Abernathy tunes in to the voices of all Americans, showing how our diverse ideas shape the way we participate and behave, the laws we live by, and the challenges we face. His storytelling approach brings the core concepts of government to life, making them meaningful and memorable, and allows all students to see themselves reflected in the pages. American Government Scott F. Abernathy, 2016-12-16 Real People. Real Stories. Real Politics. Politics involves people, from many backgrounds, struggling to make their voices heard. Real people, telling their stories, reflect our ideals, choices, and collective experiences as a nation. In *American Government: Stories of a Nation*, author Scott Abernathy tunes in to these voices, showing how our diverse ideas shape the way we participate and behave, the laws we live by, and the challenges we face. Each chapter features real stories illustrating how the American political system is the product of strategies, calculations, and miscalculations of countless individuals. Students learn the nuts and bolts of political science through these compelling stories. Learning concepts in context is a tested learning technique that works to help ideas stick. The key concepts are memorable because they are tied to real politics, where students see political action and political

choices shaping how institutions advance or impede the fulfillment of fundamental ideas. Not only will all students see themselves reflected in the pages, but they will come to understand that they, too, are strategic players in American politics, with voices that matter. Just like the Full version, The Essentials edition is perfect for instructors who don't wish to cover the last three chapters on policy.

Stories of Nation Christopher Hebert, Martin Griffin, 2024-01-12 Throughout American history there has been an oddly close relationship between the seductive appeals of narrative fiction and those of political rhetoric and advocacy. The aim of *Stories of Nation: Fictions, Politics, and the American Experience* is to explore what political narratives and the cultural poetics behind them reveal about the way our personal and intimate lives are deeply connected with the public arena and the political process. The first section of the book, “The Politics of Fictions,” contains essays focused on works of fiction consciously dramatizing the political realm. The second group of contributions, “The Fictions of Politics,” explores structures and motifs from the narrative arts in discourses of American political life, and the interactions of public institutions and policy with forms of fictional representation, from novels to popular music and TV drama. The essays presented here broaden the conversation in American literary studies about what constitutes “the political” in literature and culture by reintroducing the dimension of institutional or representative politics. Likewise, *Stories of Nation* aims to repair the lines of communication between the idea that all fiction is political, and the view that political speech is a subgenre of literature all the more in need of examination in a highly polarized society. The range of perspectives in *Stories of Nation* will engage students of literature, popular culture, and politics alike. MARTIN GRIFFIN is an associate professor in the Department of English at the University of Tennessee. He is the author of *Ashes of the Mind: War and Memory in Northern Literature, 1865-1900* (2009) and co-author, with Constance DeVereaux, of *Narrative, Identity, and the Map of Cultural Policy: Once Upon a Time in a Globalized World* (2013). CHRISTOPHER HEBERT is an assistant professor in the Department of English at the University of Tennessee and is former senior acquisitions editor at the University of Michigan Press. He is the author of the novels *Angels of Detroit* (2016) and *The Boiling Season* (2012).
