This recent explosion of interest undoubtedly has a great deal to do with the development of corpus linguistics research, which has both demonstrated the key role of phraseological expressions in language and provided researchers with automated methods of extraction and analysis. The aim of this volume is to take stock of current research in phraseology from a variety of perspectives: theoretical, descriptive, contrastive, cultural, lexicographic and computational. It contains overview chapters by leading experts in the field and a series of case studies focusing on a wide range of multiword units: collocations, similes, idioms, routine formulae and recurrent phrases. The volume is an invitation for experienced phraseologists to look at the field with different eyes and a useful introduction for the

many researchers who are intrigued by phraseology but need help in finding their way in this rich but complex domain.

The Spanish Civil War in Literature Janet Pérez, Wendell M. Aycock, 1990 Few events have stirred the emotions and caught the imaginations of intellectuals as did the Spanish Civil War of 1936-39. The Spanish Civil War in Literature examines the diverse literatures that the war inspired: a literature relating directly to the war, a literature of exile arising from the forty-year dictatorship of Francisco Franco, and a polemical literature embracing pro-Franco and Loyalist sympathies. In this book, specialists from a variety of fields explore these literatures within comparative and interdisciplinary frameworks. They reflect upon film, poetry, novels, painting, discourse, biography, and propaganda. The essays are grouped according to the original languages of the works they discuss—French, Russian, English, and Spanish.

The Syntax, Semantics and Pragmatics of Spanish Mood Henk Haverkate, 2002-09-24 This study provides a consistent description and explanation of the syntax, the semantics and the pragmatics of Spanish mood. A major focus of attention is the central role of the truthfunctional categories of realis, potentialis and irrealis as parameters relevant to mood selection in both subordinate and non-subordinate clauses. Furthermore, a proposal is offered for a new typology of clause-embedding predicates. The framework chosen stems from the insight that complement-taking predicates share the property of providing information on the set of mental processes which characterize intentional human behavior. At the level of

pragmatic analysis, mood selection is examined from a variety of angles. Thus, specific research is conducted within the framework of speech act theory, relevance theory, politeness theory and the theory of Gricean maxims.
