Power and Diplomacy Zorawar Daulet Singh, 2018-11-28 The notion that a monolithic idea of 'nonalignment' shaped India's foreign policy since its inception is a popular view. In *Power and Diplomacy*, Zorawar Daulet Singh challenges conventional wisdom by unveiling another layer of India's strategic culture. In a richly detailed narrative using new archival material, the author not only reconstructs the worldviews and strategies that underlay geopolitics during the Jawaharlal Nehru and Indira Gandhi years, he also illuminates the significant transformation in Indian statecraft as policymakers redefined some of their fundamental precepts on India's role in the subcontinent and beyond. His contention is that those exertions of Indian policymakers are equally apposite and relevant today. Whether it is about crafting a sustainable set of equations with competing great powers, formulating an intelligent Pakistan policy, managing India's ties with its smaller neighbours, dealing with China's rise and Sino-American tensions, or developing a sustainable Indian role in Asia, *Power and Diplomacy* strikes at the heart of contemporary debates on India's unfolding foreign policies.

Intelligence Services in South Asia Ryan Shaffer, ASM Ali Ashraf, 2025-02-18 This book explores colonial and post-colonial intelligence services in South Asia. It traces the genealogy of the institutions to analyze changes and continuities throughout the region. The volume also provides a framework for analyzing how intelligence services developed in these countries by looking at both internal and external issues, and shows how vital and sometimes interconnected these issues are for understanding intelligence in South Asia. It demonstrates how some countries and intelligence services borrowed from the colonial era and others started new institutions to protect national security in response to the shifting demands of the Cold War and post-Cold War era. Bringing together a group of international scholars, the anthology delves into the intelligence services of Afghanistan, Bangladesh, Bhutan, India, the Maldives, Myanmar, Nepal, Pakistan and Sri Lanka and traces how these national services developed in similar and diverse ways. This book will be of much interest to students of intelligence studies, Asian politics, security studies and International Relations.

The Khalistan Conspiracy G.B.S. Sidhu, 2020-10-24 The author, a former Special Secretary of India's external intelligence agency, the Research and Analysis Wing (R&AW), examines a series of interconnected events that led to the rise of the Khalistan movement, Operation Blue Star, the assassination of Prime Minister Indira Gandhi in 1984 and the anti-Sikh violence unleashed thereafter. With a timeline that moves from seven years before to a decade after 1984, the book strives to

answer critical questions that continue to linger till today. The narrative moves from Punjab to Canada, the US, Europe and Delhi, looking to sift the truth from the political obfuscation and opportunism, examining the role that the ruling party allegedly played, and the heart-rending violence that devoured thousands of innocent lives in its aftermath.

Punjab River Waters Dispute in South Asia Kuldip Singh, 2024-10-31 This book examines the Punjab river waters controversy in South Asia, a major defining feature of Punjab politics. It also studies the difficult situation relating to the waters at the intersectionality of Punjab, the rural Sikh community, the neighboring state of Haryana, and the Indian central government. Analyzing the history of the dispute dating back to the partition of the country in 1947, the book looks at the constitutional provisions and other laws which govern the allocation of inter-state river waters in India and their application/ departure in the allocation of river waters in case of Punjab. It also assesses the impact of river waters issue on politics of the State. The author investigates how Punjab peasants, an influential segment of society, have played a catalytic role in determining party positions on the subject, resulting in a situation where the Sutlej Yamuna Link (SYL) canal will not be allowed to be constructed in Punjab territory. An important contribution to the waters dispute in the Punjab, this book will be of interest to academics studying South Asian and Indian politics and rural political economy.

Region, Religion and Politics Amarjit S. Narang, 2022-10-06 An objective and dispassionate study of the oldest religion based regional political party: the Shiromani Akali Dal, participating in the democratic politics and processes of socio-economic development and transformation of the country. It delineates and analyses events and developments from the emergence of the Akali Dal, as a religious movement, its transformation into a religious political party, concerned with safeguarding the political, social and economic interests of the Sikhs as a minority and to represent them in governing institutions, engaged in the struggle for power in secular domain mobilising the community support using the ideology of fusion of religion and politics, yet lacking equal support from different sections of the community. Rather than dwelling on a mere narrative of events and describing strategies, tactics and agitations of the Akalis an attempt has been made to understand why and how social and economic antagonisms arising out of generation and articulation of demands in a pluralistic society, undergoing modernization and democratization may be marked by identity politics. The study is located in the broader framework of rise and growth of regional parties and identity politics in India as a part and consequence of India's adopted model of state and nation building, integration and socio-economic development and transformation.

A History of India's North-East Cinema Parthajit Baruah, 2024-12-12 A History of India's North-East Cinema: Deconstructing the Stereotypes, the first book on the history of cinema in this region, depicts the journey from the first Assamese film, Joymoti (1935), to the present time. This book addresses the peripheral status and identity crisis of North-Eastern people in mainland India, a region that comprises eight states, and examines the role of Bollywood in the construction and misrepresentation of this region in popular Hindi cinema. The book is divided into three parts. Part I looks at how the people of the North-East are constructed as 'foreigners' or 'outsiders' by mainland Indians, due to their physical facial features. Part II discusses the socio-political and cultural shifts in the region of Assam, the issue of Assamese identity which led to the Assam Movement and the upsurge of the insurgent group United Liberation Front of Assam (ULFA). It provides a nuanced discussion on the background and foreground of the first and second Assamese films, Joymoti (1935) and Indramalati (1939). Part III traces the journey of cinema in the seven other North-Eastern states-Manipur, Meghalaya, Arunachal Pradesh, Nagaland, Mizoram, Tripura and Sikkim, narrating the regions' socio-political phenomena and the unique cultural discourses. For instance, one of the chapters examines the turbulent period beginning with the Armed Forces

(Special Powers) Act (AFSPA) and its impact on the growth of cinema in the region. The book contains a rare collection of film posters, newspaper advertisements, photographs, letters and other documents, representing both the public and private domain of film-making.

Northeast India Samrat Choudhury,2023-07-13 As India and the world are roiled by questions of nationalism and identity, this book journeys into the history of one of the world's newest and most fascinating regions: Northeast India. Having appeared with the stroke of a pen in 1947, as the British Raj was torn asunder and partitioned into India and Pakistan, this is a region of hills inhabited by myriad tribes. Until colonial rule, they had lived in their ancient ways largely unmolested by their neighbours, who were rather keen to avoid their traditions of head-hunting. Samrat Choudhury chronicles the processes by which these remote hill-tribes, and the diverse other peoples inhabiting the valley of the vast Brahmaputra River below, became parts of the 'imagined nation' that is India. Through the invention of the Northeast, he explores two other ideas of India that remain in daily competition: Bharat, the Hindu nationalist conception of the country, and Hindustan, the Persian-origin name by which India is still known as far west as Turkey. Taking a long view, this absorbing political history chronicles the separate pathways by which imperialism, Christianity and the British love of tea brought each of the contemporary region's constituent states, kicking and screaming, into modern India.
