Reading Lacan's Écrits: From 'Signification of the Phallus' to 'Metaphor of the Subject' Stijn Vanheule,Derek Hook,Calum Neill,2018-10-09 The *Écrits* was Jacques Lacan's single most important text, a landmark in psychoanalysis which epitomized his aim of returning to Freud via structural linguistics, philosophy and literature. Reading Lacan's *Écrits* is the first extensive set of commentaries on the complete edition of Lacan's *Écrits* to be published in English. An invaluable document in the history of psychoanalysis, and one of the most challenging intellectual works of the twentieth century, Lacan's *Écrits* still today begs the interpretative engagement of clinicians, scholars, philosophers and cultural theorists. The three volumes of Reading Lacan's *Écrits* offer just this: a series of systematic paragraph-by-paragraph commentaries - by some of the world's most renowned Lacanian analysts and scholars - on the complete edition of the *Écrits*, inclusive of lesser known articles such as 'Kant with Sade', 'The Youth of Gide', 'Science and Truth', 'Presentation on Transference' and 'Beyond the Reality Principle. The originality and importance of Lacan's *Écrits* to psychoanalysis and intellectual history is matched only by the text's notorious inaccessibility. Reading Lacan's *Écrits* is an indispensable companion piece and reference-text for clinicians and scholars exploring Lacan's magnum opus. Not only does it contextualize, explain and interrogate Lacan's arguments, it provides multiple interpretative routes through this most labyrinthine of texts. Reading Lacan's *Écrits* provides an incisive and accessible companion for psychoanalysts and psychoanalytic psychotherapists in training and in practice, as well as philosophers, cultural theorists and literary, social science and humanities researchers who wish to draw upon Lacan's pivotal work.

Remade in France Valérie Saugera,2017-04-05 *Remade in France: Anglicisms in the Lexicon and Morphology of French* chronicles the current status of French Anglicisms, a popular topic in the history of the French language and a compelling example of the influence of global English. The abundant data come from primary sources-a large online newspaper corpus (for unofficial Anglicisms) and the dictionary (for official Anglicisms)-and secondary sources. This book examines the appearance and behavior of English items in the lexicon and morphology of French, and explains them in the context of French neology and lexical activity. The first phase of the latest contact period (1990-2015) has its own complex linguistic characterization, including a significant influx of nonce borrowings and very low frequency Anglicisms, heterogeneous and creative borrowing outcomes, and direct phraseological borrowing. This book is a counterargument to the well-known

criticism that Anglicisms are lexical polluters. On the contrary, the use of Anglicisms requires the inventive application of complex linguistic rules, and the borrowing of Anglicisms into the French lexicon is convincing proof that language change is systematic. The findings bring novel interdisciplinary insights to the domains of borrowing in a non-bilingual contact setting; global English as a source of lexical creativity in the French lexicon; the phases, patterns and processes of integration of English loanwords; the morphology of borrowing; and computational corpus linguistics. The appended database is a snapshot of a synchronic period of linguistic contact and a useful lexicographic resource.

Manual of Romance Languages in the Media Kristina Bedijs, Christiane Maaß, 2017-09-25 This manual provides an extensive overview of the importance and use of Romance languages in the media, both in a diachronic and synchronic perspective. Its chapters discuss language in television and the new media, the language of advertising, or special cases such as translation platforms or subtitling. Separate chapters are dedicated to minority languages and smaller varieties such as Galician and Picard, and to methodological approaches such as linguistic discourse analysis and writing process research.

Indigenous Societies in the Post-colonial World Bina Sengar, A. Mia Elise Adjoumani, 2023-03-07 This edited book provides perceptions on “indigeneity” through a global perspective. Emphasizing the contemporary and postcolonial debates on indigenous, it delves into diversity and dissonance within indigenous concepts. Through its chapters based on theoretical and empirical studies from Asian, African, and American perceptions of indigenous societies, it brings out complexity, resilience, and response of “indigenous” in the post-colonial global society. It especially looks at how these societies manage to move forward by going beyond the stigma of the colonial past. The chapters in the book are divided into three sections where they discuss indigenous cultures through interdisciplinary perspectives. The narrative approach of historical concepts and contemporary indigenous challenges within the book include anthropological, cultural, ecological, historical, literary, and legal studies. The contributions in the collection come from widely respected international scholars who are engaged in indigeneity and postcolonial questions. It allows the reader to (re)discover the theories and resilience of the indigenous societies that are historically marked and are reshaping the histories and contemporary narratives in the world. This book is of particular interest to scholars, students, policymakers, and people curious about the histories and the dynamic progress of the indigenous and indigenous societies of Africa, the Americas, and Asia.

Adapted Voices Armelle Blin-Rolland, 2017-07-05 Voyage au bout de la nuit (1932), by Louis-Ferdinand Celine

(1894-1961), and *Zazie dans le metro* (1959), by Raymond Queneau (1903-1976), were two revolutionary novels in their transposition of spoken language into written language. Since their publication they have been adapted into a broad range of media, including illustrated novel, bande dessinée, film, stage performance and recorded reading. What happens to their striking literary voices as they are transposed into media that combine text and image, sound and image, or consist of sound alone? In this study, Armelle Blin-Rolland examines adaptations sparked by these two seminal novels to understand what 'voice' means in each medium, and its importance in the process of adaptation.

The Cinematic Enfant Terrible Karolina Westling, 2025-06-26 *The Cinematic Enfant Terrible* is a groundbreaking study of rule breakers in French cinema. The book approaches the concept of the enfant terrible in the literal sense of the term - young people labelled 'terrible' (awful) by the adult generation. It explores a rich cinematic tradition from Jean Vigo's *Zéro de conduite* (1933) and François Truffaut's *Les quatre cents coups* (1959), to Catherine Breillat's *36 fillette* (1988) and Ladj Ly's *Les Misérables* (2019). The book encompasses the cinematic enfants terribles across age groups and genders, addressing the differences between unruly boys and rebellious teenage girls. The early post-war focus on juvenile delinquency and sexual provocations diversifies into filles fatales and angry girls, but also precarious boys and parents terribles. The book charts the evolution of the enfant terrible concept from a negative label to a sympathetically-viewed figure of anti-authoritarian resistance, reflecting the changing position of children within the family in post-war France. The films address the ethical

paradox of democratic upbringing - the dilemma of raising children to become obedient individuals with a mind of their own. The asymmetrical relationship between children and parents is seen as a tacit family contract that highlights the importance of an intergenerational perspective for the understanding of generational conflicts. Rebellious children and teenagers on screen are seen in the light of wider social transformations. The book clarifies the interplay between individual protests and cultural currents such as existentialism, feminism and ethnic conflicts. This book will be of interest to scholars and students of French culture and cinema, childhood and youth studies, gender studies and cultural studies.

Les incompréhensions culturelles : problèmes, défis, opportunités Dominique Dias, Nadine Rentel, Stephanie Schwerter, 2025-01-23 La langue est liée à la culture en ce qu'elle reflète des visions du monde propres à une communauté discursive donnée. Le passage d'une langue à l'autre induit alors une perspective croisée qui peut être tout autant synonyme d'enrichissement que d'incompréhension. Le présent ouvrage collectif propose d'étudier les incompréhensions afin de comprendre les mécanismes qui les sous-tendent et en font parfois une étape nécessaire dans la compréhension de l'autre. Pour cela, les contributions reviennent sur la définition de certains concepts liés aux différences culturelles. Elles explorent des contextes variés allant de la littérature à l'interprétariat en milieu social en passant par le cinéma, le théâtre, les romans graphiques ou encore les réseaux sociaux. Autant de pratiques langagières sont passées au crible (néologie lexicale, traduction audiovisuelle, traduction multimodale...) pour comprendre à la fois les problèmes, les défis et les opportunités liés aux incompréhensions culturelles.

Dukova, H. D., Mastrantonio, M. (ed.) (2023). *International Academic Research & Reviews in Educational Sciences-I*. Global Academy Publishing House. DOI: <https://dx.doi.org/10.59740/academy.01> This book consists of eight chapters. In the first chapter, there is information about the Sanjak of Rhodes, an administrative division of the Ottoman Empire, and statements that madrasas and Islamic higher education schools were an important part of the education system in the Ottoman Empire. In the second chapter, there is research into emotional education, which is the process of developing emotional intelligence, which includes understanding and managing one's own emotions, as well as recognizing and empathizing with the emotions of others, where teachers play a very important role in emotional education when they interact with students on a daily basis and can provide a safe and supportive environment for emotional learning. In the third chapter explains the development of the roles of sustainable citizenship education in Indonesia and provides curricular recommendations to the education system. In the fourth chapter, it is mentioned that individuals who have developed writing skills in their mother tongue are successful in the writing skills they have learned in the foreign language they have learned and that there is an important connection between writing skills and teaching as a mother tongue in a foreign language. In the context of the fact that students who cannot gain writing skills in their mother tongue, in general, have difficulty writing in the language they have learned, it is also emphasized that Turkish students face some difficulties in the process of learning Persian, considering their writing skills within the framework of teaching Persian as a foreign language. The fifth chapter provides a brief historical account of the Urkun incident, the circumstances that prepared the rebellion, and the consequences of the rebellion. Then, the

reflections of this event on Kyrgyz prose are emphasized. In Kyrgyzstan, which gained its independence in 1991, the literature of the pre-independence Soviet period and the post-independence literary environment are not the same. Soviet-era literature is literature that is entirely under the guidance of the state. This has had an impact on the topics dealt with in literature. There were interventions by the Soviet administration in the handling of the Urkun incident, and Urkun was sometimes among the banned subjects. The study also includes the intervention of the literary environment on the subject of Urkun. In the sixth chapter, emphasizes why the Soviet leadership gave importance to the theater genre and the factors that influenced the formation of the theater genre that entered Kyrgyz literature in the 1920s. In the first part of the study, the historical, political, and psychological environment prevailing in the Kyrgyz geography at the beginning of the 20th century is mentioned. The attitude of the Soviet authorities was primarily influential in the rapid development of contemporary theater. Therefore, in the second part of the study, it is discussed why the Soviet authorities attach importance to the theater genre. In the third part of the study, the factors affecting the formation and development of the Contemporary Kyrgyz Theater in the post-revolutionary period are discussed in general. In the seventh chapter, some basic concepts, theories, and practices in educational administration are discussed, emphasizing that educational administration is the process of planning, organizing, directing, and controlling educational institutions such as schools, colleges, and universities. The aim of the eighth chapter is to determine the applicability of the lipogram technique by investigating its contribution to Turkish teaching and creative writing activities. This book has been prepared for academics, researchers, doctoral students, and policymakers working in the field of education.

An Eye-Tracking Study of Equivalent Effect in Translation Callum Walker, 2020-11-23 This book provides a detailed example of an eye-tracking method for comparing the reading experience of a literary source text readers with readers of a translation at stylistically marked points. Drawing on principles, methods and inspiration from fields including translation studies, cognitive psychology, and language and literary studies, the author proposes an empirical method to investigate the notion of stylistic foregrounding, with 'style' understood as the distinctive manner of expression in a particular text. The book employs Raymond Queneau's *Zazie dans le métro* (1959) and its English translation *Zazie in the Metro* (1960) as a case study to demonstrate the proposed methods. This book will be of particular interest to students and scholars of translation studies, as well as those interested in literary reception, stylistics and related fields.

Experiences in Translation Umberto Eco, 2008-01-01 In this book Umberto Eco argues that translation is not about comparing two languages, but about the interpretation of a text in two different languages, thus involving a shift between cultures. An author whose works have appeared in many languages, Eco is also the translator of Gérard de Nerval's *Sylvie* and Raymond Queneau's *Exercices de style* from French into Italian. In *Experiences in Translation* he draws on his substantial practical experience to identify and discuss some central problems of translation. As he convincingly

demonstrates, a translation can express an evident deep sense of a text even when violating both lexical and referential faithfulness. Depicting translation as a semiotic task, he uses a wide range of source materials as illustration: the translations of his own and other novels, translations of the dialogue of American films into Italian, and various versions of the Bible. In the second part of his study he deals with translation theories proposed by Jakobson, Steiner, Peirce, and others. Overall, Eco identifies the different types of interpretive acts that count as translation. An enticing new typology emerges, based on his insistence on a common-sense approach and the necessity of taking a critical stance.

The Lover, Wartime Notebooks, Practicalities Marguerite Duras, 2017-11-14 A hardcover omnibus edition of the French writer's most famous novel—the basis for the film *Memoir of War*—alongside her fascinating wartime writings and a collection of intimate autobiographical essays. Marguerite Duras was one of the leading intellectuals and novelists of postwar France, but her wartime writings were not published in full until after her death. The *Wartime Notebooks* trace Duras's formative experiences—including her difficult childhood in Indochina and her harrowing wait for her husband's return from Nazi internment—revealing the personal history behind her bestselling novels. *The Lover* is the best known of these; set in prewar Indochina, its haunting tale of a tumultuous affair between an adolescent French girl and her wealthy Chinese lover is based on her own life. In spare and luminous prose, Duras evokes life on the margins in the waning days of France's colonial empire, and the passionate relationship between two unforgettable outcasts. *Practicalities* is a collection of small and intensely personal pieces Duras dictated near the end of her life. These deceptively simple meditations on motherhood, domesticity, sex, love, alcohol, writing, and more are witty, earthy, outspoken, and surprisingly fresh and relevant today.

Jeux de mots et créativité Bettina Full, Michelle Lecolle, 2018-10-08 This volume seeks to shed light on the interdependencies between wordplay and language creativity. Orthographie Ina Karg, 2015-07-01 Das Buch behandelt die deutsche Orthographie - z.T. aber auch die anderer Sprachen - im Kontext von Öffentlichkeit, Sprachwissenschaft, didaktischen Aussagen und Unterrichtspraxis, insbesondere auch im Zusammenspiel dieser Komponenten. Orthographie ist Teil der schriftsprachlichen Kompetenz und hat mit dem gesamten Sprachsystem zu tun. Ein Verständnis dafür kommt ohne einen Blick auf den historischen Wandel nicht aus, dem sowohl der Gegenstand als auch seine wissenschaftliche Bearbeitung ausgesetzt war und ist. Rechtschreiben wird von der Sprechergemeinschaft als bedeutsam erachtet, dabei jedoch nicht emotionslos verhandelt und auch nicht immer mit den nötigen Kenntnissen praktiziert. Orthographisches Können spielt jedoch als Fähigkeit zur Teilhabe an schriftsprachlicher Kommunikation, diskursiver Praxis und damit als Grundlage für eine erfolgversprechende Lebensbewältigung eine wichtige und unverzichtbare Rolle im Bildungsauftrag der Schule. Die Publikation versteht sich auch in dem Sinne als Arbeitsheft, dass jedem Kapitel Aufgaben angegliedert sind, die zur Festigung der gewonnenen Erkenntnisse und zur Anregung dienen, sie zu überdenken und damit selbstständig weiterzuarbeiten.
