**Supporting Reading in Grades 6-12** Sybil M. Farwell, Nancy L. Teger, 2012-06-11 This book presents a curricular framework for students grades 6-12 that school librarians and teachers can use collaboratively to enhance reading skill development, promote literature appreciation, and motivate young people to incorporate reading into their lives, beyond the required schoolwork. *Supporting Reading Grades 6-12: A Guide* addresses head-on the disturbing trend of declining leisure reading among students and demonstrates how school librarians can contribute to the development of lifelong reading habits as well as improve students' motivation and test scores. The book provides a comprehensive framework for achieving this: the READS curriculum, which stands for Read as a personal activity; Explore characteristics, history, and awards of creative works; Analyze structure and aesthetic features of creative works; Develop a literary-based product; and Score reading progress. Each of these five components is explained thoroughly, describing how school librarians can encourage students to read as individuals, in groups, and as school communities; support classroom teachers' instruction; and connect students to today's constantly evolving technologies. Used in combination with an inquiry/information-skills model, the READS curriculum enables school librarians to deliver a dynamic, balanced library program that addresses AASL's Standards for the 21st-Century Learner.

*Around the World with Historical Fiction and Folktales* Beth Bartleson Zarian, 2004 As more school districts undergo the painstaking task of curriculum integration, resources that offer children an opportunity to live vicariously in times and places they cannot experience any other way become increasingly necessary. Whether two teachers are covering the same topic in separate classes (e.g. English and history), or designing a thematic unit with the school librarian, this book will assist all parties in the selection of high quality literature. In this handy guide to nearly 800 award winning historical fiction for Kindergarten through 8th grade, Beth Zarian literally spans the globe. Entries are first divided into three sections - American history, world history, and myths and folklore - then chronologically from prehistoric times to present day, and finally by grade level. Each entry is accompanied by a short annotation. For anyone wishing to teach historical facts in an entertaining way, *Around the World with Historical Fiction and Folktales* is the only way to travel.

Teaching Literacy in Sixth Grade Karen D. Wood, Maryann Mraz, 2005-05-13 Sixth grade marks the transition to middle school and, for many students, the transition to early adolescence. The sixth-grade classroom is a place where problem-

solving and abstract thinking skills can flourish as teachers devise creative ways to integrate language arts with effective content-area instruction. This book walks the reader through everyday life in a successful sixth-grade language arts/social studies classroom and provides foundational knowledge and hands-on strategies for working with diverse learners.

Using Literature to Support Skills and Critical Discussion for Struggling Readers Nancy S. Williams, 2004 Emphasizing the need to develop higher-level thinking skills and critical discussion with intermediate and middle school struggling readers, Williams uses quality children's literature as a springboard to help readers: understand and use descriptive vocabulary and figurative language, make personal connections with text, create and solve text related mathematical problems, promote an active, engaged discussion and critical analysis of the story and the important issues raised in text, extend meaning through research and writing, art, and drama. To help teachers match student to text, literature selections are categorized according to interest (e.g., mystery, sports, humor, identity/solving problems), genre, and include reading level, interest level, and number of pages. Discussion questions and extension activities \_specific to over 100 children's literature selections\_ provide opportunities for students to ask questions, discuss and use descriptive language, make predictions and inferences, evaluate story elements, and critically reflect on character perspectives and social issues raised in the text. All questions are appropriate for individual work, special education classrooms, general education and inclusion classrooms, and help teachers facilitate literature discussion groups, book club discussion and response writing, self-regulated reading, guided reading, and whole class discussions.

**Banned Books for Kids** American Library Association (ALA), 2023-09-18 From the American Library Association comes an expansive guide to teaching banned books to children at home or in the classroom, with a forward by renowned children's author Judy Blume. Books matter. In our polarized environment, the censorship and outright banning of children's books remains a major concern for libraries. The American Library Association, an intellectual freedom champion, has created this illuminating and expansive guide for book lovers who hope to teach children the importance of banned literature. With a focus on modern books that have been banned, along with classic literature that continues to be under attack for political or religious reasons, Teaching Banned Books to Kids will educate adults and children about the importance of books. With useful tools and techniques, caregivers and educators will find the best ways to talk about banned books to children.

**Researching History Education** Linda S. Levstik, Keith C. Barton, 2018-02-06 The authors' research is well known and among the most important American works being done on how children learn history. It is thus a great idea to gather this pivotal research in one place. The volume offers a new perspective through the authors' reflections on the research process. It is profound without pomposity, ideal for the intended audience; the tone is just right. There really isn't another book that does what this one does. Stephen J. Thornton, University of South Florida Researching History Education combines a selection of Linda Levstik's and Keith Barton's previous work on teaching and learning history with their reflections on the process of research. These studies address students' ideas about time, evidence, significance, and agency, as well as classroom contexts of history education and broader social influences on students' and teacher's thinking. These pieces—widely cited in history and social studies education and typically required reading for students in the area—were chosen to illustrate major themes in the authors' own work and trends in recent research on history education. In a series of new chapters written especially for this volume, the authors introduce and reflect on their empirical studies and address three issues suggested in the title of the volume: theory, method, and context. Although research on children's and adolescents' historical understanding has been the most active area of scholarship in social studies in recent years, as yet there is little in-depth attention to research methodologies or to the perspectives on children, history, and historical thinking that these methodologies represent. This book fills that need. The authors' hope is that it will help scholars draw from the

existing body of literature in order to participate in more meaningful conversations about the teaching and learning of history. *Researching History Education* provides a needed resource for novice and experienced researchers and will be especially useful in research methodology courses, both in social studies and more generally, because of its emphasis on techniques for interviewing children, the impact of theory on research, and the importance of cross-cultural comparisons.

Nonfiction Matters Stephanie Harvey,2023-10-10 When we open the gates to nonfiction inquiry, we open our thinking and expect the unexpected, making reading discoveries, research discoveries, and writing discoveries on our way. *Nonfiction Matters* offers teachers the tools to help students explore nonfiction and dig deep to reach more complete understanding of the real world and report these insights in a compelling manner. Stephanie Harvey shows how students can read expository text, engage in research, and write authentic nonfiction that is captivating, visual, and full of voice. The inquiry projects she describes require in-depth learning: topic selection, question development, research exploration, reading for content, organization, synthesis, writing to convey meaning, and presenting findings—all skills that develop independent thinkers who know how to make decisions, solve problems, and apply their knowledge insightfully. Full of practical suggestions to help you bring nonfiction into your curriculum, *Nonfiction Matters*: presents strategies for understanding expository text and conducting meaningful research;offers ideas for organizing and writing accurate, effective nonfiction from idea to finished presentation;advances the importance of teacher modeling and guided practice in instructional delivery;provides a list of inquiry tools and resources—both print and electronic;suggests ways to facilitate project-based learning and assess the

projects as they develop; includes bibliographies of nonfiction children's books by subject and genre and lists of recommended magazines. Why is nonfiction almost a guaranteed success? The key to teaching with nonfiction is passion, for children are passionate inquirers, and nonfiction fuels their curiosity and their demand for knowledge and understanding of the world.

**Using Nonfiction for Civic Engagement in Classrooms** Vivian Yenika-Agbaw, Ruth McKoy Lowery, Paul H. U.S. History Through Children's Literature Wanda Miller, 1997-03-15 Allow students to step back in time to experience the thoughts, feelings, dilemmas, and actions of people from history. For each history topic, Miller suggests two titles—one for use with the entire class and one for use with small reading groups. Summaries of the books, author information, activities, and topics for discussion are supplemented with vocabulary lists and ideas for research topics and further reading. This integrated approach makes history meaningful to students and helps them retain historical details and facts.
