Mediación familiar y social en diferentes contextos Ana Poyatos García, Ana Poyatos, 2004 Este libro presenta el papel y la importancia de la mediación en diversos ámbitos, así como la aportación del Trabajo Social en este nuevo campo de intervención profesional, cada vez más necesario y demandado desde numerosas instancias como vía de resolución para múltiples conflictos. La Colección Trabajo Social, coeditada por la editorial Nau Llibres y el Servei de Publicacions de la Universitat de València, nace con el propósito de ofrecer materiales para la reflexión y la acción dirigidos tanto a profesionales de la acción social como a docentes y estudiantes, así como a ciudadanos interesados en temas sociales. Impulsada y asesorada por profesores del Departamento de Trabajo Social de la Universitat de València, la Colección pretende poner al alcance de los lectores textos que abordan aspectos teóricos, metodológicos y de actualidad relacionados con el ámbito de lo social, dando cuenta de los principales cambios y sus consecuencias, y contribuyendo así al desarrollo y fortalecimiento de nuestra disciplina en el contexto de las ciencias sociales.

Abriendo la escuela Ingrid Jung, 2003 Este volumen nos acerca a la realidad educativa en América Latina desde diferentes perspectivas: la revisión del estado de la investigación sobre el aprendizaje de primeras y segundas lenguas; las prácticas educativas y comunicativas observadas en escuelas de comunidades indígenas; una visión histórica de la enseñanza del castellano en programas bilingües; e investigaciones empíricas sobre el papel de la escritura en procesos de adquisición de primeras y segundas lenguas. Sin embargo, tanto si se trata de una descripción histórica como de un estudio de caso, todos los trabajos giran alrededor de temas que están en el mismo centro de la problemática de la educación intercultural bilingüe: los procesos de aprendizaje de las dos lenguas presentes en la comunicación escolar, la didáctica de las lenguas, y el papel de la escritura como medio y resultado del aprendizaje. Subyace en todas las contribuciones el deseo de indagar sobre qué es el lenguaje, cómo se aprende, cuáles son las relaciones entre el dominio de lo oral y de lo escrito en las dos lenguas en juego. Se produce aquí un acercamiento al lenguaje en la escuela, en parte como contenido curricular, pero además como forma de comunicación entre niños y niñas, y con profesores y la comunidad, dentro de un contexto más amplio.

Análisis pragmalingüístico de resoluciones de conflictos: las mediaciones laborales. Propuestas de investigación Susana Rida Rodríguez, 2008-05-19 Nuestras pretensiones en esta investigación se centran en analizar las mediaciones laborales

desde la perspectiva de la pragmalingüística, si bien es cierto que para delimitar el terreno propio de este género discursivo hacemos un estudio comparativo de los juicios, los arbitrajes, las conciliaciones y las mediaciones, en este último caso abordamos también las mediaciones educativas en contextos interculturales. Para llevar a cabo este análisis ofrecemos un capítulo introductorio donde tratamos el conflicto, así como una aclaración sobre los géneros extrajudiciales de resolución de conflictos, haciendo hincapié en las mediaciones. A continuación, ofrecemos un repaso diacrónico de estos géneros (anexo 1). Del mismo modo, aportamos un estado de la cuestión comentando algunos trabajos que se han realizado sobre este tema cuya base sea lingüística, en particular, o bien comunicativa, en general. En el apartado de fundamentación teórica incluimos la descripción del marco comunicativo, puesto que en los distintos géneros analizados nos encontramos con una estructura triádica, en lugar de los clásicos estudios binarios que habitualmente han sido descritos en las investigaciones sobre comunicación. De otro lado, mostramos un análisis léxico-semántico de los diferentes vocablos que estamos manejando, sirviéndonos de fuentes tan dispares como las diversas ediciones de los diccionarios de la Real Academia de la Lengua Española, diccionarios jurídicos, manuales de derecho y manuales sobre los métodos extrajudiciales de resolución de conflictos. También presentamos un estudio de las

Una historia de amor en Hospitalet de Llobregat Ángel Cócera Vázquez, 2016-03-10 Un resumen desde el año 1975 al 1995 de la transformación de una gran ciudad y a la vez una bonita historia de amor y de una Familia.

Bilbao 1874 Gorka Martín, 2024-09-11

Los asedios, de Numancia a Stalingrado, dejan siempre una cicatriz imborrable en la memoria colectiva de los pueblos. El que sufrió Bilbao durante la Segunda Guerra Carlista, el cuarto en lo que iba de siglo, no solo modificó su piel y su aspecto, sino que también confirmó su fama de ciudad indomable y su título de [villa invicta].

En febrero de 1874, las tropas carlistas pusieron bajo sitio la ciudad vasca en lo que terminó por ser una pesadilla de dos meses interminables para los defensores que se quedaron dentro. Envalentonados por varias victorias en este frente, los seguidores Carlos de Borbón y Austria-Este vieron en la plaza vizcaína, clave por su pujanza económica, la vía más rápida para ganar crédito internacional e impulsar su causa. Para ello no escatimaron en crueldad, bombardeando con saña la ciudad sin respetar lugares como iglesias u hospitales. El sufrimiento y heroísmo de sus habitantes se tradujeron en una victoria clave para una Primera República moribunda que resistía a duras penas las acometidas conjuntas de sus muchos enemigos.

El arqueólogo Gorka Martín reconstruye con una abrumadora documentación cada detalle de unos días crueles y de un ambiente político irrespirable en toda Europa. 150 años después, Bilbao perdona pero no olvida el dolor causado por las

bombas de uno de los asedios más cruciales ocurridos en la historia de España.

Diccionario histórico de la arqueología en España Margarita Díaz-Andreu García, Gloria Mora, Jordi Cortadella, 2009
La historia de la Arqueología no incumbe sólo a los arqueólogos. Además de dar a conocer la propia tradición a los profesionales del sector, su estudio nos acerca a la manera en que cada época ha percibido e interpretado el pasado a través del testimonio de los restos materiales, teniendo presente tanto el marco histórico como los condicionantes políticos, económicos, culturales, morales y filosóficos. Durante las últimas décadas, en nuestro país se ha venido desarrollando un interés creciente por la historia de la Arqueología. El número de tesis doctorales, artículos, monografías, congresos, exposiciones y reuniones científicas varias empieza a ser considerable. Faltaba no obstante una obra de referencia que reuniese a buena parte de las personalidades tanto nacionales como extranjeras, instituciones, publicaciones periódicas y eventos más relevantes que a partir del siglo XV hasta nuestros días se han ocupado de los estudios arqueológicos desde la prehistoria hasta la Edad Media, o han afectado a su desarrollo. El presente diccionario, con 695 voces, firmadas por 119 colaboradores, nace con la vocación de ser no sólo una obra de consulta básica sino también una guía para futuras investigaciones. Con este objetivo, las voces van acompañadas de un selecto aparato bibliográfico.

Intervenciones en Dólmenes, 1953-1964 Ma. Gracia Gómez de Terreros Guardiola, 2005 El presente libro analiza las intervenciones efectuadas por el arquitecto Félix Hernández Giménez en los dólmenes de Matarrubilla, Cueva de La Pastora (Sevilla) y Zancarrón de Soto (Huelva) entre los años 1953 y 1964.

Civics and Citizenship Benilde García-Cabrero, Andrés Sandoval-Hernández, Ernesto Treviño-Villareal, Silvia Diazgranados Ferrás, María Guadalupe Pérez Martínez, 2017-08-24 The book is organized around four sections. The first section is an introduction to the problem of defining the scope and foundations of the development of moral personality and social engagement, in particular, the development of civic and ethical attitudes and prosocial behavior. The second section presents a comparative analysis of education policies in Mexico, Chile and Colombia, in particular the way the curricula of civic and citizenship education is designed and implemented. The section also describes and analyzes the way this subject is taught in the classrooms of the primary, secondary and high school levels in the three countries. The third section includes the results of research projects in Civics and Citizenship Education conducted with different theoretical and methodological models of analysis. This last section includes some of the best practices of Civic Education that have been developed in

Mexico, Colombia, and Chile.

El “oro rojo” en la Antigüedad. ZARZALEJOS PRIETO Mar ,HEVIA GÓMEZ Patricia ,MANSILLA PLAZA Luis , 2021-02-23 A causa de su llamativo color rojo, el cinabrio o sulfuro de mercurio se empleó en diferentes contextos junto con otros pigmentos rojos desde etapas remontables al inicio de la Prehistoria Reciente. La aplicación de técnicas físico-químicas ha posibilitado su reconocimiento y, a partir de él, una lectura comparativa de su presencia en relación con la de otros pigmentos rojos tan abundantes en la naturaleza como las hematites, o su interacción con otros productos y materiales considerados de prestigio, abriendo interesantes interrogantes que iluminan lecturas en clave social, económica e ideológica. En época histórica, el conocimiento de su empleo, mucho tiempo dependiente de las referencias de los autores clásicos, se ve ahora enriquecido por los resultados de la aplicación de técnicas analíticas que, no sólo certifican su empleo en la pintura mural ilustrando su aplicación pura o con mezcla o las posibles causas de deterioro, sino también su uso en la amalgamación de metales nobles. Un salto cualitativo importante en las investigaciones sobre el uso antiguo del cinabrio está representado por la capacidad de identificar las fuentes de origen del mineral mediante la aplicación de diversas técnicas arqueométricas, lo que añade conocimiento sobre el inicio de la explotación de estos recursos en el mayor foco mundial, localizado en la comarca de Almadén, pero también en otras regiones hispanas. Esta obra ofrece un estado de la cuestión sobre las aplicaciones del cinabrio en diversos contextos de la Antigüedad peninsular alumbrado por las investigaciones de los más reconocidos expertos en la cuestión, pero integra también un conjunto de trabajos sobre el propio mineral, redactado por prestigiosos especialistas de la geología y minería del cinabrio. Esta relación interdisciplinar contribuye a configurar el ambiente en que deben integrarse los estudios sobre la explotación histórica de este elemento icónico de la minería hispana.
