A Military History of the Mediterranean Sea, 2018-05-07 The Mediterranean has always attracted the imagination of modern historians as the epicentre of great political entities, such as the Egyptians, Greeks, Romans, Arabs, Ottomans, Venetians, and Spanish. However, it seems that the sea itself was always on the margins of historical inquiry - at least, until the publication of the famous two-volume work by F. Braudel in 1949. This collection of essays aims to offer a vertical history of war in the Mediterranean Sea, from the early Middle Ages to the early modernity, putting the emphasis on the changing face of several different aspects and contexts of war over time. Contributors are Stephen Bennett, Stathis Birtachas, Cornel Bontea, Wayne H. Bowen, Lilia Campana, Raffaele D'Amato, Elina Gugliuzzo, Nikolaos Kanellopoulos, Savvas Kyriakides, Tilemachos Lounghis, Alan V. Murray, Chrysovalantis Papadamou, Jacopo Pessina, Philip Rance, Georgios Theotokis, Iason Tzouriadis, Ian Wilson, and Aysel Yildiz.

The Donkey in Human History Peter Mitchell, 2018-02-14 Donkeys carried Christ into Jerusalem while in Greek myth they transported Hephaistos up to Mount Olympos and Dionysos into battle against the Giants. They were probably the first animals that people ever rode, as well as the first used on a large-scale as beasts of burden. Associated with kingship and the gods in the ancient Near East, they have been (and in many places still are) a core technology for moving people and goods over both short and long distances, as well as a supplier of muscle power for threshing and grinding grain, pressing olives, raising water, ploughing fields, and pulling carts, to name just a few of the uses to which they have been put. Yet despite this, they remain one of the least studied, and most widely ignored, of all domestic animals, consigned to the margins of history like so many of those who still depend upon them. Spanning the globe and extending from the donkey's initial domestication up to the present, this book seeks to remedy this situation by using archaeological evidence, in combination with insights from history and anthropology, to resituate the donkey (and its hybrid offspring such as the mule) in the unfolding of human history, looking not just at what donkeys and mules did, but also at how people have thought about and understood them. Intended in part for university researchers and students working in the broad fields of world history, archaeology, animal history, and anthropology, but it should also interest anyone keen to learn more about one of the most widespread and important of the animals that people have domesticated.

Lombard Legacy John Mitchell, 2018-12-31 Using the great south-Italian monastery of San Vincenzo al Volturno, one of

the best preserved monasteries of the earliest Middle Ages, as a case-study and heuristic paradigm, John Mitchell has engaged in a wide-ranging examination of the ways in which visual culture was developed and deployed by ambitious states and institutions in early medieval Europe. The present volume includes studies on the cultural dynamics of Italy and its contribution to the visual complexion of Europe in the period, as well as essays on many aspects of the artistic culture of San Vincenzo, including a series of papers on the display of script in the physical fabric of the monastery and the prominent role it played in its self-image.

Iconotropy and Cult Images from the Ancient to Modern World Jorge Tomás García, Sandra Sáenz-López Pérez, 2022-04-06 The book examines the process of symbolic and material alteration of religious images in antiquity, the middle ages and the modern period. The process by which the form and meaning of images are modified and adapted for a new context is defined by a large number of spiritual, religious, artistic, geographical or historical circumstances. This book provides a defined theoretical framework for these symbolic and material alterations based on the concept of iconotropy; that is, the way in which images change and/or alter their meaning. Iconotropy is a key concept in religious history, particularly for periods in which religious changes, often turbulent, took place. In addition, the iconotropic process of appropriating cult images brought with it changes in the materiality of those images. Numerous accounts from antiquity, the middle ages and the modern period detail how cult images were involved in such processes of misinterpretation, both symbolically and materially. The book will be of interest to scholars working in art history, visual culture and religious history.

Heritage or Heresy B. Schildgen, 2016-01-23 This is an account of the roles of local and national movements, and of memory and regret in the destruction or preservation of the architectural, artistic, and historic legacy of Europe in which the author examines what is cultural heritage and why it matters.
