The Wealth Choice Dennis Kimbro, 2013-02-19 Bestselling personal finance author Dennis Kimbro interviews prominent

black millionaires to learn how they got where they are and offers key insights for those struggling to reach the next level. It's no secret that these hard times have been even harder for the Black community. Approximately 35 percent of African Americans had no measurable assets in 2009, and 24 percent of these same households had only a motor vehicle. Dennis Kimbro, observing how the weight of the continuing housing and credit crises disproportionately impacts the African-American community, takes a sharp look at a carefully cultivated group of individuals who've scaled the heights of success and how others can emulate them. Based on a seven year study of 1,000 of the wealthiest African Americans, *The Wealth Choice* offers a trove of sound and surprising advice about climbing the economic ladder, even when the odds seem stacked against you. Readers will learn about how business leaders, entrepreneurs, and celebrities like Bob Johnson, Spike Lee, L. A. Reid, Herman Cain, T. D. Jakes and Tyrese Gibson found their paths to wealth; what they did or didn't learn about money early on; what they had to sacrifice to get to the top; and the role of discipline in managing their success. Through these stories, which include men and women at every stage of life and in every industry, Dennis Kimbro shows readers how to:

- Develop a wealth-generating mindset and habits
- Commit to lifelong learning
- Craft goals that match your passion
- Make short-term sacrifices for long-term gain
- Take calculated risks when opportunity presents itself

Kolie E. Crutcher, III, 2007-12-01 Probably the greatest tragedy of the human race is the failure of the overwhelming majority of people to realize their dreams. Your dreams are realized as a result of creating power in your life. But, because most people have no clue about how to create power in their lives, their dreams remain unrealized. With that being said, quite naturally the question becomes, How do I create power in my life? The answer to this question is found within the pages of this book. Think about the following: You cannot turn on the light in your home without electric power. In the same fashion, you cannot turn on the dreams in your life without personal power. *Electric Living: The Powerful Life!* demonstrates the process of creating that personal power necessary to turn on the dreams in your life by relating it to the electric power necessary to turn on a common light bulb in your home. That is my promise to you, the reader. This is NOT just another motivational book! And here is why: as you will learn, motivation is only part of the formula for creating power. If all you want is motivation, there are countless other books that you can purchase. Yes, *Electric Living: The Powerful Life!* will motivate you, but it does not stop there. This book goes the extra mile and gives you a formula for creating power - the personal power necessary to realize the dreams in your life!

Wisdom for the Soul of Black Folk Roderick Terry, 2007 Another book of quotations? Indeed there are numerous excellent extant anthologies of quotations, but these tend to be very broad, with a bias toward classical and well-known authors; those works which document the contributions of Black authors have tended to focus on African-Americans, considerable as their output is. Undeniable recognition of this prevalence is reflected in the title of the present volume which pays homage to W. E. B. Du Bois' classic work and in the preponderance of entries from American sources. Nevertheless, effort has been made to cast a wider net to capture under-represented and unfamiliar voices. Khemetic texts preserved in papyri and stelae are the earliest literature to have survived, followed by the writings of North African Romans and Ethiopian philosophers and clerics, and the lately recovered Timbuktu manuscripts from their repositories in the desert sands of Mali. The Transatlantic slave experience gave rise to the slave narratives and abolitionist literature from both sides of the Atlantic, which remained

predominant right up to the 20th century. Post-Emancipation under colonial rule and white domination, Black poetry and prose emerged, adhering to prevailing standards, evidenced typically in the work of Phillis Wheatley and the sonnets of Claude McKay. With the Civil Rights and Black Power movements would come iconoclastic expressions of protest and identity. There is a sizeable body of literature by Black authors from Africa and the diaspora who speak to universal values and eternal verities. This anthology of their work focuses on the inner life, on personal development and self-actualization. 3000 quotations have been selected to inspire, enlighten and encourage; they have been arranged in 200 psycho-spiritual categories and in chronological order. The resulting timeline of thought in itself is useful and instructive as it demonstrates very clearly the evolution of consciousness evident in the contemporary thinking on particular subjects. Like its predecessor, *Wisdom for the Soul: Five Millennia of Prescriptions for Spiritual Healing*, this volume contains a full biographical index and bibliographical references. Much of the material is anthologized here for the first time.
