**Issues in Syllabus Design**, 2017-11-11 The various types of syllabi and the host of related issues in the field of second

language teaching and course development manifest the significance of syllabus design as one of the most controversial areas of second language pedagogy. Teachers should be familiar with different types of syllabuses and be able to critically analyze them. *Issues in Syllabus Design* addresses the major types of syllabuses in language course development and provides readers with the theoretical foundations and practical aspects of implementing syllabuses for use in language teaching programs. It starts with an introduction to the concept of syllabus design along with its philosophical foundations and then briefly covers the major syllabus types from a historical perspective and pedagogical significance: the grammatical, situational, skill-based, lexical, genre-based, functional notional, content, task-based, negotiated, and discourse syllabus.

**Teaching and Learning English Grammar** MaryAnn Christison, Donna Christian, Patricia A. Duff, Nina Spada, 2015-03-02 An important contribution to the emerging body of research-based knowledge about English grammar, this volume presents empirical studies along with syntheses and overviews of previous and ongoing work on the teaching and learning of grammar for learners of English as a second/foreign language. It explores a variety of approaches, including form-focused instruction, content and language integration, corpus-based lexicogrammatical approaches, and social perspectives on grammar instruction. Nine chapter authors are Priority Research Grant or Doctoral Dissertation Grant awardees from The International Research Foundation for English Language Education (TIRF), and four overview chapters are written by well-known experts in English language education. Each research chapter addresses issues that motivated the research, the context of the research, data collection and analysis, findings and discussion, and implications for practice, policy, and future research. The TIRF-sponsored research was made possible by a generous gift from Betty Azar. This book honors her contributions to the field and recognizes her generosity in collaborating with TIRF to support research on English grammar. *Teaching and Learning English Grammar* is the second volume in the Global Research on Teaching and Learning English Series, co-published by Routledge and TIRF.

Short Film Screenwriting Austin Bunn, 2024-10-03 Written by a Sundance alum and short filmmaker, this book combines the practical advice of a craft guide with a curated, diverse anthology, including revealing interviews with the writers and directors. *Short Film Screenwriting* demystifies the process of writing effective, emotionally involving short films and, for the first time, publishes the screenplays of some award-winning shorts, providing unfiltered access to the voice, vision, and

approach of the filmmakers. A ground-breaking new addition to both film and creative writing instruction, this book treats short film screenwriting as a literary mode worthy of close examination and exploration to inspire screenwriters. The book is built around accessible craft concepts and story forms: narrative design, visualizing character, uncommon relationship, the 10-minute journey, perception shift, formal experiments and hybrid forms, and revision. Contemporary, award-winning film scripts from the Oscars, Sundance, SXSW, and beyond accompany chapters as case studies, along with interviews with the writers/filmmakers about the drafting and revision process, production, and release. Each of the films is accessible for screening online, with additional screenplays included in an online resource.

*The Influence Effect* Kathryn Heath, Jill Flynn, Mary Davis Holt, Diana Faison, 2017-11-06 Women hold over half of all professional jobs today, yet they represent just four percent of CEOs in the S&P 500. Even worse, that percentage has barely budged in a decade. That's where *The Influence Effect* comes in. Based on recent research by the authors of the New York Times bestseller *Break Your Own Rules*, this book begins with the premise that when it comes to political savvy, what works for men at work won't work for women. Packed with the authors' coaching insights and their “Big Five” strategies designed specifically for female executives, this book guides women to break past political barriers and get right to what they really want—influence. Authors Kathryn Heath, Jill Flynn, Mary Davis Holt, and Diana Faison make success far less complex, helping women overcome entrenched resistance to their ideas, create their own access points to power, and attract followers in a way that works for them. They present tools such as Influence Loops (to organically increase influence), Personal Scaffolding (to grow a groundswell of support), and Scenario Thinking (a savvy twist on strategic planning). These and other smart strategies finally allow women to succeed on their own terms. Illustrated with dozens of engaging, real stories culled from the authors' many years of coaching experience, *The Influence Effect* moves women past the politics problem and offers a new path to power. Actually, it's more than a path—it's a runway—it frees women to take off in their careers on their own terms. *The Influence Effect* will work for women, not because gender barriers will no longer exist, but because they will no longer hold women back.

*Touchstone Level 1 Student's Book B with Online Workbook B* Michael McCarthy, Jeanne McCarten, Helen Sandiford, 2014-04-28 Touchstone, together with Viewpoint, is a six-level English program based on research from the Cambridge English Corpus. Touchstone uses a corpus-informed syllabus ensuring students are learning the language that people really use. Activities include a strong focus on inductive learning, personalized practice, and encouraging learner autonomy. Student's Book, Level 1B, includes Units 7-12 of Level 1 Student's Book and is at the beginning CEFR level (A1). This version of the Student's Book contains an activation code that grants access to the Online Workbook, Level 1B for 12 months. The Online Workbook provides practice of the language studied in the Student's Book. Exercises are graded automatically and students can easily track their progress and scores.

Touchstone Level 1 Workbook L1 Michael J. McCarthy, Jeanne McCarten, Helen Sandiford, 2005-05-09 The Touchstone Workbook provides follow-up exercises for each lesson in the Student's Book, allowing for a thorough practice of new vocabulary, structures, and conversation strategies and providing extra reading and writing activities. A progress chart at the end of each unit helps students evaluate their progress and plan further study.

Using Advocacy in Social Work Practice Peter Scourfield, 2021-03-07 This book explains different types of advocacy and the various ways in which advocacy is used in social work, making links with core social work concepts such as empowerment, safeguarding and rights. Tracing how the use of advocacy is mandated in professional social work guidance and codes of practice as well as in legislation such as the Care Act 2014 and the Mental Capacity Act 2005, this book:

- Explores definitions of advocacy, discusses what it can achieve and explains the different uses of advocacy in social work.
- Covers the necessary knowledge, skills and values that social workers need in order to advocate effectively in their own practice.
- Discusses critically what independent advocacy is and explains why it has become an integral part of contemporary social work. Examples are provided of where independent advocacy plays an important role in different areas of social work.
- Explains what social workers need to know about working effectively with different types of advocates.
- Encourages critical reflection on the relationship between social work and independent advocacy and flags debates and issues relating to the use of advocacy in social work.

Aimed at social work students and social work professionals, this book provides an excellent introduction into a topic which is highly relevant to social work, using case-studies and activities to aid understanding.

**The Poetics of Scale** Conrad Steel, 2024-02-19 Since the start of the twentieth century, poets have been irresistibly drawn to the image of the poem as a kind of data-handling, a way of mediating between the divergent scales of aesthetics and infrastructure, language and technology. Conrad Steel shows how the history of poetry—with its particular formal affordances, and the particular hopes and fears we invest it with—has always been bound up with our changing logistics of macroscale representation. The Poetics of Scale takes us back to the years before the First World War in Paris, where the poet Guillaume Apollinaire claimed to have invented a new mode of poetry large enough to take on the challenges of the coming twentieth century. This history follows Apollinaire's ideas across the Atlantic and examines how and why his work became such a vital source of inspiration for American poets through the era of intensive American economic expansion and up to the present day. Threading together Apollinaire's work in the 1910s with three of his American successors—Louis

Zukofsky in the 1930s, Allen Ginsberg in the 1950s, and Alice Notley from the 1970s onward—it shows how poetry as a cultural technique became the crucial test case for the scale of our collective imagination.

**Performing Arts as High-Impact Practice** Michelle Hayford, Susan Kattwinkel, 2018-05-21 This book investigates how the performing arts in higher education nationally contribute to the “high impact practices,” as identified by the Association of American Colleges and Universities (AACU). Using the well-known map of the HIPs for illustrating the centrality of performing arts practices in higher education, the editors and authors of this volume call for increased participation by performing arts programs in general education and campus initiatives, with specific case studies as a guide. Performing arts contribute to the efforts of their institution in delivering a strong liberal arts education that uniquely serves students to meet the careers of the future. This is the first book to explicitly link the performing arts to the HIPs, and will result in the implementation of best practices to better meet the educational needs of students. At stake is the viability of performing arts programs to continue to serve students in their pursuit of a liberal arts education.
