**Open Access Implications for Sustainable Social, Political, and Economic Development** Jain, Priti,Mnjama, Nathan,Oladokun, O.,2020-09-18 Open access publishing can be used as a strategic tool to avail access to information and achieve universal literacy. Open access has gained importance over the past 15 years by making knowledge available to all, without any barrier of affordability or restrictions on using this knowledge to inform and develop. Open access contributes to scientific research excellence, disseminates research results to a wider community, and promotes multi-disciplinary and collaborative research. Issues of sustainable development and open access are major concerns in librarianship and information management, particularly as the international library and information management community is focusing on how to contribute to the Sustainable Development Goals. Open Access Implications for Sustainable Social, Political, and Economic Development is a pivotal reference source that provides an understanding of the concept of open access within the context of social, political, and economic development and deliberates the critical issues and challenges that face the implementation of open access and its impact on the global economy and sustainable development. While highlighting a broad range of topics including digital scholarship, open data, and ethics, this book is ideally designed for librarians, information science professionals, government officials, policymakers, academicians, researchers, and students.

Challenging the Myth of Gender Equality in Sweden Griffin, Gabriele, Martinsson, Lena, Katarina Giritli Nygren, 2017-09 Sweden has the reputation of being one of the most gender-equal countries in the world, and it is often held up as a model for other societies--but the reality is much more complicated, as this volume shows. The first book to provide a thorough analysis

of the myth of Swedish gender equality, it demonstrates how that dominant idea has become a form of heteronormative, racially specific nationalism that ultimately excludes those who fall outside the social norm.

*Documentation from Truth and Reconciliation Commissions* Proscovia Svård, Bonny Ibhawoh, 2024-08-12 Documentation from Truth and Reconciliation Commissions highlights the need for post-conflict societies to have access to - and to use - Truth Reconciliation Commissions (TRCs') documentation to achieve reconciliation and to work towards a democratic society. Including international contributions from a range of disciplines, the volume discusses the challenges that surround TRCs' documentation. Considering the impact of the politicization of documentation, chapters also highlight the lack of political will to democratize information, the lack of dissemination and the preservation infrastructures that hinder access and its effective use and re-use. Arguing that TRCs' documentation should be used to inform policy, improve governance and to promote justice, healing and reconciliation, the volume considers the ethical challenges involved in disseminating such information. Contributing authors argue that information professionals should play a major role in the planning for the TRCs' information management infrastructures, if they are to facilitate access, effectively manage the generated documentation, deal with preservation of the compound records and promote the dissemination of the TRC findings. Documentation from Truth and Reconciliation Commissions demonstrates that TRCs' documentation provides validation of human rights violations and that it helps to promote an understanding of the causes of conflict. As such, it will be essential reading for academics and students working in Archival Studies, Information Science, History, Transitional Justice, and Peace and Conflict Studies

**Proceedings of the 4th Global Summit of Research Institutes for Disaster Risk Reduction** Hirokazu Tatano, Andrew Collins, 2022-11-30 This book presents selected papers by the keynote speakers and other presenters from various disciplines and includes their opinions and evaluations. The Fourth Global Summit of Research Institutes for Disaster Risk Reduction (4th GSRIDRR, 2019): Increasing the Effectiveness and Relevance of our Institutes, sponsored by the Global Alliance of Disaster Research Institutes (GADRI) and Kyoto University, was hosted by and held at the Disaster Prevention Research Institute (DPRI), Kyoto University, Uji Campus, Kyoto, Japan, 13-15 March 2019.. The Global Summit series provided a platform for researchers, practitioners, policy makers, and other stakeholders in both government and non-governmental institutes involved in disaster risk reduction and resilience to come together to discuss, share, and exchange ideas. It focuses specifically on contributing input to the contextualization and revision of the goals of the 2016 Science and Technology Roadmap to implementation of the Priority Areas of the Sendai Framework for Disaster Risk Reduction Agenda 2015-2030, with input for GADRI to move forward in its contributions to the worldwide science community. The conference comprised an impressive array of global stakeholders whose expertise and experience encompassed the management of knowledge and its application for governments and industries, with shared outcomes to bridge science and decision making. It enhanced a process to confront new scientific challenges in disaster risk reduction and disaster risk management. The

conference accomplished the following major goals, among others: (1) engagement in dialogue on issues related to disaster prevention and contributions to the Science and Technology Roadmap adopted to support the implementation of the Sendai Framework Agenda 2015–2030; (2) evaluation of current efforts on global and national involvement in the field of disaster prevention research in relation to the implementation of the Priority Areas of the Sendai Framework for Disaster Risk Reduction 2015–2030; (3) assessment of the status of current research knowledge and efforts, and research results at the institutional level in each country.

Proceedings of the International Conference EGOV-CeDEM-ePart 2018 Virkar, Shefali, Parycek, Peter, Edelmann, Noella, Glassey, Olivier, Janssen, Marijn, Scholl, Hans Jochen, Tambouris, Efthimios, 2018-08-15 EGOV-CeDEM-ePart 2018 represents the merge of the IFIP WG 8.5 Electronic Government (EGOV), the IFIP WG 8.5 IFIP Electronic Participation (ePart) and the Conference for E-Democracy and Open Government Conference (CeDEM). **A Modern Guide to the Multiple Streams Framework** Nikolaos Zahariadis, Nicole Herweg, Reimut Zohlnhöfer, Evangelia Petridou, 2023-11-03 Applying the Multiple Streams Framework (MSF) to a global range of case studies, this pioneering Modern Guide addresses how policymakers decide what issues to attend to and which choices to make or implement. In doing so it outlines that, far from being the exception, ambiguity and timing are integral parts of every comparative explanation of the policy process.

**Tourism Enclaves** Jarkko Saarinen, Sandra Wall-Reinius, 2021-04-13 Exclusively planned tourism destinations have increased substantially over the last decades. As a result, gated leisure communities, all-inclusive resorts, private cruise liner-owned island and other tourism enclaves are rather common features in tourism, especially in the peripheries and low- and middle-income countries. Tourism enclaves can have varied characteristics and scales of operations but typically they involve standardized ‘non-local’ themes or appeal in their design, activities and economies. Typically, such tourism spaces contain all or a vast majority of facilities and services needed for tourists who have limited possibilities or desires to leave the enclave. At the same time, the locals’ access to these spaces is often limited or otherwise regulated. Thus, enclave tourism spaces are controlled and separated from surrounding communities. *Tourism Enclaves: Geographies of Exclusive Spaces in Tourism* focuses on tourism enclaves in different theoretical and geographical contexts. The chapters of the book aim to contribute to our understanding of how these exclusive spaces are created and transformed and how they shape places and

place identities. The chapters in this book were originally published as a special issue of the journal Tourism Geographies.
