*Building a hydronic heating system using a tankless hot water ...* I got the wild idea off an internet site to build a hydronic heater for my garage. It is a sealed system using a radiator in the ceiling, tankless Ecotemp FV112 4 gpm on the wall, taco scoop w/valve, expansion tank and filling valves. I pressurize it with my garden hose and then close the fill valve. It's currently pressurized at 60 psi. I'm using a Watts hot water recirculation pump. ... tankless vs. tank hot water heater in place with "hard" water We live in Cambridge, MA which is known for its very hard water. Our water heater is basically caput. I'd like to upgrade to tankless given the energy savings (the state gives a \$750 rebate vs. \$100 for regular water heater), but am not clear on the cost-benefit here. It seems tankless have higher annual maintenance costs and more likely to have problems, which may or may not ... **Two Rinnai tankless water heaters connected in parallel. Only ...** How can I force the other unit to run as well? I have tried running ALL the hot faucets in the house, still no luck. **Tankless Hot Water Heaters — Heating Help: The Wall** We have a lot of minerals in the water in my area. Would the minerals build up on a tankless heater, like we have on tankless coils inside of boilers? **Direct Vent vs. Power Vent vs. Tankless - Heating Help** Our old natural gas hot water tank vents into a chimney. The chimney above the roof is failing, I don't want to pay to have it rebuilt so I want to abandon it, the hot water tank is all that uses it. For space reasons I don't think a direct vent tank will work (both space inside and especially a venting space outside). That leads me with power vent and tankless. We have very low natural gas ... *Tankless Water Heater for Cast Iron Radiators? - Heating Help* Aug 1, 2008 · Tankless Water Heater for Cast Iron Radiators? joel\_28 Member Posts: 21 August 2008 No Understanding tankless recirculating water heaters - Page 3 If you know how long it takes for hot water to begin to arrive at the remote location and you turn on a hot water tap or shower before the tankless heater turns off due to reaching its set point in the recirculation line, there will be no cold water sandwich created. If you wait too long the recirc. line gets hot and the heater will turn off. *Want a storage tank to make tankless water heater more efficient.* Nov 1, 2017 · I was hoping i could just put some kind of tank before the tankless heater so the water would be allowed to warm naturally to room temperature, but i can't find anything. Everything is either pressure tanks for wells, or tanked water heaters. Do they make storage tanks that can be plumbed into system? Too much pressure? **Using an electric hot water tank heater for a radiant floor,** Before everyone jumps on me for using a electric hot water heater for a radiant floor let me explain. First, i wanted to keep my parts & installation costs down while waiting for the

release of more efficient air to water heat pumps, a Renewaboiler, etc. Secondly, the radiant floor is relatively small at 560 sq ft in a ICF built extention to an existing house. I have two zones that ... **Mixing valve on Tankless...? — Heating Help: The Wall** Anyone ever heard of an inspector requiring a Mixing valve on a tankless WH such as a Noritz or a Rinnai? A coil I can see...and would do.
