**Gaming and the Heroic Life** Bobby Angel, 2023-11-03 Video games fuel a fundamental human drive for adventure—like the epic quest to slay zombies, a solo voyage to rescue the princess, or setting off with a clan to defeat the final boss. The desire to be a hero in your journey is something Bobby Angel can relate to. A lifelong gamer, he was the cohost of the God and Gaming series on YouTube and often appears as a guest on Bearded Blevins's Around the Halo on Twitch. In *Gaming and the Heroic Life*, Bobby explains that you don't have to just play the role of hero in a game—you can actually pursue a heroic life by the way you engage the virtual world. *Gaming and the Heroic Life* is a map to becoming not only a better gamer but also a better person—one who has a purpose and knows where they fit into the world. The book contains three levels: Level One explores why people love games and what games have to do with God. Level Two examines how the Easter eggs of truth, beauty, and goodness in games impact players in much the same way that they impact your relationship with God. Level Three demonstrates how gaming can propel players AFK (away from keyboard) to find purpose and meaning in service to others. Bobby shows where video games intersect with a life of faith in God—how games echo with our call to holiness and how we can respond to that call in both the virtual and real worlds.

**In the Shadow of the Capitol Dome** Brian Boggs, 2024-08-01 The Tenth Amendment of the United States Constitution places education firmly under the purview of the states. As such, and from the time the first public education system was conceived in the United States, there have been endless battles under the domes of state capitals everywhere to create, control, and reform educational policy. However, despite the prominent role that states and their legislatures have as central actors in forming educational policy, very few policy actors and even fewer academics have been able to pierce the veil of policymaking at the state level. This case study addresses that gap by examining how one particular educational policy – The Michigan Public Education Finance Act – was created, lived, died, and was resurrected in the State of Michigan. Through the exploration of this policy, there is a particular focus on the use of critical legal theory to examine hidden power structure embedded in the legislative legal system and apply this often-overlooked critical approach to education policy research. Readers will come to understand what educational policymaking looks like at the state level and how to engage their voice in the process. With the increasing political nature of education policy and the fight to control it in the halls of local state capitals, educators as well as the public need to know how to access the political system and have their voice heard. However, it can also appear to be impenetrable to an outsider. This book will demystify the policy making process.

**Doors of the Past** Lucia Cristina Tirri,2024-09-27T00:00:00+02:00 Doors of the Past is a memoir which aims to analyze

the narrator's attraction towards the American dream and the United States, her native country left as a child. Born in the Bronx in an Italian family, she grew up in a rural setting in Irpinia where her father, during a vacation, in a rapture of nostalgia, decided to come back after a seven year stay in New York. The author explores her family history of migration; her deep intergenerational relationships with north America; her great fascination towards New England, where part of her family moved tracing a new interesting life path and where she had dreamt to move after taking her university degree. Thanks to the English language aspects of Italianità, that have always caused her strong feelings of discomfort and rejection, are deeply investigated. If you were born in a place and grow up in another one, you miss the language and who knows what else!

**A Booktiful Love** Tolu' A. Akinyemi,2020-05-08 A Booktiful Love is a collection of poems that deal with the entirety of human experience in its various forms. Didactically rich, the poems explore ideas ranging from love, relationships, and patriotism to marriage, morality, and many other concepts pertinent to daily living. Given its variety of themes, what unifies the poems in this collection is the simplicity and ambiguousness of language which the poet employs. The poems draw their strength from their clarity and meaning. These are poems with a purpose. Poet Tolu' A. Akinyemi didn't shy away from this fact, as he wrote in the poems "Writers" and "Write for Rights." The poet's philosophy is evident in this collection. To him, a writer is saddled with the responsibility to use his words to teach, preach, and fight for freedom. He writes: "Let's change the world, one writer at a time, Write those words till the world gets it right." Another special attribute to this collection is the poet's experimentation with words. This is clear right from the title. The poet identifies himself as a creator of words. The reader is obliged to travel into the mind of the writer in each poem, to understand how his mind works. As readers approach the end of this collection, they not only become engrossed in its didactic richness, but also will appreciate the uniqueness of the poet's style and the sense of responsibility he carries.
