La política del matrimonio gay en América Latina Jordi Díez, 2018-05-04 En La política del matrimonio homosexual en América Latina. Argentina, Chile y México, Jordi Díez toma como punto de partida la disparidad de resultados que obtuvieron los movimientos homosexuales por la lucha de la aceptación legal del “matrimonio gay” en Argentina, Chile y México, para exponer una teoría—basada en el resultado de las entrevistas y muestreos que realizó en dichos países—que propone que los movimientos sociales, tales como la lucha por la legalización del matrimonio homosexual, se ven legitimados e incluso apoyados por las instancias legales cuando tienen suficiente fuerza y apoyo. En el caso de las manifestaciones gays y lesbianas, por ejemplo, es sorprendente el papel que tuvo el apoyo por medio de las redes sociales.

Frank Pais Jose Alvarez, 2009 Even though Fidel Castro founded the 26 of July movement, this book shows that the organizing throughout Cuba fell on the shoulders of an underground leader named Frank Pais, who was also responsible for the survival of the incipient guerrilla force led by Castro in the Sierra Maestra. Pais became not only the National Chief of Action—as portrayed in the official publications—but the top leader of the M-26-7's National Directorate. The antagonism between Castro and Pais may have been the reason for his mysterious death when he was only 22 years of age. This is the true story of his life and legacy. At this crucial time, when historians are trying to arrive at the revolution's final balance, a

book like this is essential to read before reaching an impartial verdict.

Sociedades azarosas Luis Moreno,2019-04-08 Durante los años 2016 y 2017 se han producido acontecimientos inesperados que subrayan el carácter incierto de la evolución de nuestras sociedades, como son el resultado del referéndum del Brexit, la elección de Donald Trump o el propio desarrollo del proceso independentista en Cataluña. Si en Trienio de mudanzas, su obra anterior, el autor abundaba en la idea de un cambio de época, iniciado con los atentados del 11-S en Nueva York y agudizado con el posterior crack socioeconómico de 2007-2008, en las páginas que siguen se reflexiona, por ejemplo, sobre los efectos de la desigualdad como posible preludio de guerras o de la injusticia provocada por los corruptos fiscales. Según las propias investigaciones del autor, se presta una atención especial a la posible salida del Reino Unido de la Unión Europea, así como al persistente problema de acomodo territorial en el seno de España. Asuntos como los relativos a

los efectos de la inmigración, el auge del populismo o las dificultades para la construcción política de Europa se combinan con la “anglobalización” en la dimensión económica internacional o las dificultades confrontadas por la política en España.

América Latina y el capitalismo global William I. Robinson,2017-11-23 Este ambicioso volumen narra y analiza, desde un punto de vista crítico, la globalización, los cambios sociales, económicos y políticos generalizados que atraviesan América Latina desde los años setenta del siglo pasado hasta el presente. William A. Robinson resume su teoría sobre el capitalismo global y discute como la economía política de Latinoamérica ha cambiado en cuanto que los estados se han integrado en el nuevo sistema global de producción y financiamiento, enfocándose específicamente en el aumento de las exportaciones agrícolas no tradicionales, la explosión de las maquiladoras, el turismo tradicional y la exportación de trabajo e importación de remesas. Continúa con una visión general sobre el choque entre las fuerzas capitalistas mundiales, el neoliberalismo y la nueva izquierda en América Latina, viendo de cerca los desafíos y dilemas enfrentados por los movimientos de resistencia y sus perspectivas de triunfo.

Brasil en el contexto regional e internacional: actores y temas Martha Ardila,2017-11-07 Los 35 países latinoamericanos tienen grandes potencialidades, pero su misma heterogeneidad y fraccionamiento obstaculizan una proyección más activa, positiva y sustentable en el escenario internacional y regional. El surgimiento de potencias regionales latinoamericanas de diverso rango como Brasil, México Chile, Argentina, Venezuela y Colombia, podría jalonar de manera conjunta o individual una mayor presencia latinoamericana en temas de la agenda internacional que resultan prioritarios para el sistema internacional actual. El manual Brasil en el contexto regional e internacional: actores y temas analiza didácticamente los asuntos por los que pasa Latinoamérica y por los cuales el subcontinente puede ser mirado con mayor interés en términos de alternativas para inversión, migración, negocios, soluciones ambientales, entre otros.

Discursos II Alfonso Santiago,2024-05-23 En este segundo libro de Discursos, se recogen distintas intervenciones públicas del académico Dr. Alfonso Santiago con motivo de su tarea como profesor y directivo universitario. La obra contiene más de treinta de esas presentaciones agrupadas en cuatro secciones: la primera es la más autobiográfica; la segunda recoge distintas semblanzas de juristas argentinos, que le correspondió realizar en diferentes ocasiones; en la tercera figuran algunos discursos que pronunció como director de la Escuela de Política, Gobierno y Relaciones Internacionales de la Universidad Austral; y, finalmente, la cuarta reúne presentaciones que realizó fuera de ese ámbito universitario, en instituciones públicas y privadas. El libro trata temas muy diversos, todos vinculados con el Derecho, en particular, con el Derecho constitucional.
