Read This Book on a Silent Hill: Meditations, that they won't tell you Norbert Szász,2022-10-31 Read This Book on a Silent Hill – aims to be a spiritual and intellectual journey through many fields. With shamans, psychonauts, hackers and non-believers, through the imperfect records of history, to the uncertainty of future, it deals with the most interesting and important topics. Life's contradictory nature is examined through short, but dense chapters, that aim to bring the reader into the present moment. To provide a compass, it draws from a wide range of topics. On its pages, you will find about witch trials, psychedelics and their surrounding taboos, secret government programmes like the MKUltra, meditative techniques and reality perceptions, as well as an examination of our current state of being. What the monetary system and work culture of today holds for the human soul, how we got to this point and what cryptography and the power of free thinking can do for us. What the Matrix and french philosophy have in common. Whether things are getting better, or worse and what we can learn from tales of long dead grapevines, snails, fields of poppies and living bread. Ultimately, we will look at concepts such as time and marvel at the beauty of reality with all its separate, yet connected features and stare into the swirling fractal just a bit too long.

Tesla D. D. Vujic,Sharon Rich,2024-11-20 He electrified the world. But Nikola Tesla's secrets remained hidden... until now. A vast number of today's electronics and appliances for use in homes and businesses are based on at least one of Nikola Tesla's patents. Tesla is credited with creating the electric car, wireless communication, and laying the foundation for smartphones and the Internet. History remembers him as a celibate, eccentric recluse who did not smoke or drink alcohol. This is how certain authorities want the world to remember Tesla. However, a recent discovery in the basement storage of the official Tesla Museum in Belgrade, Serbia reveals a collection of artifacts hidden from the eyes of the world. The collection includes intimate letters disclosing a long time passionate love affair. There is also a fancy gold cigarette case given to Tesla for his birthday by the prolific industrialist George Westinghouse. And more ominously, there is a crystal

whiskey decanter set with glasses gifted to Tesla by the original godfather of the Italian Mafia, Charles 'Lucky' Luciano. Perhaps the most interesting artifacts in this secret collection are drawings, notes, incomplete diagrams and schematics that tell the secret of a radio that can communicate with the past. Possibly right the wrongs of history. But what if this radio were to fall into the wrong hands? What of the future then? Is our present the present that was intended or has it already been altered? These artifacts whisper of a Tesla the world never knew, a man entangled in a web of intrigue, murder, romance, and secret inventions never before brought to light. Written as a novel by a best-selling biographer and an accredited screenwriter and Tesla historian, this book combines elements of fact and fiction and uncovers the tragic personal life and many secrets of Nikola Tesla.

The Actualization of Self Transcendence Patrick Mooney,2021-09-13 Sadly, western civilization has seemingly lost its sense of Christian identity and heritage. In recent decades, humanity has become so indoctrinated by the atheistic paradigm that our matrix is controlled by corporate greed and competition rather than cooperation and compassion. While reflecting on a world that is ever changing, Patrick Mooney shares essays that explore the effect of atheism on a variety of topics that include sexuality, the most binary aspect of humanity that is love, the courage of conviction, endowments and the elite as it relates to education, the reality of death, an inner-city Dublin schoolmistress, and much more. Throughout his writings, Mooney reminds us that although the modern world has brought us to a moral impasse, it is possible to adopt the spirituality that Christ preached, embrace our destiny to be spiritual, and refine our higher selves to search for and find meaning and divine purpose in our lives. The Actualization of Self-Transcendence is a collection of personal essays that shares a priest's candid reflections on the effects of the atheistic paradigm on the modern world.

Trust and Justice Wei-Bin Zhang,2023-11-22 Trust and justice are challenging humanity in scales and scopes unprecedentedly in the middle of globalization. Mankind is located at structural turning points and there are pressing needs to study justice and trust which glue mankind together. Trust and Justice: Complexity of Man, Complexity of Society, and Complexity Theory considers man as an organic complexity and society as an interactive complexity. Applying complexity theory, it discusses the implications and limitations of theories of justice. Wei-Bin Zhang analyses the dynamics of trust in modern societies. Nonlinear dynamic interactions between trust and deception and honesty and manipulations are emphasized. The author points out that some trustful relationships are not right if they are considered with broad perspectives. Modern rational civilization is bolstered by its ideology, an ideology that provides a structure for the creation, distribution, and consumption of wealth, power, and sex (and its associated products such as family and children). Zhang provides some insights into relationships between ideologies, trust, and justice. An interdisciplinary approach is applied to reveal the complexity of trust and justice.

The Tesla Gate John D. Mimms,2014-07-08 A cosmic storm reunites a father with his late son—but another kind of

disturbance awaits them—in this paranormal science fiction trilogy debut. “A fast read with some entertaining ideas and a real emotional core in the relationship between father and son.” —Publishers Weekly Thomas Pendleton loves his wife, Ann, and six-year-old son, Seth, more than anything, but his job often makes him an absent husband and father. One day, after Thomas leaves on a business trip, his wife and son are killed in a car accident. Thomas shuts himself off from the world, and is at home grieving when a cosmic storm enters Earth’s atmosphere. Scientists are baffled by its composition and origins, but not nearly as much as they are by the storm’s side effect: Anyone who has died and chosen not to cross over is suddenly visible and can interact with the living. Ann does not return, but Seth does, and Thomas sees it as a miraculous second chance to spend time with his son and keep the promises he had previously broken. They set out on a trip to the Air and Space Museum in Washington, DC, but little do they know that they are traveling headlong into a social and political maelstrom that will test Thomas in ways he could never imagine. Along the way, the father and son come face to face with armed kidnappers who want Seth for his supernatural abilities, meet up with a medium, the ghost of a slave boy, and encounter none other than Abraham Lincoln. Citing an overpopulation problem caused by the “Impalpables,” the government begins to take drastic measures. Military scientists have a device called the Tesla Gate that is said to return “Impals” to where they were before the storm. Many have nicknamed the controversial machine “the shredder” because no one knows if it will do what it is reputed to, or if it will instead shred the Impals—effectively destroying the soul. Thomas is determined to do everything possible to save Seth, or at the very least, ensure that Seth doesn’t have to endure his sentence alone . . .

Disapora Lauren Wantz, 2012-12-17 Frank Raveillac is an aging male schizophrenic with a terrible past, who having recently given up his affluent career as a scholar and historian, is now a drug addicted madman of considerable moral turpitude. *Disapora*, tells the story of his deranged lunacy, sordid love life with fallen women, and the crude adventures of the narcotic underground he partakes in with his friend and drug dealer, The Pharaoh. Herokiller Paul Tassi, 2018-08-07 “An incredible new voice in sci-fi. The kind of writer who keeps you turning the pages long into the night.”—A.G. Riddle, bestselling author of *The Atlantis Gene* and *Pandemic Ready* Player One meets *Gladiator* in this high-octane thriller that mixes black-ops espionage with fight-to-the-death combat in the arena. In the near future, the line between entertainment and brutality has blurred. Mysterious billionaire Cameron Crayton is a household name from televised spectacles in which prison inmates fight to the death, but his old shows pale in comparison to his new event, *The Crucible*, a gladiatorial tournament anyone can enter. The winner is promised unimaginable wealth and glory . . . if they’re able to survive a series of globally broadcast fight-to-the-death matches with medieval weaponry against the world’s most fearsome fighters. Former black-ops operative Mark Wei wants nothing more than to be left alone to drink after sacrificing everything—including his family—in America’s covert Cold War II against China, a war won largely because of him. But there

are rumors that Crayton’s background and business dealings involve shady connections to foreign powers, and soon Mark is convinced to reluctantly dust off his training, strap on a sword and armor, and enter the tournament arena as an undercover agent. It’s the most dangerous assignment he’s ever been given, and Mark quickly finds himself not just fighting for his life in the arena against trained killers, but racing to expose The Crucible’s founder’s secrets while navigating a viral phenomenon in which the stakes are literally life and death. . . .
