

Taxonomía De La Conservación Industrial

Lourdes Encina Encina

Taxonomía del lucro José Manuel Naredo, 2019-04-08 En la actualidad carecemos de los conceptos y términos adecuados que permitan desvelar en qué consisten los complejos procesos de enriquecimiento y que propicien un examen que vaya más allá de lo que la ideología económica dominante muestra. Necesitamos una nueva cartografía, una nueva división y categorización de las operaciones económicas y de los movimientos financieros; en suma, necesitamos una nueva taxonomía que permita construir una economía capaz de reflejar mejor lo que está ocurriendo en el mundo. José Manuel Naredo, prestigioso analista de la economía y militante ecologista, aborda en el presente libro este vacío analítico e inaugura una nueva sistematización del lucro que tanto identifique y enjuicie sus distintas formas, como alumbre mejor los procesos de adquisición y asignación de riqueza que operan en nuestra sociedad. Bajo esta nueva luz se desvela que la economía dominante no es de ninguna manera ese pretendido lugar de objetividad donde la sociedad siempre gana; al contrario, se aprecia que es el lugar en el que el poder y el dinero van continuamente de la mano generando redes clientelares que gobiernan la apropiación y redistribución del lucro, causando daños económicos, ecológicos y sociales.

También abarca el tema del comercio clandestino de cactáceas y animales propios del desierto y la manera en que esto afecta la frágil biodiversidad de los ecosistemas.

proponer que los planes de estudio y los programas de asignatura se actualicen desde el enfoque de los desempeños ocupacionales, que consideran como indispensable que el perfil profesional de la escuela sea alineado al perfil ocupacional/laboral requerido por el sector productivo, para ello, como estrategia alternativa los contenidos de los planes de estudio y programas de asignatura se determinan como actividades profesionalizantes cerrando la brecha existente entre la escuela y el sector productivo. Esta experiencia se documenta mediante la organización procedimental del método de estudio de caso, que enmarca la secuencia de actividades que configuran; los contenidos, documentos y formatos solicitados por las instancias normativas, para validar la actualización de los planes de estudio y los programas de asignatura de las ocupaciones profesionales que se imparten en las Instituciones de Educación Superior (IES) con grado de licenciatura o posgrado.

Ethnobotany of the Mountain Regions of Mexico Alejandro Casas, José Juan Blancas Vázquez, 2023-05-31 Research in recent years has increasingly shifted away from purely academic research, and into applied aspects of the discipline, including climate change research, conservation, and sustainable development. It has by now widely been recognized that “traditional” knowledge is always in flux and adapting to a quickly changing environment. Trends of globalization, especially the globalization of plant markets, have greatly influenced how plant resources are managed nowadays. While ethnobotanical studies are now available from many regions of the world, no comprehensive encyclopedic series focusing on the world's mountain regions is available in the market. Scholars in plant sciences worldwide will be interested in this website and its dynamic content. The field (and thus the market) of ethnobotany and ethnopharmacology has grown considerably in recent years. Student interest is on the rise, attendance at professional conferences has grown steadily, and the number of professionals calling themselves ethnobotanists has increased significantly (the various societies (Society for Economic Botany, International Society of Ethnopharmacology, Society of Ethnobiology, International Society for Ethnobiology, and many regional and national societies in the field currently have thousands of members). Growth has been most robust in BRIC countries. The objective of this new MRW on Ethnobotany of Mountain Regions is to take advantage of the increasing international interest and scholarship in the field of mountain research. We anticipate including the best and latest research on a full range of descriptive, methodological, theoretical, and applied research on the most important plants for each region. Each contribution will be scientifically rigorous and contribute to the overall field of study.

Mujer y agua María Isabel Castro Rebolledo, Jeymmy Milena Walteros Rodríguez, 2022-12-01 Mujer y agua: una relación natural es una obra que sitúa a la mujer en diversos roles en los que se exaltan sus conocimientos y capacidades como gestoras, científicas e incluso protectoras en defensa del agua, del ambiente y de las comunidades presentes en el territorio. El texto se divide en tres partes: 1) mujer y acción por el agua, 2) mujer y ciencia y 3) ecofeminismo; en las que se destaca el papel de la mujer como articuladora de procesos y puente de unión entre la ciencia, la academia y la sociedad. Es una invitación colectiva para proveer alternativas integrales a la resolución de problemáticas y conflictos ambientales, donde el agua suele ser un foco de interés. El libro extiende una invitación a asumir retos y emprender acciones de adaptación, en tiempos de cambio.
