The Learning-Driven Business Alaa Garad,Jeff Gold,2021-05-13 A comprehensive guide to developing a culture of learning and education within your business. In any kind of organization, learning has become a vital part of the growth and development process, but it only produces effective results if it is pursued strategically and embedded deeply into the culture of the workplace. In recent years, there has been a growing consensus that, for many organizations, learning is their only sustainable competitive advantage - ensuring a committed and engaged workforce that is positioned to identify and exploit business opportunities in an increasingly volatile and uncertain world. This makes it essential for leaders and senior managers to investigate the full range of learning processes and to understand exactly how individual, group, machine and organization-wide learning can produce long-lasting results for individuals as well as for the company itself. Backed by new academic theory, yet designed to be completely accessible to a business readership, The Learning-Driven Business highlights the importance of Organizational Learning (OL) for organizations which wish to remain competitive and profitable, before clarifying the various pathways and frameworks that can lead to success. With the onset of automation and artificial intelligence, as well as the proliferation of redundancies and the economic instability of modern times, organizations and their employees must prioritise effective OL in order to overcome these challenges and remain competitive and relevant in the 21st century. This book is a guide for all business leaders and academics looking to adapt to the changing world through OL, using Garand & Golds' unique and original academic model.

Shareholder Value in Banking F. Fiordelisi,P. Molyneux,2006-04-19 Sustainable shareholder value is a main strategic objective for financial institutions. This text provides an analytical assessment of shareholder value creation, providing a framework for analyzing theory, and presenting empirical investigations. It analyzes the importance of drivers in creating value and develops a new measure of bank efficiency.

The Evaluation and Measurement of Library Services Joseph R. Matthews,2017-10-27 This guide provides library directors, managers, and administrators in all types of libraries with complete and up-to-date instructions on how to evaluate library services in order to improve them. It's a fact: today's libraries must evaluate their services in order to find ways to

better serve patrons and prove their value to their communities. In this greatly updated and expanded edition of Matthews' seminal text, you'll discover a breadth of tools that can be used to evaluate any library service, including newer tools designed to measure customer and patron outcomes. The book offers practical advice backed by solid research on virtually every aspect of evaluation, including quantitative and qualitative tools, data analysis, and specific recommendations for measuring individual services, such as technical services and reference and interlibrary loan. New chapters give readers effective ways to evaluate critical aspects of their libraries such as automated systems, physical space, staff, performance management frameworks, eBooks, social media, and information literacy. The author explains how broader and more robust adoption of evaluation techniques will help library managers combine traditional internal measurements, such as circulation and reference transactions, with more customer-centric metrics that reflect how well patrons feel they are served and how satisfied they are with the library. By applying this comprehensive strategy, readers will gain the ability to form a truer picture of their library's value to its stakeholders and patrons.

Service Industries Marketing Mark Gabbott, Gillian Hogg, 2014-02-25 This book covers a wide spectrum of topics, service contexts and methodologies and reflects the broad range of current services research. Its aim is to provide an eclectic overview of services marketing by including papers that demonstrate the breadth and depth of research in this area, and it reflects the international scope and the strength of the discipline as we enter the new millennium.

Methodologies and Outcomes of Engineering and Technological Pedagogy Kumar, Kaushik, Davim, J. Paulo, 2020-02-21 Engineering pedagogy is closely linked to both the technical and the pedagogical sciences. Over the years, engineering pedagogy has shifted from practical education to teaching how to integrate information, computational, and communications technology. However, while pedagogical and psychological qualifications are highly important requirements for a teaching career in engineering, the research on engineering pedagogy remains scant and scattered across journal articles, conference proceedings, workshop notes, and official reports. Methodologies and Outcomes of Engineering and Technological Pedagogy is a collection of innovative research building on the available literature that examines engineering pedagogy while providing resources necessary for policymaking, implementation, and continuous improvement. Featuring coverage on a wide range of topics including curriculum development, teaching and learning styles, and inclusivity, this book is ideally designed for educators, engineers, curriculum developers, instructional designers, managers, industry professionals, academicians, policymakers, researchers, and students.

Market Research Erik Mooi, Marko Sarstedt, Irma Mooi-Reci, 2017-11-01 This book is an easily accessible and comprehensive guide which helps make sound statistical decisions, perform analyses, and interpret the results quickly using Stata. It includes advanced coverage of ANOVA, factor, and cluster analyses in Stata, as well as essential regression and

descriptive statistics. It is aimed at those wishing to know more about the process, data management, and most commonly used methods in market research using Stata. The book offers readers an overview of the entire market research process from asking market research questions to collecting and analyzing data by means of quantitative methods. It is engaging, hands-on, and includes many practical examples, tips, and suggestions that help readers apply and interpret quantitative methods, such as regression, factor, and cluster analysis. These methods help researchers provide companies with useful insights.

A Concise Guide to Market Research Marko Sarstedt, Erik Mooi, 2014-07-29 This accessible, practice-oriented and compact text provides a hands-on introduction to market research. Using the market research process as a framework, it explains how to collect and describe data and presents the most important and frequently used quantitative analysis techniques, such as ANOVA, regression analysis, factor analysis and cluster analysis. The book describes the theoretical choices a market researcher has to make with regard to each technique, discusses how these are converted into actions in IBM SPSS version 22 and how to interpret the output. Each chapter concludes with a case study that illustrates the process using real-world data. A comprehensive Web appendix includes additional analysis techniques, datasets, video files and case studies. Tags in the text allow readers to quickly access Web content with their mobile device. The new edition features: Stronger emphasis on the gathering and analysis of secondary data (e.g., internet and social networking data) New material on data description (e.g., outlier detection and missing value analysis) Improved use of educational elements such as learning objectives, keywords, self-assessment tests, case studies, and much more Streamlined and simplified coverage of the data analysis techniques with more rules-of-thumb Uses IBM SPSS version 22

On the Job Margo DeMello, 2021-01-13 This one-volume encyclopedia examines jobs and occupations from around the world that are unique and out of the ordinary, from bike fishermen in the Netherlands and professional wedding guests in South Korea to elephant dressers in India. It's not surprising that the first question we are asked by strangers often has to do with what we do for a living. It's another way of asking, Who are you, and what are you about? But what happens when the answer to that question is I am a gondolier or I am an Instagram influencer? This book answers that question, focusing on approximately 100 unusual occupations around the world. Arranged alphabetically, entries define the jobs and detail their historical, social, and cultural significance. Entries also examine where the job is located, how it came to be, how people get into the position, and what the economic and future outlook is for that job. While the entries focus on contemporary jobs, the encyclopedia also includes sidebars that highlight unique jobs from history to give the reader a sense of how unusual (and often terrible!) some jobs once were. Students will find this book useful in looking at cultures around the world.

Tourism, Hospitality and Digital Transformation Kayhan Tajeddini, Vanessa Ratten, Thorsten Merkle, 2019-10-08 Innovation and technological advancements can be disruptive forces, especially for conventional business in the hospitality

and tourism industries. This book is timely with its critical examination of such forces and how the two industries should strategize and respond to changes effectively. It examines a wide scope of topics, from environmental scanning, formulation, implementation and evaluation to the way managers make strategy choices for better organizational performance. The book illustrates how companies can re-orient their strategies and appraise the effectiveness of the business; its key competitors; and how they should set business goals through various cases, i.e. different types of hospitality and tourism business from traditional hotels to Airbnb and endeavors to provide strategic conceptual theories with real world application through such case studies.

Rethinking Reference for Academic Libraries Carrie Forbes, Jennifer Bowers, 2014-12-05 The rapid development of the Web and Web-based technologies has led to an ongoing redefinition of reference services in academic libraries. A growing diversity of users and the need and possibility for collaboration in delivering reference services bring additional pressures for change. At the same time, there are growing demands for libraries to show accountability and service value. All of these trends have impacted the field and will continue to shape reference and research services. And they have led to a need for increasingly specialized professional competencies and a literature to support them. In order to reimagine reference service for twenty-first century learning environments, practitioners will need to understand several focal areas of emerging reference. In particular, collaboration with campus partners, diverse student populations, technological innovations, the need for assessment, and new professional competencies, present new challenges and opportunities for creating a twenty-first century learning environment. Librarians must not only understand, but also embrace these emerging reference practices. This edited volume, containing five sections and fourteen chapters, reviews the current state of reference services in academic libraries with an emphasis on innovative developments and future trends. The main theme that runs through the book is the urgent need for inventive, imaginative, and responsive reference and research services. Through literature reviews and case studies, this book provides professionals with a convenient compilation of timely issues and models at comparable institutions. As academic libraries shift from functioning primarily as collections repositories to serving as key players in discovery and knowledge creation, value-added services, such as reference, are even more central to libraries' and universities' changing missions.

Contemporary Management Approaches to the Global Hospitality and Tourism Industry Pius, Abraham, Alharahsheh, Husam H., Adesanmi, Adenike A., 2020-03-27 The hospitality, travel, and tourism industries play a major role in citizen wellbeing, socio-cultural integration, and the economic advancement of a nation. The industries are increasingly complex in operation, demanding excellence across a far-reaching and diverse set of capabilities and changes in management practices across the board. With growing expectations for a better service quality from the users and endless calls for value-added service, managers are under constant pressure to improve their services across all aspects while growing customer numbers

to meet various stakeholder expectations. Contemporary Management Approaches to the Global Hospitality and Tourism Industry is a key reference source that provides crucial knowledge on the application of new management practices and trends in the tourism industry. While highlighting topics such as service quality, culture sensitivity, and brand marketing, this publication explores the influence of globalization and the methods of sustainable business practices. This book is ideally designed for managers, hotel directors, restaurateurs, researchers, industry professionals, professors, and students seeking cutting-edge hospitality and tourism management strategies.

What is Legal Education for? Rachel Dunn, Paul Maharg, Victoria Roper, 2022-09-30 How we interpret and understand the historical contexts of legal education has profoundly affected how we understand contemporary educational cultures and practices. This book, the result of a Modern Law Review seminar, both celebrates and critiques the lasting impact of Peter Birks' influential edited collection, *Pressing Problems in the Law: Volume 2: What is the Law School for?* Published in 1996, his book addresses many critical issues that are hauntingly present in the 21st century, amongst them the impact of globalisation; technological disruption; and the tension inherent in law schools as they seek to balance the competing interest of teaching, research and administration. Yet Birks' collection misses key issues, too. The role of wellbeing, of emotion or affect, the relation of legal education to education, the status of legal education in what, since his volume, have become the devolved jurisdictions of Northern Ireland, Wales and Scotland – these and others are absent from the research agenda of the book. Today, legal educators face new challenges. We are still recovering from the effects of the Covid-19 pandemic on our universities. In 1996 Birks was keen to stress the importance of comparative research within Europe. Today, legal researchers are dismayed at the possibility of losing valuable EU research funding when the UK leaves the EU, and at the many other negative effects of Brexit on legal education. The proposed Solicitors Qualifying Examination takes legal education regulation and professional learning into uncharted waters. This book discusses these and related impacts on our legal educations. As law schools approach an existential crossroads post-Covid-19, it seems timely to revisit Birks' fundamental question: what are law schools for?

Wait No More Benjamin Roseth, Angela Reyes, Pedro Farias, Miguel Porrúa, Harold Villalba, Sebastián Acevedo, Norma Peña, Elsa Estevez, Sebastián Linares Lejarraga, Pablo Fillottrani, 2018-06-06 This book is about the smallest unit of public policy: the government transaction. Government transactions [requesting a birth certificate, registering a property, or opening a business, for example] are the way that citizens and companies connect with the government. Efficient transactions enhance the business climate, citizen perception of government, and access to crucial public programs and services. In Latin America and the Caribbean, however, government transactions are often headaches. Public institutions

rarely coordinate with each other, still rely on paper, and are more concerned about fulfilling bureaucratic requirements than meeting citizens' needs. Wait No More empirically confirms a reality known anecdotally but previously unquantified and offers a path to escape the bureaucratic maze.

Handbook of Communication Audits for Organisations Owen Hargie, Dennis Tourish, 2000 This book could serve as the module text in organisational communication for final year undergraduates/postgraduates. It is also a complete handbook for those whose task it is to carry out an audit.

Marketing Tourism and Hospitality Richard George, 2025-05-11 This second edition of this comprehensive textbook explores the fundamental principles of marketing applied to tourism and hospitality businesses, placing special emphasis on SMEs in the international tourism industry. It includes examples from a wide range of destinations, from emerging markets to high-income countries. Taking a comprehensive approach, the book covers the whole spectrum of tourism and hospitality marketing including destination marketing, marketing research, consumer behaviour, responsible tourism marketing, and digital and social media marketing. Practical in focus, it gives students the tools, techniques, and underlying theory required to design and implement successful tourism marketing plans. Written in an accessible and user-friendly style - this entire industry textbook includes case studies, drawing on the author's experience and real-life examples. Revised and expanded throughout, it covers:

- Advances in AI, robotics and automation
- Digital marketing, electronic customer relationship management (eCRM) and uses of user-generated content (UGC)
- New and updated content and discussion questions for self-study and to use in class
- A new chapter on responsible tourism marketing and sustainable approaches to marketing
- Consumer behaviour in tourism and the effects of climate change and changes in consumer attitudes.
- New trends in tourism and hospitality marketing
- New in-depth real-life case studies and industry insights throughout the book

Along with key concepts and theory, definitions, key summaries, and discussion questions, accompanying online flashcards and PowerPoint slides for lecturers, this textbook is ideal for undergraduate and postgraduate students looking for a comprehensive text with a practical orientation.

B2B Relationship Marketing Management in Trade Fair Activity Marcin Gębarowski, Dariusz Siemieniako, 2016-05-11 The issues of B2B management and B2B marketing are becoming of increasing interest to business scholars and practitioners. This book is the first publication dedicated solely to the connection between relationship marketing management and trade fair activity management, two essential marketing concepts. It investigates the role of trade fairs with regard to B2B relationship marketing management in the era of the world economic crisis using the example of the retail real estate industry. A vital issue tackled in this book refers to the exploration of the characteristics of retail real estate trade fairs from the perspective of creating conditions favourable for developing business relationships. The book begins by presenting the issue of contemporary retail real estate trade fairs and the methods of researching into the

marketing activity of exhibitors. It then uses a four-stage primary research method to propose a model of managing retail real estate trade fair participants' relationships with customers and other trade fair participants. The results of this study are then used to present the issue of trade fair activity management in a project life cycle, before the book goes on to explore the general problem of relationship marketing management in B2B services. In addition, it also discusses marketing activities participated in during trade fairs, such as experiential marketing and a trade fair conversation. As such, the book provides an extensive perspective on the researched phenomenon, and its findings will also be useful in other industries.

Consumer Behaviour: Asia-Pacific Edition Wayne D. Hoyer, Deborah J. MacInnis, Rik Pieters, Eugene Chan, Gavin Northey, 2017-01-01 Cutting edge and relevant to the local context, this first Australia and New Zealand edition of Hoyer, Consumer Behaviour, covers the latest research from the academic field of consumer behaviour. The text explores new examples of consumer behaviour using case studies, advertisements and brands from Australia and the Asia-Pacific region. The authors recognise the critical links to areas such as marketing, public policy and ethics, as well as covering the importance of online consumer behaviour with significant content on how social media and smartphones are changing the way marketers understand consumers. * Students grasp the big picture and see how the chapters and topics relate to each other by reviewing detailed concept maps * Marketing Implications boxes examine how theoretical concepts have been used in practice, and challenge students to think about how marketing decisions impact consumers * Considerations boxes require students to think deeply about technological, research, cultural and international factors to consider in relation to the contemporary consumer * Opening vignettes and end-of-chapter cases give students real-world insights into, and opportunities to analyse consumer behaviour, with extensive Australian and international examples providing issues in context

Handbook of Health Services Evaluation Axel Kaehne, Julie Feather, 2025-07-28 This handbook offers a comprehensive overview of the theories, methods and practices in evaluating health services. Written by international experts and practitioners in the field, it is an essential resource for anyone who plans or conducts evaluations of health care organisations, as well as for those who want to learn more about the strengths and limitations of specific evaluation techniques and methods. The individual chapters summarise the latest evidence and good practice of established, tried and tested evaluation approaches as well as novel and innovative evaluation techniques in clinical and health organisational settings. The handbook comprises chapters on a wide range of topics such as digital technologies, leadership in health services, trauma-informed evaluation, harm reduction in evaluation, learning health systems and collective impact design. Each chapter provides a state-of-the-art summary of the current evaluation practice together with up-to-date references to existing published research.
