Economics is the nexus and engine that runs society, affecting societal well-being, raising standards of living when economies prosper or lowering citizens through class structures when economies perform poorly. Our society only has to witness the booms and busts of the past decade to see how economics profoundly affects the cores of societies around the world. From a household budget to international trade, economics ranges from the micro- to the macro-level. It relates to a breadth of social science disciplines that help describe the content of the proposed encyclopedia, which will explicitly approach economics through varied disciplinary lenses. Although there are encyclopedias of covering economics (especially classic economic theory and history), the SAGE Encyclopedia of Economics and Society emphasizes the contemporary world, contemporary issues, and society. Features: 4 volumes with approximately 800 signed articles ranging from 1,000 to 5,000 words each are presented in a choice of print or electronic editions Organized A-to-Z with a thematic Reader's Guide in the

front matter groups related entries Articles conclude with References & Future Readings to guide students to the next step on their research journeys Cross-references between and among articles combine with a thorough Index and the Reader's Guide to enhance search-and-browse in the electronic version Pedagogical elements include a Chronology of Economics and Society, Resource Guide, and Glossary This academic, multi-author reference work will serve as a general, non-technical resource for students and researchers within social science programs who seek to better understand economics through a contemporary lens.

Coleridge Notebooks V5 Text Kathleen Coburn,2019-09-16 During his adult life until his death in 1834, Coleridge made entries in more than sixty notebooks. Neither commonplace books nor diaries, but something of both, they contain notes on literary, theological, philosophical, scientific, social and psychological matters, plans for and fragments of works and many other items of great interest. Shortly after World War II, Kathleen Coburn, formerly of Victoria College in Toronto, rediscovered this great collection of unpublished manuscripts. With the support of the Coleridge estate, she embarked on a career of editing and publishing these volumes and was awarded with many honours for her work, including: a Leverhulme Award (1948), a Guggenheim Fellowship (1953), a Fellowship in the Royal Society of Canada (1958), the Order of Canada (1974) and an honorary doctorate from her own university. Originally projected as a five volume set (each volume consisting of a book of text and a book of notes). First published in 2002. Volume 5 of the Text on the Notebooks of Samuel Taylor Coleridge, spanning from 1827 to 1834. The volume is in two parts, text and notes.
