James Oroc

DMT: The Spirit Molecule Rick Strassman, 2000-12-01 A clinical psychiatrist explores the effects of DMT, one of the most powerful psychedelics known. • A behind-the-scenes look at the cutting edge of psychedelic research. • Provides a unique scientific explanation for the phenomenon of alien abduction experiences. From 1990 to 1995 Dr. Rick Strassman conducted U.S. Government-approved and funded clinical research at the University of New Mexico in which he injected sixty volunteers with DMT, one of the most powerful psychedelics known. His detailed account of those sessions is an extraordinarily riveting inquiry into the nature of the human mind and the therapeutic potential of psychedelics. DMT, a plant-derived chemical found in the psychedelic Amazon brew, ayahuasca, is also manufactured by the human brain. In Strassman's volunteers, it consistently produced near-death and mystical experiences. Many reported convincing encounters with intelligent nonhuman presences, aliens, angels, and spirits. Nearly all felt that the sessions were among the most profound experiences of their lives. Strassman's research connects DMT with the pineal gland, considered by Hindus to be the site of the seventh chakra and by Rene Descartes to be the seat of the soul. DMT: The Spirit Molecule makes the bold case that DMT, naturally released by the pineal gland, facilitates the soul's movement in and out of the body and is an integral part of the birth and death experiences, as well as the highest states of meditation and even sexual transcendence. Strassman also believes that alien abduction experiences are brought on by accidental releases of DMT. If used wisely, DMT could trigger a period of remarkable progress in the scientific exploration of the most mystical regions of the human mind and soul.

Drugs of the Dreaming Gianluca Toro, Benjamin Thomas, 2007-05-21 The first comprehensive guide to oneirogens--naturally occurring substances that induce and enhance dreaming • Includes extensive monographs on dream-enhancing substances derived from plant, animal, and human sources • Presents the results of scientific experiments on the effects of using oneirogens • Shows how studies in this area of ethnobotany can yield a scientific understanding of the mysterious mechanism of dreams Oneirogens are plant and animal substances that have long been used to facilitate powerful and productive dreaming. From the beginning of civilization, dreams have guided the inner and outer life of human beings both in relation to each other and to the divine. For centuries shamans have employed oneirogens in finding meaning and healing in their dreams. *Drugs of the Dreaming* details the properties and actions of these dream allies, establishing ethnobotanical

profiles for 35 oneirogens, including those extracted from organic sources--such as *Calea zacatechichi* (dream herb or “leaf of the god”), *Salvia divinorum*, and a variety of plants from North and South America and the Pacific used in shamanic practices--as well as synthetically derived oneirogens. They explain the historical use of each oneirogen, its method of action, and what light it sheds on the scientific mechanism of dreaming. They conclude that oneirogens enhance the comprehensibility and facility of the dream/dreamer relationship and hold a powerful key for discerning the psychological needs and destinies of dreamers in the modern world.

El Nuevo Testamento Satanista Aposento A.k.a. Mikky Lafey, Judas Kalid, 2019-10-31 Más que un libro, este es el portal que siempre estuvo abierto, pero no contando con luz solo era el dibujo de escuelas del misterio, donde empieza el caminar por las líneas temporales más allá del velo entre el sendero. Aposento es un adepto al ocultismo y a la herencia Hermética, Jungniana, Nietzscheana, LaVeyana, Teosófica y Alquímica, nos presenta junto a Judas Kalid, una obra de filosofía de 666 páginas con hermosas ilustraciones que acompañan los 13 Capítulos que arrojan conocimientos A Priori en los campos de: Filosofía de la Religión, Ontología, Dialéctica, Hermenéutica, Ocultismo, Alquimia, Transhumanismo, Pragmatismo, Filosofía del Lenguaje, Metafísica, Nociones del Arte y Estética, Teoría del Conocimiento, Esoterismo, Simbología, Secularismo, Nueva Era y Paganismo, bajo un marco teórico-ocultista que muestra los procesos psíquicos desde la mente del profano a la del iniciado y la exposición doctrinal completa del Satanismo de la Nueva Era. Enriquecido con simbología repleta de esencias nuevas y viejas, un revivir por la riqueza alquímica, geometría sagrada y el misticismo de los Caminos de la Mano Izquierda forman el arte de las ilustraciones del libro, devolviéndole la iconografía al satanismo, llevando al lector a un nuevo estado de consciencia y a un revelado ontológico inédito de la filosofía. Aquel que aquí señale maldad, afiáncese bien a sus supersticiones y absténgase de conocer esta obra. 666 páginas - Edición Extendida con nuevas características. Ilustraciones por Aposento, Judas Kalid, Maxime Taccardi, Kat Demoniacccc y otros autores rescatados del ayer.

Peyote Dreams Charles Duits, 2013-09-20 A detailed account of the transformation of consciousness and discovery of life's purpose brought on by peyote • Shows how peyote and other visionary plants do not distort reality but gloriously unveil it, pulling the mind out of its cosmic slumber and revealing our unity with all life • Explains the necessity when working with peyote to remain the master of one's mind and consciously work on oneself • Examines how modern society's revulsion to sacramental plants and other consciousness expanders is deeply rooted in Western philosophy Charles Duits was caught in the grip of a dead-end existential and spiritual crisis. At the urging of one of his oldest friends, he takes peyote “like a man committing suicide,” launching him on a visionary journey of philosophical examination and spiritual revelation. In this little-known classic of drug literature, we find a detailed account of the radical alteration of consciousness and discovery of life's purpose brought on by the Mexican cactus known as peyote. Consuming peyote more than 200 times, Duits lucidly describes the transformation of reality he experienced as well as the necessity to consciously work on oneself and remain the master of

one's mind in order to avoid getting carried away by hallucinations. The author examines how modern society's revulsion to sacramental plants and other consciousness expanders is deeply rooted in Western philosophy's embrace of reason and materialism at the expense of inner knowledge. He explains how sacramental plants do not distort reality as many fearfully believe but gloriously unveil it, pulling the mind out of its cosmic slumber and revealing a world that is finally real and full of meaning. Poetic yet precise, Duits's descriptions of his peyote experiences offer a glimpse in to the beautiful divine reality of which we are all a part, yet over which the structures of society cast a veil. This guide to "sailing the inner sea" reveals that the answers to the meaning of life lie not in material pursuits but in experiencing the richness and unity of the world in front of us.

Tryptamine Palace James Oroc, 2009-05-21 A journey from Burning Man to the Akashic Field that suggest how 5-MeO-DMT triggers the human capacity for higher knowledge through direct contact with the zero-point field • Examines Bufo alvarius toad venom, which contains the potent natural psychedelic 5-MeO-DMT, and explores its entheogenic use • Proposes a new connection between the findings of modern physics and the knowledge held by shamans and religious sages for millennia The venom from Bufo alvarius, an unusual toad found in the Sonoran desert, contains 5-MeO-DMT, a potent natural chemical similar in effect to the more common entheogen DMT. The venom can be dried into a powder, which some researchers speculate was used ceremonially by Amerindian shamans. When smoked it prompts an instantaneous break with the physical world that causes out-of-body experiences completely removed from the conventional dimensions of reality. In Tryptamine Palace, James Oroc shares his personal experiences with 5-MeO-DMT, which led to a complete transformation of his understanding of himself and of the very fabric of reality. Driven to comprehend the transformational properties of this substance, Oroc combined extensive studies of physics and philosophy with the epiphanies he gained from his time at Burning Man. He discovered that ingesting tryptamines unlocked a fundamental human capacity for higher knowledge through direct contact with the zero-point field of modern physics, known to the ancients as the Akashic Field. In the quantum world of nonlocal interactions, the line between the physical and the mental dissolves. 5-MeO-DMT, Oroc argues, can act as a means to awaken the remarkable capacities of the human soul as well as restore experiential mystical spirituality to Western civilization.

Entheogens and the Future of Religion Robert Forte, 2012-01-25 A study of the importance of psychedelic plants and drugs in religion and society • With contributions by Albert Hofmann, R. Gordon Wasson, Jack Kornfield, Terence McKenna, the Shulgins, Rick Strassman, and others • Explores the importance of academic and religious freedom in the study of psychedelics and the mind • Exposes the need for an organized spiritual context for entheogen use in order to fully realize their transformative and sacred value We live in a time when a great many voices are calling for a spiritual renewal to address the problems that face humanity, yet the way of entheogens--one of the oldest and most widespread means of

attaining a religious experience--is forbidden, surrounded by controversy and misunderstanding. Widely employed in traditional shamanic societies, entheogens figure prominently in the origins of religion and their use continues today throughout the world. They alter consciousness in such a profound way that, depending on the set and setting, they can produce the ultimate human experiences: union with God or revelation of other mystical realities. With contributions by Albert Hofmann, Terence McKenna, Ann and Alexander Shulgin, Thomas Riedlinger, Dale Pendell, and Rick Strassman as well as interviews with R. Gordon Wasson and Jack Kornfield, this book explores ancient and modern uses of psychedelic drugs, emphasizing the complementary relationship between science and mystical experience and the importance of psychedelics to the future of religion and society. Revealing the mystical-religious possibilities of substances such as psilocybin mushrooms, mescaline, and LSD, this book exposes the vital need for developing an organized spiritual context for their use in order to fully realize their transformative and sacred value. Stressing the importance of academic and religious freedom, the authors call for a revival of scientific and religious inquiry into entheogens so they may be used safely and legally by those seeking to cultivate their spiritual awareness.

The Psychedelic Explorer's Guide James Fadiman, 2011-05-18 Psychedelics for spiritual, therapeutic, and problem-solving use • Presents practices for safe and successful psychedelic voyages, including the benefits of having a guide and how to be a guide • Reviews the value of psychedelics for healing and self-discovery as well as how LSD has facilitated scientific and technical problem-solving • Reveals how microdosing (ultr-low doses) improve cognitive functioning, emotional balance, and physical stamina • This year 600,000 people in the U.S. alone will try LSD for the first time, joining the 23 million who have already experimented with this substance Called "America's wisest and most respected authority on psychedelics and their use," James Fadiman has been involved with psychedelic research since the 1960s. In this guide to the immediate and long-term effects of psychedelic use for spiritual (high dose), therapeutic (moderate dose), and problem-solving (low dose and microdose) purposes, Fadiman outlines best practices for safe, sacred entheogenic voyages learned through his more than 40 years of experience--from the benefits of having a sensitive guide during a session (and how to be one) to the importance of the setting and pre-session intention. Fadiman reviews the newest as well as the neglected research into the psychotherapeutic value of visionary drug use for increased personal awareness and a host of serious medical conditions, including his recent study of the reasons for and results of psychedelic use among hundreds of students and professionals. He reveals new uses for LSD and other psychedelics, including microdosing, extremely low doses, for improved cognitive functioning and emotional balance. Cautioning that psychedelics are not for everyone, he dispels the myths and misperceptions about psychedelics circulating in textbooks and clinics as well as on the internet. Exploring the life-changing experiences of Ram Dass, Timothy Leary, Aldous Huxley, and Huston Smith as well as Francis Crick and Steve Jobs, Fadiman shows how psychedelics, used wisely, can lead not only to healing but also to scientific breakthroughs and spiritual

epiphanies.

La experiencia psicodélica Timothy Leary, Ralph Metzner, Richard Alpert, Daniel Pinchbeck, 2022-04-25 Un manual basado en El libro tibetano de los muertos A mediados de los años sesenta, una especial vibración recorrió nuestro planeta. La revolución hippie, destrozada por los tentáculos del pulpo capitalista que la vio nacer, supuso un revulsivo que, con el paso del tiempo, adoptó las formas más exóticas, las sutilezas más asombrosas, para sugerir a las personas el gratificante estado de éxtasis, el desarrollo de las dormidas capas de percepción, la generosa paz que deviene en un superior estado de comprensión, ausente el yo, aquietada la mente, situados en el espacio sin límites... Timothy Leary, junto a otros colaboradores, hicieron varios viajes a la India tras constatar que, en sí mismo, el «viaje» del ácido lisérgico no era la fórmula mágica para volver a todas las personas seres realizados. Estos ensayos sobre El libro tibetano de los muertos, concebidos en la época más inspirada de sus experiencias, son el resultado del contacto con la cultura oriental y la estrecha relación de ésta con los estadios superiores de la mente.

The Acid Diaries Christopher Gray, 2010-09-24 An exploration of the personal and spiritual truths revealed through LSD • Reveals that LSD visions weave an ongoing story from trip to trip • Shows that trips progress through three stages: personal issues and pre-birth consciousness, ego-loss, and on to the sacred • Explores psychedelic use throughout history, including the mass hallucinations common in the Middle Ages and the early therapeutic use of LSD Toward the end of his fifties, Christopher Gray took, for the first time in years, a 100-microgram acid trip. So extraordinary, and to his surprise so enjoyable, were the effects that he began to take the same dose in the same way--quietly and on his own--once every two to three weeks. In *The Acid Diaries*, Gray details his experimentation with LSD over a period of three years and shares the startling realization that his visions were weaving an ongoing story from trip to trip, revealing an underlying reality of personal and spiritual truths. Following the theories of Stanislav Grof and offering quotes from others' experiences that parallel his own--including those of Aldous Huxley, Albert Hofmann, and Gordon Wasson--he shows that trips progress through three stages: the first dealing with personal issues and pre-birth consciousness; the second with ego-loss, often with supernatural overtones; and the third with sacred, spiritual, and even apocalyptic themes. Pairing his experiences with an exploration of psychedelic use throughout history, including the ergot-spawned mass hallucinations that were common through the Middle Ages and the early use of LSD for therapeutic purposes, Gray offers readers a greater understanding and appreciation for the potential value of LSD not merely for transpersonal growth but also for spiritual development.

El 2012 y el centro galáctico Christine R. Page, 2010-02-16 Una guía a la expansión de la conciencia que será posible durante la alineación galáctica de 2012 • Explica los preparativos psicoespirituales necesarios para hacer la transición a esta nueva era • Muestra cómo la alineación del sol con el centro galáctico permitirá a los humanos experimentar la forma de conciencia normalmente reservada para chamanes, faraones y sabios En 2012, por primera vez en casi 26.000 años, nuestro

sol estará casi perfectamente alineado con el centro galáctico. Christine Page explica que, como fuente de toda creación, nuestra Galáctica es la Gran Madre y su centro es su corazón. Al alinearse la Tierra con el corazón de la Gran Madre, la alineación galáctica anuncia el renacimiento de las divinas cualidades femeninas de la Diosa Triple: la intuición, la creatividad emocional y la renovación. Basada en la alquimia y la mitología, Page detalla cómo conectarse y cómo usar los medios espirituales sagrados descubiertos durante la alineación para fundirnos con la Gran Madre, una transformación espiritual que nos permitirá expandir nuestra conciencia y experimentarnos a nosotros mismos como seres eternos.

The Seed, A Memorable Book: Change your steps, Change your Life PEDRO J. PEREZ, PEDRO JAVIER PEREZ
CACERES, 2020-03-28 - CHANGE YOUR STEPS, CHANGE YOUR LIFE - This is a revealing book, a tool for people to wake up to a new reality that has been hidden to benefit the interests of a few. We can stay our entire life in the big wheel while we stumble once and again without knowing why. Or we can wake up to this new reality, this new consciousness. Despite of manipulation and oppression, everyone has the key to a door which leads to discover the secrets hidden behind existence itself. The author offers a seed for us to make it grow. We have the opportunity to be free. Do not condition your happiness to anything because there will always be something else. We live with a continuous deficit of something. That something will always be missing, because once you get to the finish line, another one will emerge and will keep conditioning your happiness. Instead, we can make every single thing to become part of a whole. We can celebrate those special little moments. You were born with nothing and at the same time with everything. Therefore, you should be happy with nothing in order to be happy with everything. The purpose of life is to, simply, live, experience and evolve in every present based on original patterns which have been forgotten. The great consciousness, the whole, experience life through us and it is constantly evolving through the life experience of every single small consciousness that is part of it. If we cannot locate ourselves in the whole, we will not be capable of comprehending it" The Seed Book- PEDRO J. PEREZ - Personal Development Books Self-Help and Spirituality Books Some dedicate their lives to manipulating others, cheating them, and feeding their egos. There are no superior or inferior races. There are differences, generalities, and characteristics among the people and societies where they develop their lives. And despite the massive indoctrination established in each country, everyone has the power to offer light to those who cannot see or be part of that dark web that confuses and confronts the people of this world. Your intention, your actions, and the values that sustain them offer that light and a mirror in which others can reflect themselves. We all have the same purpose in life. Do you see that there are lions whose goal in life is different from that of other lions?... Humans are no different in this respect. The meaning of life is the same for everyone, whether we are aware of it or not. We can learn from other people. That does not make us less intelligent or make your personality weak. Observe your intention and, if you think it is convenient, integrate this knowledge. I sometimes listen to some great audios of Facundo Cabral that help me get back where I want to be. Or I delight with some beautiful phrases of the famous Mahatma Gandhi, or reading
