Howard J. Langer

America in Quotations Howard J. Langer, 2002-02-28 This is history from the inside out. What did Americans say about the great events in their own lifetimes? This book is a grassroots look at the country, as real people tell the story of America in their own voices. Quotations from more than 350 individuals are taken from speeches, interviews, editorials, letters, jokes, songs, and eyewitness accounts represent American thought from the ground up. This compendium includes the words of everyone from politicians and generals, to Native Americans, ethnic minorities, women, labor representatives, and slaves. The book is divided into 18 traditional historical periods from the pre-Columbus explorers to the terrorist attacks of September 11, 2001. We hear the voices of Jefferson, Lincoln, Teddy and FDR, but also of Joe McCarthy, Huey Long, and Susan B. Anthony. We hear American law in action through watersheds like *Brown v. the Board of Education*, the Scopes case, the prosecution of Sacco and Vanzetti, and the Salem witch trials. Then there are the grace notes, the forgotten but significant stories—a black woman beaten and humiliated for encouraging others to vote; the G.I. who overthrew a German bunker at Normandy; the last letter of a Union soldier soon to die in battle. Their words are woven into American history, remembered and illuminated in this kaleidoscopic collection.

The World of Angela Carter Dani Cavallaro, 2014-09-24 Angela Carter, a prolific author who worked in numerous genres, remains one of the most important British writers of the last century. She was particularly renowned for her

investigation of cultural mythologies, which shape our lives but which we often leave unexamined. This text explores a selection of Carter's novels and short stories, supplemented with her perspectives on politics, society and aesthetics, and her attempts to redefine popular genres such as the fairy tale. This critical work is a strong addition to the scholarship on this important but often overlooked writer.

Seductions in Narrative Gemma López, 2007 *Seductions in Narrative* is a highly original, academic study which provides a critical discourse in which desire, narrative, and subjectivity are explored. Through the critical reading of two novels by contemporary English authors, Angela Carter and Jeanette Winterson, the book cleverly assesses the ways in which desire allows the subject to imagine an alternative, utopian location where a narrative of the self, in all its multiplicity and ambiguity, can be effected. This book is unique as general studies on these issues tend to focus on the literature produced over the nineteenth century, but not on contemporary literature. The pieces which examine desire and narrative in contemporary novels tend to do so in the work of post-colonial authors. Specific works on the production of Angela Carter and Jeanette Winterson also tend to focus on a somewhat close reading of their novels, but do not make use of their fiction in order to debate specific, poststructuralist issues, as this book successfully undertakes.

A Picture Held Us Captive Tea Lobo, 2019-05-20 While there are publications on Wittgenstein's interest in Dostoevsky's novels and the recurring mentions of Wittgenstein in Sebald's works, there has been no systematic scholarship on the relation between perception (such as showing and pictures) and the problem of an adequate presentation of interiority (such as intentions or pain) for these three thinkers. This relation is important in Wittgenstein's treatment of the subject and in his private language argument, but it is also an often overlooked motif in both Dostoevsky's and Sebald's works. Dostoevsky's depiction of mindset discrepancies in a rapidly modernizing Russia can be analyzed in terms of multi-aspectivity. The theatricality of his characters demonstrates especially well Wittgenstein's account of interiority's interrelatedness with overt public practices and codes. In Sebald's *Austerlitz*, Wittgenstein's notion of family resemblances is an aesthetic strategy within the novel. Visual tropes are most obviously present in Sebald's use of photography, and can partially be read as an ethical-aesthetic imperative of rendering pain visible. Tea Lobo's book contributes towards a non-Cartesian account of literary presentations of inner life based on Wittgenstein's thought.

Heroes, Villains, and Fools Orrin E. Klapp, 2017-09-08 This volume presents three major social types in American society-heroes, villains, and fools-as models for American behaviour. Approaching these models primarily through language, Orrin E. Klapp explores what they may suggest about Americans as a people. Rather than study people, the author describes abstract types named and embedded in popular language. These social types are important symbols; and a way to attack a symbol is by identifying its meaning in various contexts. He further argues that the language surrounding heroes, villains, and fools reveals a social structure. We may not escape being ascribed a type, but we do have a choice of type. Known more commonly as finding oneself, we can manipulate cues-with dress, facial expressions, style of life, or conspicuous public roles-to build an identity. This classic study has serious contemporary implications. For a public figure, an inevitable result of the typing process is the development of at least two selves, the public and the private. When the book originally appeared in 1962, the struggle to balance two images generally only plagued celebrities and politicians. Today, social media offers everyone the opportunity to develop an online persona. This volume will be of interest to sociologists as well as anyone who has a Facebook account.

The Perfect Response Gary C. Woodward, 2010-09-20 The Perfect Response is a lucid account of the social origins of

fluency from a scholar recognized as a leading analyst of the dramaturgical dimensions of politics. In this imaginative study Gary C. Woodward creates and elucidates the idea of The Rhetorical Personality, using a deft blend of communication theory, social history and rhetorical criticism. With unusual capacities for expressiveness, persuasiveness, and sensitivity, Rhetorical Personalities thrive in settings that call for communication that will transcend differences and engage others. They typically have a heightened sense of their own persuasive power, a skill for reading audiences, and the capacity to function effectively in unfamiliar settings. Each chapter of *The Perfect Response* probes the nature of these uniquely social persons from a different perspective: through the sympathetic characters of a prolific Hollywood filmmaker; by examining the nature of the social isolation in individuals with autism-spectrum disorders; through cross-cultural comparisons; and by assessing seminal and recent social science research on key benchmarks of rhetorical skill, such as high self monitoring, other-direction, and the capacity for engagement with others. Focusing on public figures that range from comedian Steve Martin to political leaders as diverse as Bill Clinton and Tony Blair, Woodward builds a detailed conceptual map for profiling the kinds of individuals who naturally maximize the possibilities of communication in public settings.

Living I Was Your Plague Lyndal Roper, 2023-01-31 From the author of the acclaimed biography *Martin Luther: Renegade and Prophet*, new perspectives on how Luther and others crafted his larger-than-life image Martin Luther was a controversial figure during his lifetime, eliciting strong emotions in friends and enemies alike, and his outsized persona has left an indelible mark on the world today. *Living I Was Your Plague* explores how Luther carefully crafted his own image and how he has been portrayed in his own times and ours, painting a unique portrait of the man who set in motion a revolution that sundered Western Christendom. Renowned Luther biographer Lyndal Roper examines how the painter Lucas Cranach produced images that made the reformer an instantly recognizable character whose biography became part of Lutheran devotional culture. She reveals what Luther's dreams have to say about his relationships and discusses how his masculinity was on the line in his devastatingly crude and often funny polemical attacks. Roper shows how Luther's hostility to the papacy was unshaken to the day he died, how his deep-rooted anti-Semitism infused his theology, and how his memorialization has given rise to a remarkable flood of kitsch, from Here I Stand socks to Playmobil Luther. Lavishly illustrated, *Living I Was Your Plague* is a splendid work of cultural history that sheds new light on the complex and enduring legacy of Luther and his image.

Decades of Chaos and Revolution Stephen J. Nelson, 2012-03-22 Decades of Chaos and Revolution: Showdowns for College Presidents is the story and comparison of two eras in the history of higher education. The first era covers the period of the 1960s through the mid-1970s, and the second is the first decade of the twenty-first century. Both decades were marked by events that shook the foundations of colleges and universities, and society as a whole. Nelson weaves an engaging story, told through the eyes of the presidents of the institutions that were involved in the chaos of those eras. For colleges and universities and their presidents, these two decades are the toughest, most tense and demanding of times in the last hundred years, and likely in the entire history of colleges and universities in America. The enduring images are equal parts chaos and change, revolution and recovery, dashed dreams and unflagging hopes. Nelson asks, of the two eras, which faced the greater challenges? Which era required more profound leadership? And which was the more difficult and demanding of their time to navigate successfully? It is clear that Steve Nelson sees the era of the 1960s and '70s as the most difficult. He believes that it was the presidents of that earlier era who confronted dilemmas and controversies unimagined before and not witnessed since. Decades of Chaos and Revolution presents an insightful picture of the tension and tumult that presidents of the 1960s and '70s had no choice but to face. Nelson traces the roots of ideological battles in the university that have persisted over the last sixty years. He examines what worked and what didn't in the tactics used by presidents in the face of the demands inspired by the protests and politics of the 1960s and shows how they have shaped succeeding generations of presidents. Then he unravels the parallel issues and unfinished business of the 1960s, which evolved in ensuing decades, and with which presidents in the twenty-first century must also grapple. Watch the author talk more about the book on YouTube: Part I: Triggers leading up to the revolutions of the 60s/70s. Part II: Changes in the college presidency, and the inspiration for the book.

The Laws of Yesterday's Wars 2 Samuel C. Duckett White, 2022-08-22 How international is international humanitarian law? The Laws of Yesterday's Wars 2: From Ancient India to East Africa, together with its companion volume, The Laws of Yesterday's Wars: From Indigenous Australians to the American Civil War (Brill-Nijhoff, 2021), attempts to answer that question. It offers a culture-by-culture account of various unique restrictions placed on warfare over time. Containing essays by a range of laws of war academics and practitioners, it approaches the laws of yesterday's wars from a wide cross-section of history and culture, seeking to find any common ground and to demonstrate a history of international law outside the usual confines of its 'development' by Europeans and its later 'contributions.' This volume includes studies on Japanese, Islamic and Eastern Native American rules of war.
